Timeless craft for cultured hospitality.

ABOUT US

Stellar Works stands for a renaissance of refined culture and Asian aesthetics. Inspired by the long standing craft and industry of traditional cultures, it represents a commitment to bridging the gap between old and new, East and West – in attitude, form and application.

Stellar Works seeks to reintroduce past collections of classics, alongside culturally-inspired contemporary signatures. It infuses freshness into heritage and grounds innovation with enduring craftsmanship.

IN 2012

We established Stellar Works as a way to bring ideas together: East and West, heritage and modernity, craft and industry – bringing the best of the past into the light of the present.

Our aim was to inspire a renaissance in Asian aesthetics, taking the forms, styles and motifs that have characterised Japanese design across the centuries and filtering them through the lens of the European tradition to create something new and timeless.

Arc

by Hallgeir Homstvedt

The Arc collection is designed to meet the demands of modern workspaces, providing a sense of shelter that evokes the comfort of home. Its distinct character sets it apart from conventional contract furniture, with a soft silhouette that enhances its recognizable identity. A thick seam defines the edge, creating a contrast between the rigid exterior and the inviting, sculpted interior.

Featuring embracing curves and intricate upholstery details, the Arc collection radiates a gentle charm, making it ideal for both retail and soft contract markets. Additionally, the introduction of new high and low back modules allows for customizable configurations to suit various furnishing needs, enhancing both functionality and aesthetic appeal.

Atelier

by Space Copenhagen

The Atelier Modular Sofa is an exercise in simplicity and casual elegance. The sofa is all about upholstery and refined sartorial detailing, high quality linen with a soft and generous touch, - inviting to relax and lounge.

The Atelier Sofa has an added depth for lounging in a private residence and endless combinations of the 5 modules enables it to adapt to changing needs and conditions. The quiet, serene aesthetic makes it very easy to combine with other furniture of more complex nature and different materials. The deep armrest acts as a soft side table for a book, a pair of glasses or a telephone.

Even though the Atelier Sofa has a clean and sophisticated look, - it is meant to be very functional and easy to maintain, - it has removable covers, which can be dry cleaned if needed. The soft and plump cushions can be moved around to enhance malleable comfort sitting or lounging.

Aya is an onomatopoeia – a word that mimics a phonetical sound. A poetic name as soft and sophisticated as the design itself. The collection design language is an elaboration of the encounter between Asian and Scandinavian design.

Aya is minimal yet highly complex and every detail has been careful orchestrated, from the small wooden joints and angles to the stitching and seating comfort. The elegant light wooden frame is deeply inspired by Asian culture and design, and effortlessly carries the soft and embracing shell and seat.

The result is a full range of Aya furniture for the perfect dining and socialising setting. Comfort and sturdy durability lie at its core, which is complimented by the elegant appearance. The first Aya collection drop comprises a fully upholstered dining chair with armrest, a dining chair without armrests, and two dimensions of dining tables: 1,800 cm and 2,400 cm in length. The design of the tables mirrors the structure and details of the chair frame.

Blink

by Yabu Pushelberg

Compact in profile and scale, this light, playful and sculptural collection lends itself to both residential and commercial applications.

Though Blink has a distinct personality and distilled modernist quality, pieces from this collection can coexist or live independently amongst other styles. The materials have been selected to create considered contrasts from texture to texture and surface to surface.

Brightliner

by AvroKO

Inspired by NYC's iconic subway car, Brightliner was designed by AvroKO to transport visitors in a similarly functional yet sophisticated fashion. Crafted by Stellar Works, Brightliner takes guests back to NYC's most elegant of eras, thanks to the iconic silhouettes and sleek curvatures of this collection. With nods to Manhattan's eccentric energy, each furniture design embodies a sense of thrill completely unique to the world below 14th street. More than half a century ago, the Brightliner subway car was a symbol; a glimmer of optimism and forward-thinking design in an ordinary world. Brightliner's mission is to deliver a direct line to cool, classic New York comfort in a functional and highly customizable way.

Bund

by Neri&Hu

Inspired by the Bund, a lasting symbol of Shanghai's past, present, and future, this series combines elements not only from its industrial origins, but also from its splendid colonial history. The soft curves and rich fabric finishes, as well as the wooden legs, pay homage to the Art Deco style which is permanently ingrained in the DNA of the city.

Cabinet of Curiosity

by Neri&Hu

'secrets &..' by Neri&Hu is the first edition of a Cabinet of Curiosity, an ongoing series to be launched in subsequent years, slowly peeling away the hidden to finally satisfy the curiosity in all of us. The wooden cabinet with glass doors rests on a metal trolley inspired by scenes from a ceramic factory, before the cart enters the fiery furnace. The furnace represents trials and tribulations we all encounter in life, from which we offer up sweat and tears, pain and pleasure. Yet it is through the burning of these sins and secrets that we walk out white as snow. Secrets revealed. Or secrets concealed. That is up to us.

Carlo

by Carlo Forcolini

Stellar Works Carlo collection gathers together some of the greatest and most influential designs of a 20th-century Italian master: Carlo Forcolini. His bold, playful and unstintingly imaginative approach resulted in a succession of attention-grabbing chairs and stools that make use of strong geometric shapes and colours – together with a touch of humour.

Alongside influential 1980s seating such as the Cotton Club and 'smiling' Alien chairs, the Carlo collection includes Forcolini's self-supporting bookcase Ran Library, inspired by temple doors in China and Japan.

Charlie

by Yabu Pushelberg

The Charlie collection embodies a balanced, minimal approach to design, offering both distinction and personality for those who appreciate simplicity with character. With its light, sculptural forms, the collection exudes friendliness, timelessness, and approachability. A striking blend of Asian cultural influences and modern global appeal, it reflects the shared strength of Stellar Works and Yabu Pushelberg, who together strive for precision in sculptural craftsmanship.

Comprising chair, bench, and bar stool, the collection seamlessly fits into various spaces, from hotels to homes and restaurants, offering the flexibility to unify different design concepts, from traditional to contemporary.

The character of Charlie lies in its sculpted transitions, crafted from wood, upholstered surfaces, and slender frames that feature both curved and straight profiles. Whether in an intimate lounge or a lively bar, the Charlie collection is a confident, understated choice for those seeking design that speaks softly yet remains memorable.

Crawford

by Tom Fereday

The Crawford collection is comprised of a sofa, bed, tables and a dining chair. Following Stellar Works' ethos, the collection was developed on the principle of honest design that celebrates Asian sensibilities, whilst reinterpreting them for an international audience. The collection also represents a fusion of cultures that celebrates the growing design movement in the Asia Pacific region, as championed by Lane Crawford. Tom Fereday's designs utilise natural materials, tactile finishes and subtle, yet elegant details.

Discipline

by Neri&Hu

The Discipline Sofa derives its name from the basic horizontal wooden plane that acts as a base for the four variations of soft cushion above. Supported by delicate metal legs, the platforms hover just above the ground and their simple geometry and carefully calibrated dimensions allow for a seamless aggregation of individual units. Variants of the sofa can be combined in infinite configurations for a wide variety of functions, from an intimate two-piece "L" to a 20m long bench, or even back-to-back as a feature object.

Dowry

by Neri&Hu

Neri&Hu's modern, clean-lined collection of cabinets is rooted in the tradition of the dowry, drawn from both Chinese culture and that of many others worldwide. Passed from one generation to the next at the moment of marriage, the Dowry object is imbued with sentiment and history, embodying the potent nostalgia and symbolic value of a family heirloom.

Crafted to include traditional detailing and joinery techniques, the wide metal base and wooden body of the cabinets and drawers can be customised in a wide variety of materials and finishes. This allows the collection to be tailor-made to suit any setting, or personalised so that any family can create their own heirloom furniture, to pass on through the generations to come.

Exchange

by Jun Aizaki - CRÈME

The Exchange Chair is an award-winning contemporary wood and steel chair inspired by the traditional Windsor form.

By exchanging the conventional wooden spindles and stretcher of the Windsor back with steel, CRÈME has produced a new chair that feels both contemporary and traditional at once. This exchange suggests the new life and design that can be breathed into used or well-worn objects and furnishings.

The new extended Exchange collection is timeless and modern, and includes a dining table, bench and an additional range of chairs.

Float

by Michele De Lucchi

Float is a new modular sofa system that presents cushions supported by a seemingly invisible structure, as if they are floating on air. The magical effect created by these floating cushions is made possible by the arrangement of feet outside of the padded form. A double layer of cushions, supported by a metallic sheet, provides optimal comfort and strength, while a crossbar that runs back and sideways containing the cushions, supports the headrest elements and gives structural integrity. The Float Sofa is supported by a thin yet robust steel structure and is designed to allow for comfortable sitting, resting and invites users to "flop down" on it.

The Float collection comes in four versions: a one, two and three-seater sofa, as well as an L-shaped option. The collection is modular and the individual components are designed to be combined in a multitude of comfortable configurations. The Float Sofa system can be further customised with a range of accessories, including a backseat, headrest and a series of pillows that can be arranged in different layouts to give the sofa a different look and function. Float is also available with optional built-in wooden sides tables, which come in in two sizes, an ancestral element that De Lucchi sees as inextricably linked to the idea of the home and of handmade construction.

Frank

by Layan

The Frank collection brings together the best of classical modernity – marrying the honest beauty of natural materials with contemporary craftsmanship. Its versatile design allows it to adapt effortlessly to a variety of interior styles, while its rich and timeless design ensures it will be treasured for generations.

The frame of the armchair is crafted from warm and luxurious solid timber, which is meticulously finished to reveal its natural grain and depth. The form is sculptural yet functional, with graceful, clean lines and softly rounded edges that evoke a sense of understated luxury.

The backrest is thoughtfully designed for comfort, curved to offer support, while the seat is slightly cushioned for a firm yet comfortable experience. The proportions are balanced and universally appealing, ensuring the armchair works seamlessly in various environments, from formal to casual, modern to traditional.

Freja

by Space Copenhagen

Freja is a collection of stools and bench that comes out of a wish to create sculptural furniture with the soothing visual appeal of Scandinavian furniture making traditions and a Japanese mode of expression.

The archetypal furniture making principles of static and ornament converge to give Freja its elegant, yet simple character. Seen from different angles legs and aprons optically interweave to form a trellis, the seat floating lightly with either woven paper cord or leather as only decorative feature.

Host

by Sebastian Herkner

Host, a movable wardrobe created in response to the growing need for flexible furniture in both homes and hotels. German designer Sebastian Herkner's design sees a metal frame that on one side provides rail space, and also becomes part of the framework for open shelving and a mirror.

Host is in part on wheels to allow greater freedom in moving the piece around the room as space requirements change. The openness of its design allows Host to be used for a multitude of purposes, with an added small tray for personal items such as jewellery and watches. For a hotel room, Host features enough space for a suitcase and generous hanging space. Host's minimalist steel frame is complemented by a veneer laminate base, solid wood and a large mirror.

Infinity

by Space Copenhagen

The modular sofa collection Infinity is about the purity of the shape and the softness of the curves. This sofa collection was designed to have a minimum of edges and almost invisible detailing and stitching - to underline its elegant, sculptural values and to secure ultimate comfort for the body. A sofa is often a dominant, defining object in a space. The design intention of the Infinity sofa is to radiate a calm, yet strong appearance.

Through the choices of fabrics or leather, it can be personalised for different moods and environments - classically elegant while being lush and casual. The name Infinity also refers to the endless possibilities of combinations and variations of the continuous curves.

Inter

by Neri&Hu

The Inter collection harnesses the inherent beauty of simple materials, blending them into pieces that seamlessly balance sculpture and furniture, art, and function. The interplay of vertical and horizontal elements defines each component's function, with deliberate dualistic contrasts—wood versus metal, tube versus plank. This not only enriches visual appeal but also enhances the collection's versatility for a wide range of spaces.

Two distinct pieces within the collection echo this design spirit: one stands tall as an open coat hanger, while the other, with a lower profile, serves as a console.

James

by Yabu Pushelberg

The James collection is an understated exploration of modern masculinity – at once bold and defined, but also light and elegant. The range includes a chaise, stool and bar trolley, each one meticulously proportioned and ergonomically shaped.

All pieces have been designed to turn negative space into an aesthetic feature, making use of floating planes and wireframes to lend them an air of sleekness and simplicity. Full of subtle details and stowaway compartments, James is subtly inspired by the world of performance cars. The automotive references are also echoed in the materials: warm and tactile black metal, walnut wood and sable-tone matte leather.

Journey

by Space Copenhagen

The Historic Safari Chair is an almost naïve, sturdy, simple geometric structure - with added hard and soft components to secure softness and flexibility. With attention to this vocabulary, The Journey Chair is our modern interpretation - letting comfort, modern lifestyle and behavior be the center of attention. We wanted the chair to be versatile in use and look, embedding a balance between the rustic and a more refined, modern approach into the design. The soft arch under the seat cushion complements the strong, masculine silhouette of the chair - and enhances a lighter, sophisticated look. The thicker seat cushion and the soft back, secures a great and comfortable experience while seated.

Exposed details of darkened brass reveal and celebrate the simplicity of how the chair is assembled.

The Journey chair is obvious to use for all kinds of Dining, but can also be used as a residential office chair, as well as for meetings and conference.

Kite

by Nendo

An armchair designed for common spaces in offices and hotels. There are numerous armchairs and sofas for lobbies and lounges, but those for narrow spaces such as corridors, elevator lobbies, and entrances are difficult to find. Therefore, a compact chair was devised to fit in those niches, for passersby to rest in for a spell or in which to have casual conversation. Attempts to make an armchair small normally leads one to think of gradual elimination of the backrest to create a bench-like furniture piece. But casting the backrest as the star to which the seat is adjoined yields a design less about sitting and more about leaning against a grand backrest. Such a design takes up minimal space while offering to the chair's occupant a bit of calm and security. The backrest and seat are independent parts, with shallow and deep seats and lower and taller backs available for use in combination according to the size of the space and degree of privacy desired.

Lunar

by Space Copenhagen

In the Lunar collection, contemporary Nordic simplicity meets ancient Chinese legend. It takes its inspiration from Chang'e, the goddess of the moon, said to arise in the West and reside in her lunar palace 'Guanghan', which means 'wild coldness'.

The collection is at once fresh, cool and comfortingly timeless. Like its celestial namesake, it is infused with the energy of Yin, the female principle in Yin and Yang.

Lyrical

by Neri&Hu

The Lyrical collection is an homage to the artistry of woodcraft. At first glance the round side tables are deceptively simple, a solid wood top with a wooden structure support. Details such as the subtle curvature of the edge profile, the foot that slightly elevates the frame, the asymmetrical offset of the secondary legs, the lip on the edge of the table top - these reveal a certain level of craftsmanship and bring a touch of sophistication.

Along with a selection of color finishes and sizes, the minimal yet refined design makes the lyrical side table an everyday table for many settings: commercial or domestic, casual or luxe, playful or neutral.

Mandarin

by Neri&Hu

The collection finds inspiration in the harmony and balance between classical forms and mid-century aesthetics. Neri&Hu have translated these into the design of a table and chairs following Asian temple design typologies: the sphere which symbolises the temple of Heaven, versus the square form represented by the temple of Earth.

Marea

by Alessandro Munge

Rooted in Alessandro Munge's Italian heritage and shaped by a contemporary Canadian sensibility, this collection is an ode to the beauty of contrasts. Each piece tells a story where softness meets strength, function embraces artistry, and organic forms blend seamlessly with modern refinement. Inspired by nature's quiet and soft grace in contrast with the straight and strong lines made by artisan craftsmanship, the collection transforms spaces with sculptural elegance.

The wooden profiles are more than structural – they are poetic. Subtle curves and clean lines flow harmoniously, while floating seat designs and thoughtfully integrated details, like metal back handles, add a sense of lightness and sophistication. By blending traditional woodworking techniques with innovative methods, the collection celebrates craftsmanship and durability.

With its timeless appeal and designs that unify residential comfort with hospitality finesse, it invites you to linger, connect, and experience beauty that endures across changing design landscapes.

Ming

by Neri&Hu

Drawing on the past to inspire the present, Ming revisits the historic decorative arts of China to create a crisp and contemporary furniture style. Chinese design duo Rossana Hu and Lyndon Neri have looked to their Asian heritage, mixing ornamental motifs with modern Western functionality.

The result is a series of intricate wooden stacking chairs and aluminium tables that work effectively as solo pieces, as well as a family grouping.

Mr.B

by Neri&Hu

Inspired by Shanghai's iconic Bund, where the old seamlessly merges with the new and where rich history coexists with modern life, the Mr.B collection reflects a harmonious blend of Eastern and Western cultures. The modern aesthetic is evident, yet the influence of traditional old culture is intricately woven into the details. The collection showcases a fusion between the robust wood structure derived from traditional carpentry heritage and the metal details that speak to an industrial influence. The well-tailored upholstery provides clean lines as well as a comfortable seating experience.

The Mr.B collection is comprised of a dining chair, lounge chair, swivel bar chair, and a two-seater, each bringing an understated touch of sophistication. Suitable for both residential and hospitality spaces, these pieces embody the subtle elegance that captures the essence of Shanghai's spirit.

Pagoda

by BassamFellows

Pagoda is a collection of chairs inspired by the classic café chairs of 19th century Vienna. The chair is supremely light and compact with a structure that has been reduced to its very essence. The chair consists of only six pieces – delivering good craftsmanship and efficiency while allowing multiple material configurations. The chair's circular seat stems from rationalization while symbolizing the "Way of Nature" or "oneness" in Chinese culture. Cantilevered arms and back subtly reference Pagoda gates, giving the chair its personality while also eliminating the need for an arm and armless version.

Pesca

by Alessandro Munge

The Pesca collection embodies a perfect fusion of artistry and contemporary elegance. Inspired by the soft, organic curves of a peach, each piece celebrates the beauty of natural forms, exceptional craftsmanship, and timeless design. Fluid lines, precise stitching, and sculptural silhouettes converge to create a collection where artistry and functionality coexist in seamless harmony. The addition of a swivel base introduces a dynamic element, allowing each piece to effortlessly adapt to its surroundings.

Crafted with meticulous precision, the Pesca Collection offers more than just furniture; it provides an experience of refined luxury. It is thoughtfully designed to deliver exceptional comfort while enhancing the atmosphere of any space. With its versatile elegance and carefully considered details, the collection exudes a timeless presence, elevating its environment with quiet sophistication.

Qi

by Neri&Hu

Named after the traditional Chinese concept of a “small sleep” at noon, the Qi Sofa draws inspiration from the Luohan Chuang - a dual - purpose bench for sitting and sleeping. Blending modern versatility with the minimal style of Jean-Michel Frank, it combines a wooden structural base with a padded platform and cushions for comfort in both seated and reclined positions.

The collection comprises one, two, and three-seater sofas in wood with textile upholstery, suitable for diverse living spaces. Qi seamlessly infuses a subtle Asian aesthetic into contemporary contexts.

QT/Chillax

by Nic Graham

Initially developed for Australia's pioneering QT Hotels brand, the QT collection is Nic Graham's modern-day tribute to the mid-century movement. Drawing out retro details with a light touch, while allowing natural materials and traditional craftsmanship to take centre stage, the range communicates quality without compromising its casual appeal.

The QT collection and its slender, contoured counterpart Chillax make warm and welcoming additions to any contemporary interior, embodying the laidback, relaxed spirit of modern Australian life, with a wink to the pragmatism of mid-century Scandinavian design.

Rén

by Space Copenhagen

Rén was born of the desire to create a series of pieces in the Danish Modern tradition – high quality, thoughtfully crafted design that balances function with form and is accessible to all.

Rén's tables and chairs take this distinctly Nordic philosophy and incorporate craft techniques and aesthetic detail from the design traditions of Japan and China, resulting in a collection that, although inspired by a particular place and time, is both international and ageless in its scope.

Risom

by Jens Risom

Stellar Works is reissuing the C140 in its original caned back version, which has an upholstered back. The chairs come in a choice of oak or walnut. For the upholstery, Stellar Works have selected Hallingdal 65 from Kvadrat, designed by mid-century Danish designer iconic Nanna Ditzel, in a choice of 457 (yellow), 547 (orange) 850 (blue).

The Iconic C140 chair was used in the White House under President Lyndon B. Johnson's administration and Johnson was photographed sitting in it signing the Civil Rights Act in 1964 and the Highway Beautification Act in 1965.

Stellar Works is continuously adding new important pieces to its existing collection of Jens Risom designs. Originating from his mid-century heydays, the six new models are prime examples of Risom's aesthetics and proof of the enduring quality of his timeless work.

Slow

by Space Copenhagen

Inspired by the chair they designed for restaurant 108 in Copenhagen, the collection consists of a beautifully upholstered wooden furniture that explores the beauty of narrow silhouettes. All items feature narrow legs that elevate and support, striking a perfect balance between mid-century Danish and classic Japanese design. The collection is a tribute to heritage and craft, embodied in a timeless, flowing design, while remaining modern and comfortable. The collection stands for quality craftsmanship and materials. Furniture items are crafted from quality walnut and ash and seating features thick leather to maximise comfort. Decoration is kept to a minimum to enhance that sense of detail and shape.

Stay

by Michele De Lucchi

The Stay collection expresses sensitivity to nature. The collection's agile, playful, and organic structure is a consequence of eliminating the superfluous. The table is constructed from four pieces of wood that seamlessly join in the centre with a refined edge bevel design. The chair is composed in the form of a four-leaf clover, continuing the designs reference to natural forms.

by OEO Studio

OEO Studio's SW furniture series draws on the simple, functional forms championed by the early 20th-century Bauhaus movement to develop a collection of seating that is comfortable, elegant and contemporary.

Created using solid wood, and upholstered in leather or fabric, the SW collection has been designed to bring clean-lined refinement to both homes and hospitality settings, demonstrating a purity of style through detail-focused craftsmanship, a soft, warming colour palette and high-quality materials.

Taiko

by Studio Stefan Scholten

Inspired by Stellar Works' commitment to East-West harmony, the Taiko side tables draw from the iconic Taiko drums. Their rounded aesthetics and commanding presence influence the carefully crafted shapes, blending cultural elements for visually striking and functional design.

Available in three sophisticated terrazzo combinations - ice white, color gold, and carbon black - the Taiko side tables seamlessly combine form and function. The Taiko side tables stand as a testament to the successful fusion of innovation and functionality in contemporary furniture design.

Taylor

by Yabu Pushelberg

Modernity reigns in the Taylor collection. Beginning with a sleekly profiled wood frame that cradles sporty upholstery on the seat and back, this chameleon-like chair effortlessly evolved into sofas and tables to round out the collection. Taylor's unwillingness to conform to a specific genre, sits well in any style of interior.

Utility

by Neri&Hu

This durable seating series combines comfort with practicality and a highly sophisticated take on the enduringly popular industrial aesthetic.

Incorporating a range of lounge chairs, barstools and stools, the Utility collection is (as its name suggests) utilitarian in its references, while also featuring a palette of old-world and luxurious materials. The end result is a set of elegant and versatile pieces that fit seamlessly and gracefully into any environment, from high-end hospitality to residential projects.

Valet

by David Rockwell

Rockwell Group took inspiration for the collaboration, part of Stellar Works' collaboration series, from the roots of the word "valet", but reinterpreted it for the 21st century—this crafted, unique furniture accommodates the narrative of our lives today. From lounge seating to customizable shelving, each of the 14 pieces in the collaboration has a streamlined functionality—luxurious embellishments, from leather cords to matte brass hardware, double as subtle tools for living well. Grouped together in endless combinations, the pieces help create natural transitions in the home or hospitality setting, from entry, to work, to play.

William Gray

by Meyer Davis

The William Gray furniture collection for Stellar Works is a personification of the shared values of Will Meyer and Gray Davis. The character of William Gray represents a modern gentleman who appreciates hospitality, generosity, and travel as a means of inspiration. The collection reflects the designers' meticulous approach to detailing and the effortless luxury they bring to their clients in both hospitality and residential environments. This initial assemblage of furniture includes benchmark pieces for lounge and dining – beautiful upholstery and low tables for entertaining, and tailored elements for dining and bar settings.

Ynez

by Yabu Pushelberg

The Ynez collection introduces a sofa series where sculptural lines meet classic design, capturing the essence of romance through its curved silhouettes and soft geometric forms. Its name, meaning "Pure" in ancient Greek, reflects this purity in design, offering a range of pieces from One Seater Sofa to Two Seater Sofa and Ottoman that feel both modern and nostalgic.

This collaboration between Stellar Works and Yabu Pushelberg draws on their shared ability to create pieces that resonate across cultures, blending rich materials and precise construction methods to honor both Eastern craft traditions and Western design sensibilities. Achieving an elegant posture that also provides comfort was a challenge, evolving from hand sketches to multiple prototypes to ensure every angle delivers both visual impact and genuine care for the sitter.

Whether beside a fireplace, in a library, or as the anchor of a lobby vignette, the Ynez collection fosters intimacy and conversation. Its diverse formats, distinct yet complementary, allow for unity in large-scale settings without repetition.

Kyoto Lamp

by OEO Studio

This series of floor lamps in solid wood is a tribute to both the historic woodcraft of Kyoto and the early years of Japanese aviation. The lamps' structure invokes the intricacy of Japanese toy aircraft – in particular the Yoshida Hishou, an A-shaped plane fitted with two reverse propellers that successfully crossed Tokyo's Sumida River in a 1911 model-aircraft contest.

The shade is created using Japan's Unesco-listed washi paper, by the craftspeople of Kyoto, traditional makers of Japan's distinctive wagasa (umbrellas made with washi and bamboo). Emitting a gentle, warm-toned light and creating a soft shadow play, the Kyoto Lamp enhances interiors through both its form and effect.

The inspiration behind the Wall Rugs collection comes from a fascination and attraction to textures, patina, tactility, with balances and contrasts between smooth and rough, soft and hard, horizontal and vertical, light and shadow. The intricacy of how various surfaces age, old walls and buildings of different nature, is intuitively interpreted in the creation of these rugs: creating fragments of these aging surfaces and textures into free patterns of beautiful colours blending and fading, allowing the tactile walls to become soft floors. All the names of the rugs relate to the same sensuous mechanisms and constant flow of memories—dune, moon, nude, tundra, midnight, gold—referring to esoteric values, a mood or a state of mind, rather than a specific colour.
