Cultured sensibility, timeless craft.

ABOUT US

Stellar Works stands for a renaissance of refined culture and Asian aesthetics. Inspired by the long standing craft and industry of traditional cultures, it represents a commitment to bridging the gap between old and new, east and west – in attitude, form and application.

Stellar Works seeks to reintroduce past collections of classics, alongside culturally-inspired contemporary signatures. It infuses freshness into heritage and grounds innovation with enduring craftsmanship.

IN 2012

We established Stellar Works as a way to bring ideas together: East and West, heritage and modernity, craft and industry – bringing the best of the past into the light of the present. Our aim was to inspire a renaissance in Asian aesthetics, taking the forms, styles and motifs that have characterised Japanese design across the centuries and filtering them through the lens of the European tradition to create something new and timeless.

*We bridge the gap
Between east and west*

Arc

by Hallgeir Homstvedt

The Arc collection is a response to the modern work situation, which the designer wanted it to provide the shelter and remind people of home. The designer gave this collection a distinct character and made it stand out from typical contract furniture. The soft silhouette of the sofa strengthens the instantly recognizable character. A thick seam sweeps along the edge of the sofa, like a barrier between the strict and straight outside shape, and the softer sculpted inside. With embracing curves and intricate upholstery details, the Arc collection has a gentle character that makes it the perfect for both retail and soft contract market.

Atelier

by Space Copenhagen

The Atelier Modular Sofa is an exercise in simplicity and casual elegance. The sofa is all about upholstery and refined sartorial detailing, high quality linen with a soft and generous touch, - inviting to relax and lounge.

The Atelier Sofa has an added depth for lounging in a private residence and endless combinations of the 5 modules enables it to adapt to changing needs and conditions. The quiet, serene aesthetic makes it very easy to combine with other furniture of more complex nature and different materials. The deep armrest acts as a soft side table for a book, a pair of glasses or a telephone.

Even though the Atelier Sofa has a clean and sophisticated look, - it is meant to be very functional and easy to maintain, - it has removable covers, which can be dry cleaned if needed. The soft and plump cushions can be moved around to enhance malleable comfort sitting or lounging.

Aya

by OEO Studio

Aya is an onomatopoeia – a word that mimics a phonetical sound. A poetic name as soft and sophisticated as the design itself. The collection design language is an elaboration of the encounter between Asian and Scandinavian design.

Aya is minimal yet highly complex and every detail has been carefully orchestrated, from the small wooden joints and angles to the stitching and seating comfort. The elegant light wooden frame is deeply inspired by Asian culture and design, and effortlessly carries the soft and embracing shell and seat.

The result is a full range of Aya furniture for the perfect dining and socialising setting. Comfort and sturdy durability lie at its core, which is complimented by the elegant appearance. The first Aya collection drop comprises a fully upholstered dining chair with armrest, a dining chair without armrests, and two dimensions of dining tables: 1,800 cm and 2,400 cm in length. The design of the tables mirrors the structure and details of the chair frame.

Blend

by Nendo

A three-legged bar stool with three crossbars was the base design, but as two of the crossbars melt away in the middle, the bars, initially tasked with horizontally connecting the legs, instead turn perpendicular to support the seat and a leg. A lone crossbar remains, acting as a footrest.

This slight structural change utterly transforms the direction of force and how it is applied, becoming the stool's major feature. 5 variations are available, including short stools, those with a leg seemingly extended up into a backrest, and those with upholstered seats.

Blink

by Yabu Pushelberg

Compact in profile and scale, this light, playful and sculptural collection lends itself to both residential and commercial applications.

Though Blink has a distinct personality and distilled modernist quality, pieces from this collection can coexist or live independently amongst other styles. The materials have been selected to create considered contrasts from texture to texture and surface to surface.

Bund

by Neri&Hu

Inspired by the Bund, a lasting symbol of Shanghai's past, present, and future, this series combines elements not only from its industrial origins, but also from its splendid colonial history. The soft curves and rich fabric finishes, as well as the wooden legs, pay homage to the Art Deco style which is permanently ingrained in the DNA of the city.

Cabinet of Curiosity

by Neri&Hu

'secrets &..' by Neri&Hu is the first edition of a Cabinet of Curiosity, an ongoing series to be launched in subsequent years, slowly peeling away the hidden to finally satisfy the curiosity in all of us. The wooden cabinet with glass doors rests on a metal trolley inspired by scenes from a ceramic factory, before the cart enters the fiery furnace. The furnace represents trials and tribulations we all encounter in life, from which we offer up sweat and tears, pain and pleasure. Yet it is through the burning of these sins and secrets that we walk out white as snow. Secrets revealed. Or secrets concealed. That is up to us.

Carlo

by Carlo Forcolini

Stellar Works Carlo collection gathers together some of the greatest and most influential designs of a 20th-century Italian master: Carlo Forcolini. His bold, playful and unstintingly imaginative approach resulted in a succession of attention-grabbing chairs and stools that make use of strong geometric shapes and colours – together with a touch of humour.

Alongside influential 1980s seating such as the Cotton Club and 'smiling' Alien chairs, the Carlo collection includes Forcolini's self-supporting bookcase Ran Library, inspired by temple doors in China and Japan.

Crawford

by Tom Fereday

The Crawford collection is comprised of a sofa, bed, tables and a dining chair. Following Stellar Works' ethos, the collection was developed on the principle of honest design that celebrates Asian sensibilities, whilst reinterpreting them for an international audience. The collection also represents a fusion of cultures that celebrates the growing design movement in the Asia Pacific region, as championed by Lane Crawford. Tom Fereday's designs utilise natural materials, tactile finishes and subtle, yet elegant details.

Dawn

by Space Copenhagen

Dawn is a modern take on the classic bed with a headboard. With its soft curves and hidden functions, Dawn's clean, effortless look gives an air of contemporary and understated refinement to bedrooms to fit the demands of modern lifestyle. A cushioned, upholstered headboard elegantly suspended in the wooden frame and slim legs, imbues Dawn with a luxurious yet airy, informal appeal. The Dawn collection is beautifully detailed in a choicewoods, teile, leather and brass, adaptable and equally suitable to both residential and hospitality.

Discipline

by Neri&Hu

The Discipline Sofa derives its name from the basic horizontal wooden plane that acts as a base for the four variations of soft cushion above. Supported by delicate metal legs, the platforms hover just above the ground and their simple geometry and carefully calibrated dimensions allow for a seamless aggregation of individual units. Variants of the sofa can be combined in infinite configurations for a wide variety of functions, from an intimate two-piece "L" to a 20m long bench, or even back-to-back as a feature object.

Neri&Hu's modern, clean-lined collection of cabinets is rooted in the tradition of the dowry, drawn from both Chinese culture and that of many others worldwide. Passed from one generation to the next at the moment of marriage, the Dowry object is imbued with sentiment and history, embodying the potent nostalgia and symbolic value of a family heirloom.

Crafted to include traditional detailing and joinery techniques, the wide metal base and wooden body of the cabinets and drawers can be customised in a wide variety of materials and finishes. This allows the collection to be tailor-made to suit any setting, or personalised so that any family can create their own heirloom furniture, to pass on through the generations to come.

Exchange

by Jun Aizaki - CRÈME

The Exchange Chair is an award-winning contemporary wood and steel chair inspired by the traditional Windsor form.

By exchanging the conventional wooden spindles and stretcher of the Windsor back with steel, CRÈME has produced a new chair that feels both contemporary and traditional at once. This exchange suggests the new life and design that can be breathed into used or well-worn objects and furnishings.

The new extended Exchange collection is timeless and modern, and includes a dining table, bench and an additional range of chairs.

Float

by Michele De Lucchi

Float is a new modular sofa system that presents cushions supported by a seemingly invisible structure, as if they are floating on air. The magical effect created by these floating cushions is made possible by the arrangement of feet outside of the padded form. A double layer of cushions, supported by a metallic sheet, provides optimal comfort and strength, while a crossbar that runs back and sideways containing the cushions, supports the headrest elements and gives structural integrity. The Float Sofa is supported by a thin yet robust steel structure and is designed to allow for comfortable sitting, resting and invites users to "flop down" on it.

The Float collection comes in four versions: a one, two and three-seater sofa, as well as an L-shaped option. The collection is modular and the individual components are designed to be combined in a multitude of comfortable configurations. The Float Sofa system can be further customised with a range of accessories, including a backseat, headrest and a series of pillows that can be arranged in different layouts to give the sofa a different look and function. Float is also available with optional built-in wooden sides tables, which come in two sizes, an ancestral element that De Lucchi sees as inextricably linked to the idea of the home and of handmade construction.

Freja

by Space Copenhagen

Freja is a collection of stools and bench that comes out of a wish to create sculptural furniture with the soothing visual appeal of Scandinavian furniture making traditions and a Japanese mode of expression.

The archetypal furniture making principles of static and ornament converge to give Freja its elegant, yet simple character. Seen from different angles legs and aprons optically interweave to form a trellis, the seat floating lightly with either woven paper cord or leather as only decorative feature.

Host

by Sebastian Herkner

Host, a movable wardrobe created in response to the growing need for flexible furniture in both homes and hotels. German designer Sebastian Herkner's design sees a metal frame that on one side provides rail space, and also becomes part of the framework for open shelving and a mirror.

Host is in part on wheels to allow greater freedom in moving the piece around the room as space requirements change. The openness of its design allows Host to be used for a multitude of purposes, with an added small tray for personal items such as jewellery and watches. For a hotel room, Host features enough space for a suitcase and generous hanging space. Host's minimalist steel frame is complemented by a veneer laminate base, solid wood and a large mirror.

Industry

by Neri&Hu

The Industry collection is a new accessible utilitarian-inspired chair series with simple modern lines. This comfortable seating collection is suitable for everyday use in both residential and commercial spaces.

Infinity

by Space Copenhagen

The modular sofa collection Infinity is about the purity of the shape and the softness of the curves. This sofa collection was designed to have a minimum of edges and almost invisible detailing and stitching - to underline its elegant, sculptural values and to secure ultimate comfort for the body. A sofa is often a dominant, defining object in a space. The design intention of the Infinity sofa is to radiate a calm, yet strong appearance.

Through the choices of fabrics or leather, it can be personalised for different moods and environments - classically elegant while being lush and casual. The name Infinity also refers to the endless possibilities of combinations and variations of the continuous curves.

Inter

by Neri&Hu

The Inter collection harness the inherent beauty of simple materials, blending them into pieces that seamlessly balance sculpture and furniture, art, and function. The interplay of vertical and horizontal elements defines each component's function, with deliberate dualistic contrasts—wood versus metal, tube versus plank. This not only enriches visual appeal but also enhances the collection's versatility for a wide range of spaces.

Two distinct pieces within the collection echo this design spirit: one stands tall as an open coat hanger, while the other, with a lower profile, serves as a console.

James

by Yabu Pushelberg

The James collection is an understated exploration of modern masculinity – at once bold and defined, but also light and elegant. The range includes a chaise, stool and bar trolley, each one meticulously proportioned and ergonomically shaped.

All pieces have been designed to turn negative space into an aesthetic feature, making use of floating planes and wireframes to lend them an air of sleekness and simplicity. Full of subtle details and stowaway compartments, James is subtly inspired by the world of performance cars. The automotive references are also echoed in the materials: warm and tactile black metal, walnut wood and sable-tone matte leather.

Journey

by Space Copenhagen

The Historic Safari Chair is an almost naïve, sturdy, simple geometric structure - with added hard and soft components to secure softness and flexibility. With attention to this vocabulary, The Journey Chair is our modern interpretation - letting comfort, modern lifestyle and behavior be the center of attention. We wanted the chair to be versatile in use and look, embedding a balance between the rustic and a more refined, modern approach into the design. The soft arch under the seat cushion compliments the strong, masculine silhouette of the chair - and enhances a lighter, sophisticated look. The thicker seat cushion and the soft back, secures a great and comfortable experience while seated.

Exposed details of darkened brass reveal and celebrate the simplicity of how the chair is assembled.

The Journey chair is obvious to use for all kinds of Dining, but can also be used as a residential office chair, as well as for meetings and conference.

Kite

by Nendo

An armchair designed for common spaces in offices and hotels. There are numerous armchairs and sofas for lobbies and lounges, but those for narrow spaces such as corridors, elevator lobbies, and entrances are difficult to find. Therefore, a compact chair was devised to fit in those niches, for passersby to rest in for a spell or in which to have casual conversation. Attempts to make an armchair small normally leads one to think of gradual elimination of the backrest to create a bench-like furniture piece. But casting the backrest as the star to which the seat is adjoined yields a design less about sitting and more about leaning against a grand backrest. Such a design takes up minimal space while offering to the chair's occupant a bit of calm and security. The backrest and seat are independent parts, with shallow and deep seats and lower and taller backs available for use in combination according to the size of the space and degree of privacy desired.

Laval

by OEO Studio

The Laval collaboration aims to reinterpret the traditional French style by reflecting the poetic simplicity of Japanese and Scandinavian aesthetics. The Laval Collaboration springs from a collaborative meeting between high-end French furniture maker Laval and Danish design studio OEO Studio. It combines the French sense of elegance with a subtle sense of modern comfort. The Collaboration reflects a strong sense of refined and exquisite quality combined with the highest attention.

Lunar

by Space Copenhagen

In the Lunar collection, contemporary Nordic simplicity meets ancient Chinese legend. It takes its inspiration from Chang'e, the goddess of the moon, said to arise in the West and reside in her lunar palace 'Guanghan', which means 'wild coldness'.

The collection is at once fresh, cool and comfortingly timeless. Like its celestial namesake, it is infused with the energy of Yin, the female principle in Yin and Yang.

Lyrical
 by Neri&Hu

The Lyrical collection is an homage to the artistry of woodcraft. At first glance the round side tables are deceptively simple, a solid wood top with a wooden structure support. Details such as the subtle curvature of the edge profile, the foot that slightly elevates the frame, the asymmetrical offset of the secondary legs, the lip on the edge of the table top - these reveal a certain level of craftsmanship and bring a touch of sophistication.

Along with a selection of color finishes and sizes, the minimal yet refined design makes the lyrical side table an everyday table for many settings: commercial or domestic, casual or luxe, playful or neutral.

Mandarin

by Neri&Hu

The collection finds inspiration in the harmony and balance between classical forms and mid-century aesthetics. Neri&Hu have translated these into the design of a table and chairs following Asian temple design typologies: the sphere which symbolises the temple of Heaven, versus the square form represented by the temple of Earth.

Ming

by Neri&Hu

Drawing on the past to inspire the present, Ming revisits the historic decorative arts of China to create a crisp and contemporary furniture style. Chinese design duo Rossana Hu and Lyndon Neri have looked to their Asian heritage, mixing ornamental motifs with modern Western functionality.

The result is a series of intricate wooden stacking chairs and aluminium tables that work effectively as solo pieces, as well as a family grouping.

Mr.B

by Neri&Hu

Inspired by Shanghai's iconic Bund, where the old seamlessly merges with the new and where rich history coexists with modern life, the Mr.B collection reflects a harmonious blend of Eastern and Western cultures. The modern aesthetic is evident, yet the influence of traditional old culture is intricately woven into the details. The collection showcases a fusion between the robust wood structure derived from traditional carpentry heritage and the metal details that speak to an industrial influence. The well-tailored upholstery provides clean lines as well as a comfortable seating experience.

The Mr.B collection is comprised of a dining chair, lounge chair, swivel bar chair, and a two-seater, each bringing an understated touch of sophistication. Suitable for both residential and hospitality spaces, these pieces embody the subtle elegance that captures the essence of Shanghai's spirit.

Ori

by Hallgeir Homstvedt

True to the Stellar Works mindset, the Ori chair is a gentle mix of Nordic and Asian influences. The softly shaped outline of the chair is only interrupted by the sharp fold in the seat and backrest, marking the zones that are in contact with the body. The slender frame is inspired by the type of bamboo scaffolding that is just tied together, commonly used in Asia (Hong Kong). Similarly the frame of the chair is composed of gently curved segments of tube that just kiss each other at the point where they overlap, creating a light and organic structure. The Ori chair is designed for the places where people gather to enjoy a meal and interact, whether at home or in public spaces. Ori comes with or without an armrest and stacks well for easy storage.

Pagoda

by BassamFellows

Pagoda is a collection of chairs inspired by the classic café chairs of 19th century Vienna. The chair is supremely light and compact with a structure that has been reduced to its very essence. The chair consists of only six pieces – delivering good craftsmanship and efficiency while allowing multiple material configurations. The chair's circular seat stems from rationalization while symbolizing the "Way of Nature" or "oneness" in Chinese culture. Cantilevered arms and back subtly reference Pagoda gates, giving the chair its personality while also eliminating the need for an arm and armless version.

Qi
by Neri&Hu

Named after the traditional Chinese concept of a “small sleep” at noon, the Qi Sofa draws inspiration from the Luohan Chuang - a dual - purpose bench for sitting and sleeping. Blending modern versatility with the minimal style of Jean-Michel Frank, it combines a wooden structural base with a padded platform and cushions for comfort in both seated and reclined positions.

The collection comprises one, two, and three-seater sofas in wood with textile upholstery, suitable for diverse living spaces. Qi seamlessly infuses a subtle Asian aesthetic into contemporary contexts.

QT/Chillax

by Nic Graham

Initially developed for Australia's pioneering QT Hotels brand, the QT collection is Nic Graham's modern-day tribute to the mid-century movement. Drawing out retro details with a light touch, while allowing natural materials and traditional craftsmanship to take centre stage, the range communicates quality without compromising its casual appeal.

The QT collection and its slender, contoured counterpart Chillax make warm and welcoming additions to any contemporary interior, embodying the laidback, relaxed spirit of modern Australian life, with a wink to the pragmatism of mid-century Scandinavian design.

Rén

by Space Copenhagen

Rén was born of the desire to create a series of pieces in the Danish Modern tradition – high quality, thoughtfully crafted design that balances function with form and is accessible to all.

Rén's tables and chairs take this distinctly Nordic philosophy and incorporate craft techniques and aesthetic detail from the design traditions of Japan and China, resulting in a collection that, although inspired by a particular place and time, is both international and ageless in its scope.

Risom

by Jens Risom

Stellar Works is reissuing the C140 in its original caned back version, which has an upholstered back. The chairs come in a choice of oak or walnut. For the upholstery, Stellar Works have selected Hallingdal 65 from Kvadrat, designed by mid-century Danish designer iconic Nanna Ditzel, in a choice of 457 (yellow), 547 (orange) 850 (blue).

The iconic C140 chair was used in the White House under President Lyndon B. Johnson's administration and Johnson was photographed sitting in it signing the Civil Rights Act in 1964 and the Highway Beautification Act in 1965.

This year, Stellar Works is adding new important pieces to its existing collection of Jens Risom designs. Originating from his mid-century heydays, the six new models are prime examples of Risom's aesthetics and proof of the enduring quality of his timeless work.

Seiton

by OEO Studio

Seiton is a coherent modular storage system designed for the home, the office and for hospitality. The system is flexible and modular allowing the user to create unique solutions. Seiton is designed for function and flexibility without losing focus on aesthetics. The design is grand in style and appearance. The system can be configured in multiple ways - against a wall or freestanding as a room divider.

Seiton comes as flat-pack and is easy to assemble. Key design elements of Seiton are functionality, contrast, materiality, refinement and detail. The design is solid and light in appearance and plays with positive and negative space. The system is focused on high quality and attention to detail.

Slow

by Space Copenhagen

Inspired by the chair they designed for restaurant 108 in Copenhagen, the collection consists of a beautifully upholstered wooden furniture that explores the beauty of narrow silhouettes. All items feature narrow legs that elevate and support, striking a perfect balance between mid-century Danish and classic Japanese design. The collection is a tribute to heritage and craft, embodied in a timeless, flowing design, while remaining modern and comfortable. The collection stands for quality craftsmanship and materials. Furniture items are crafted from quality walnut and ash and seating features thick leather to maximise comfort. Decoration is kept to a minimum to enhance that sense of detail and shape.

Stack

by Neri&Hu

The Stack Chair is a lightweight, stackable, multi-purpose chair suitable for many different spaces and occasions. Unlike standard chairs where the frame acts only as a supporting element for the seat and back, the thin tubular steel frame of the Stack Chair follows the entire silhouette of the chair. The continuous lines of the chair give a strong graphic character to it, while maintaining softness and comfort, due to the three-dimensional steel bending technique used.

Stay

by Michele De Lucchi

The Stay collection expresses sensitivity to nature. The collection's agile, playful, and organic structure is a consequence of eliminating the superfluous. The table is constructed from four pieces of wood that seamlessly join in the centre with a refined edge bevel design. The chair is composed in the form of a four-leaf clover, continuing the design's reference to natural forms.

SW

by OEO Studio

OEO Studio's SW furniture series draws on the simple, functional forms championed by the early 20th-century Bauhaus movement to develop a collection of seating that is comfortable, elegant and contemporary.

Created using solid wood, and upholstered in leather or fabric, the SW collection has been designed to bring clean-lined refinement to both homes and hospitality settings, demonstrating a purity of style through detail-focused craftsmanship, a soft, warming colour palette and high-quality materials.

Taiko

by Studio Stefan Scholten

Inspired by Stellar Works' commitment to East-West harmony, the Taiko side tables draw from the iconic Taiko drums. Their rounded aesthetics and commanding presence influence the carefully crafted shapes, blending cultural elements for visually striking and functional design.

Available in three sophisticated terrazzo combinations - ice white, color gold, and carbon black - the Taiko side tables seamlessly combine form and function. The Taiko side tables stand as a testament to the successful fusion of innovation and functionality in contemporary furniture design.

Taylor

by Yabu Pushenberg

Modernity reigns in the Taylor collection. Beginning with a sleekly profiled wood frame that cradles sporty upholstery on the seat and back, this chameleon-like chair effortlessly evolved into sofas and tables to round out the collection. Taylor's unwillingness to conform to a specific genre, sits well in any style of interior.

Utility

by Neri&Hu

This durable seating series combines comfort with practicality and a highly sophisticated take on the enduringly popular industrial aesthetic.

Incorporating a range of lounge chairs, barstools and stools, the Utility collection is (as its name suggests) utilitarian in its references, while also featuring a palette of old-world and luxurious materials. The end result is a set of elegant and versatile pieces that fit seamlessly and gracefully into any environment, from high-end hospitality to residential projects.

Wohlert

by Vilhelm Wohlert

Vilhelm Wohlert's pared-down mid-century pieces have become iconic works in the design evolution of furniture for public spaces. Stellar Works' Wohlert collection comprises of some of his most celebrated designs from the 1950s, revitalised for the modern day. Each piece showcases the Danish designer's less-is-more ethos and talent for turning the structural into the sculptural.

The collection includes the timeless Piano and Louisiana Chairs – designed to complement Wohlert's architectural work on the Louisiana Museum of Modern Art in Humlebæk, Denmark: simple, stackable, balanced and beautifully unadorned. His Triangle Chair, also found in the museum, was specifically created to provide visitors with a comfortable place to pause, sit back and soak up the scenery – just as it does today.

Piano Chair (1955)

Everyday

by Neri&Hu

As its name suggests, Everyday is inspired by the quotidian objects in our lives. It is reminiscent of the reading light next to our beds in our childhood homes, or the lamp above the teacher's desk in school. The simplicity is somewhat nostalgic; something we are used to seeing every day, until suddenly we don't anymore.

Neri&Hu purposefully designed an object that looks simple and ordinary, but is simultaneously functionally beautiful, to bring our attention back to the beauty of the lost everyday. Whether placed over a table to be used as a task light, or onto a wall for ambience, Everyday proudly reclaims its place – and that of common objects – in our lives.

Everyday comes in a wall mountable or pendant version and the aluminium frame comes in a choice of finishes – powder coated black, brass or silver plated – while the simple yet beautiful shade is available in either frosted or transparent glass.

Haro

by Space Copenhagen

A poetic and industrial motif is coupled in the delicate and evocative lamp collection Haro, named after the Japanese word for 'halo'. Poised on a slender matte powder coated metal base, a refined, floating powder coated shade is repeated across the collection, creating the glowy, ambient layer of light for a multitude of uses.

Kyoto Lamp

by OEO Studio

This series of floor lamps in solid wood is a tribute to both the historic woodcraft of Kyoto and the early years of Japanese aviation. The lamps' structure invokes the intricacy of Japanese toy aircraft – in particular the Yoshida Hishou, an A-shaped plane fitted with two reverse propellers that successfully crossed Tokyo's Sumida River in a 1911 model-aircraft contest.

The shade is created using Japan's Unesco-listed washi paper, by the craftspeople of Kyoto, traditional makers of Japan's distinctive wagasa (umbrellas made with washi and bamboo). Emitting a gentle, warm-toned light and creating a soft shadow play, the Kyoto Lamp enhances interiors through both its form and effect.

Mūn

by OEO Studio

The design of the Mūn light series marries Asian design sensibilities with a timeless aesthetic, and targets both consumer and contract markets. The design ethos behind Mūn is playful, analogue and sculptural. A distillation of the essential elements of form and function. Mūn, the Japanese word for moon, takes shape in the form of a desk lamp, two types of floor lamps, pendants in s, m and large and a rechargeable lantern that can be used both indoor and outdoor.

For the design of Mūn, OEO Studio drew inspiration from analogue experiences and the poetry of rituals. The design of Mūn is compelling and minimalistic, with a subtle sophisticated appearance - almost mystical as the movement of the tide as the Moon orbits earth.

Yama

by Space Copenhagen

'Yama' is Japanese for 'mountain'. Created on the clear geometric form of a cone, Yama is a collection of pendant lamps, offered in a range of different materials that each sets a different tone. The construction becomes the decorative feature, resulting in an honest and simple expression that lends itself well to a multitude of uses from repetition or sculptural feature in bigger spaces to classic accent lighting.

Space Invaders

by Luca Nichetto

Space Invaders is an eclectic collection of objects with different functionality and a bold character. Table and floor lamps, small tables with integrated light and trays find their own aesthetic in the juxtaposition of material and shapes that interpenetrate each other, marking an invasion of space that creates an original modularity. It is in this way that a luminous pearl stands between the base and the top of the side table, or that a series of glass spheres fill the metal structure of the lamps, or that the solidity of wooden trays find their balance resting, while other trays with a Yo-yo shape fit one another, creating multiple combinations. The result is a playful group of timeless design objects, able to invade a variety of environments.

Arita

by Neri&Hu

In 1616, porcelain stones were discovered at Izumayama mountain, which gave birth to Japan's very first porcelain. In the Edo era, many tableware artifacts belonging to Japanese feudal lords were made from Arita porcelain, manufactured in the northern part of Kyushu Island. After a research trip to Japan, Neri&Hu were inspired to reinterpret this historic manufacturing technique by using it in the production of the Arita collection for Stellar Works. The result is a contemporary dining collection with a 400 year old story behind it.

Arita Vessels

The ceramic set of seven bowls and plates started as a project ensemble under. A Cabinet of Curiosity of seven objects to be displayed in the glass cabinet. Each ceramic piece is a different size with varying heights and volumes, blurring the typology of bowls and plates to respond to the contemporary lifestyle of full flexibility with distinction. Each vessel shape offers endless functional possibilities, yet any combination of them suggests a rebirth of a personalised table styling.

Arita Liquid

These containers, inspired by Chinese traditional wine bottles, offer two sizes for cold or warm liquids. The cups can be stacked at the neck of the bottle to complete the visually interesting set, while the brass holder offers a graceful detail to the simple white shape.

Wall

by Space Copenhagen

The inspiration behind the Wall Rugs collection comes from a fascination and attraction to textures, patina, tactility, with balances and contrasts between smooth and rough, soft and hard, horizontal and vertical, light and shadow. The intricacy of how various surfaces age, old walls and buildings of different nature, is intuitively interpreted in the creation of these rugs: creating fragments of these aging surfaces and textures into free patterns of beautiful colours blending and fading, allowing the tactile walls to become soft floors. All the names of the rugs relate to the same sensuous mechanisms and constant flow of memories— dune, moon, nude, tundra, midnight, gold—referring to esoteric values, a mood or a state of mind, rather than a specific colour.
