

VEGANICS

With Veganics we take organic growing to the next level and set a new benchmark for the whole industry.

We have captured the natural power of the building blocks of all life, marine phytoplankton, and have created a unique and pure blend. The purest nutrient for a clean and pure yield.

ALL VEGANICS-PRODUCTS

- 100% vegan
- Contain plant based raw materials only
- Enriched with primordial sea minerals
- Mixed with pure low saline seawater

INPUT:
Organic EU

APPROVED INPUT:
National Organic
Program NOP

VEGANICS GROW 3-2-4

PRODUCT DESCRIPTION

Veganics GROW is a 100% organic liquid nutrient and is particularly recommended for sustainable agriculture and organic farming. Veganics GROW is formulated to be used during the entire growing season.

PRODUCT CHARACTERISTICS

- Product is directly bio-available for the roots
- Naturally build-in root stimulator
- Small cuttings and seedlings will gain strength from the first application
- Steady growth with small internodes
- Increases the number of secondary branches
- Stimulates the forming of flowers
- 100% vegan

APPLICATION

Veganics GROW can be used during the entire growing season: from the moment roots appear, during the vegetative phase. Veganics GROW can be used on any growing media or substrate.

DOSAGE

Add 5-30 ml/10 l Veganics GROW to pure water, depending on the growth stage of the crop, see grow schedule.

FREQUENCY

Veganics GROW can be applied to the substrate as root irrigation or hydroponically through drip irrigation. Can be mixed (in solution) with other nutrients and stimulators. Shake well before use.

PACKAGING

Veganics GROW is available in 1L bottle, 5L, 20L and 200L cans.

PRODUCT DESCRIPTION

Veganics BLOOM is a 100% organic liquid nutrient and is particularly recommended for sustainable agriculture and organic farming. Veganics BLOOM is formulated to be used during the budding or flowering stage.

PRODUCT CHARACTERISTICS

- Clean and pure big yields.
- Terpenes of the highest possible grade
- No rest or waste material/nutrients in the crop
- Intense fine smell
- Very cost effective
- Free of heavy metals
- 100% vegan
- Cleanest nutrient in the world
- Two steps further then normal organics
- Certified quality

APPLICATION

Veganics BLOOM can be applied to the substrate as root irrigation or hydroponically through drip irrigation. Can be mixed (in solution) with other nutrients and stimulators. Shake well before use.

VEGANICS BLOOM 2-2-5

DOSAGE

Add 13-45 ml/10 l Veganics BLOOM to pure water, depending on the growth stage of the crop, see grow schedule.

FREQUENCY

Veganics BLOOM can be used during the budding and flowering phase: from the moment buds appear, during the entire flowering and fruiting phase. Veganics BLOOM can be used on any growing media or substrate.

PACKAGING

Veganics BLOOM is available in 1L bottle, 5L, 20L and 200L cans

The purest nutrient for a clean and pure yield.

In 2018 Bio Nova is in business for 25 years. A very important milestone to all of us! We take this moment to set a new benchmark and introduce “Bio Nova Veganics”. It is the best product we have ever made. Veganics is all our experience, passion and knowhow, combined and translated in a complete new line up. We are very proud to share this knowledge with you and introduce the first two products now: Veganics GROW and Veganics BLOOM. With Veganics nutrients we take organic growing to the next level. We have captured the natural power of the building blocks of all life, marine phytoplankton, and have created a unique and pure blend. The purest nutrient for a clean and pure yield.

Best regards,
Eric van Vlimmeren, founder.

Silution Mineral Plant Strengtheners	2,5	2,5	2,5	2,5	2,5	2,5	2,5	2,5	2,5	-

Usefull Tips of Veganics Grow Schedule

- First add water to the feed vessel, then add the main nutrients and stir well.
 - In areas of soft water it is recommended to add Ca 15 to the main nutrients.
 - Leave the mix for one hour and then adjust the pH value to pH 5.8 if neccesary.
 - The dosage of the main nutrient can be adjusted in steps of ± 10%.
 - Do not use nutrients in the last week before harvest.
 - Use BN Roots when planting and repeat after 30 days. In periods of high stress in the plants we recommend using BN Roots every week.
- Dosage may be adjusted at your discretion.

”After 25 years we have made the best product ever”

Eric, founder Bio Nova
