

Dear Richard

I am getting in touch regarding MPs' salaries.

I am aware that IPSA recently proposed to increase MPs' salaries. In the event that there is a public sector pay freeze following the COVID pandemic, I would like to strongly urge you to reconsider this proposal. My expectation is that MPs' pay should be included in this pay freeze.

It is not right for MPs to be exempt when so many public sector workers across the country are already facing financial uncertainty.

I strongly hope that you will take my views into account when reviewing MPs' pay.

I look forward to your reply.

Kind regards,

Ben
