

With an unmatched quality of Hardstyle productions, Hard Driver has firmly set his foot within the genre as one of the most respected and revered producer DJ's of the modern age. Renowned for his hard, yet euphoric cross-over sound, Hard Driver's sound has bombarded the dance scene's most prestigious events with a barrage of devastating beats. Such events include Tomorrowland, Defqon.1, Airbeat One, Reverze, Intents Festival, Mysteryland and many events both small and large all over the globe.

After releasing his album Chemistry last year, where he kept the connection strong with his fans through music, Hard Driver presents the sequel for 2022: HDNA – The Album. *“Although we’ve been seperated for far too long, we’ve always been genetically connected. Although the road ahead still seems long, this year it’s time to respond to what is deeply engraved into our HDNA. Party together as one and experience the music in a physical way again, reverberating through our very core. Are you ready to Embrace The Physical?”*
