

灵感来源

瓷砖，质感坚硬，表面略有质感。布局规范，边角清晰，每一块大小基本相同，偶尔出现错落布局增加趣味。

字体设计

字体选用现代时尚的San Serif类字体，考虑到字体需要体现出瓷砖设计的稳重大方，又不失打破常规的变换，最终使用三个不同粗细的Open Sans字体搭配组合。

Open Sans  
Steve Matteson (Regular)

The sky was  
cloudless and of  
a deep dark blue.

Open Sans  
Steve Matteson (Semi-Bold)

The spectacle  
before us was  
indeed sublime.

Open Sans  
Steve Matteson (Bold)

Then came the  
night of the first  
falling star.

With an amazing view on the sea, this villa is located in the Bodrum peninsula and the protagonist of the interior and exterior spaces is the Walks/1.0 collection. The series, which reinterprets the aesthetic of quartzite, enriches the ambiances creating a continuity between the indoor and outdoor areas. For the floor, the Gray color has been used in two different finishes, Soft and Matte, covering a total surface of 13,000 squared meters. The collection is part of the Floor Gres brand and is characterized by high technical performances such as high slip resistance. For this reason this is the ideal product for the pool area.

EVENTS

DPTiles at IFFS, Singapore

March 9, 2019 - March 12, 2019

From March 9th to 12th we will take part in the International Furniture Fair of Singapore, the most important international event in the design sector in Asia, at the Sands Expo & Convention Centre of Marina Bay Sands

The highlights of our exhibition space (Booth C 313 Level 1) will be the surfaces of our latest collections, with a particular focus on the large formats and the kitchen and bathroom applications.

Among the products displayed, the Étoile de Rex collection offering a selection of new and rare marbles, with a strong decorative impact, that come from extremely distant geographical areas; the FLORIM stone brand especially designed for countertops; the Airtech collection by Floor Gres which reinterprets six stones with contemporary charm. Inside the booth there will also be a corner dedicated to the ventilated rainscreen facades.

The Singapore Green Building Council (which sets standards and benchmarks for green building solutions) has assigned to the Cerim and Floor Gres brands and their collections the SGBP - Singapore Green Building Product certification with the higher classification of “leader”.The scheme is based on strict ecologic standards for products used in the building and construction sector, selecting the most sustainable and energy efficient ones.

The SGBP will allow our products to become part of a network collecting all the certified products (in the Singapore territory) opening many opportunities in the green building market.
