Delivering growth through sustainability

We are the leading Nordic wine and spirits group delivering growth through sustainability. Our passion takes the best of the Nordics to the world and the best of the world to the Nordics.

We are Anora, let's drink better!

Our growth strategy up to 2030

**Lead category growth
across consumer occasions
and channels in the Swedish,
Norwegian and Finnish markets as
the wine and spirits powerhouse**

**Scale our position in
Denmark and the Baltics
to cement our regional
leadership**

**Accelerate beyond the Nordics with strong,
sustainable hero brands**

Delivering growth through sustainability

Our sustainability roadmap to growth

Strong values and company culture support our growth

COURAGE TO **EXPLORE**

We are **passionate** and ambitious to lead the industry. We have the **courage** to challenge the status quo, continuously improving for a better tomorrow.

ENERGY TO INSPIRE

We share a can-do attitude and **enjoy** going the extra mile. **Positivity** shines through in everything we do, making us inspiring and fun to work with.

EMPOWERING TO WIN

Our dynamic, open and **inclusive** way of working represents a modern Nordic mindset. We take **ownership** of our decisions, giving all of us the freedom to succeed.

Our sustainability roadmap

Substantial reduction of CO₂ emissions at Koskenkorva Distillery

Significant use of renewable energy at Gjelleråsen

Key drivers

Nordic monopolies have agreed to

- ✓ Decrease the CO₂ footprint of the supply chain by 50% within 2030
- ✓ Minimise the use of heavy weight glass bottles
- ✓ Maximise the share of low carbon footprint packaging
- ✓ Support new innovative low carbon packaging solutions

An avalanche of new sustainability regulation

- ✓ Norwegian transparency law
- ✓ EU human rights and environmental due diligence directive

Cash generation expected to remain stable throughout the strategy period thanks to stable margins, capex and working capital

Anora's underlying business will continue to produce strong operational cash flows throughout the strategy period as we seek to finance organic growth investments through efficiency improvements that maintain stable margins

Anora is well invested. Capex will remain at current levels of ~10 EurM per year. In addition to maintenance capex we will continue to invest in sustainability, e.g. at Koskenkorva, new packaging formats

Throughout the strategy period, working capital is expected to remain fairly stable as a percentage of sales though with seasonal variations.

The international expansion strategy is not expected to have a material effect on working capital levels

We will continue to use M&As to support our strategy

Anora invests in ISH, the award-winning Danish scale-up company in non-alcoholic beverages

Anora has made an investment of EUR 5 million in ISH

ISH is a Danish scale-up company in non-alcoholic beverages founded in 2018 by Morten Sørensen

ISH is a global leader in non-alcoholic (NA) markets with a broad portfolio of award-winning non-alcoholic spirits, wines and ready-to-drink beverages

Anora is a minority shareholder in the company with 26% of the shares, which due to convertible loans and warrant programme can be diluted to 20% over the next couple of years

The investment will enable ISH to further accelerate its international growth

Anora will be distributing ISH's alcohol-free products in Norway, Sweden, and Finland

Non-alcoholic beverages are currently the fastest growing segment in the beverage industry. While still a small category, the volume of non-alcoholic spirits is estimated to grow at a 15.5%* compound annual growth rate between 2021–2025.

Appendix: Most recent results

Net sales grew in Q3 – strong performance by Globus Wine

Decline in profitability due to normalisation after Covid-19, higher opex and lower gross margin

Market: The decline in volumes was related to the normalising of the channel mix with consumption returning to the on-trade, travel retail and border trade as Covid-19 restrictions have been lifted.¹

Anora: Net sales growth driven by the strong performance of the newly acquired Globus Wine in Denmark, and growth in Industrial. Continued positive market share development in spirits in the monopolies. Profitability decline was due to lower volumes, higher opex and lower gross margin. The implemented price increases have not fully mitigated the increasing input costs.

Product launches in Q3

Spirits

Q3 Highlights

- **Net sales** were at last year's level at EUR 57.2 (57.2) million
- Supported by the solid growth in International.
- Market share gains in the monopolies
- **Profitability** declined due to reduced gross profit due to higher input costs and higher operating expenses. The implemented price increases have not fully compensated the high input costs

Product launches in Q3

Industrial

Q3 Highlights

- **External net sales** grew by 17.3% to EUR 41.6 (35.5) million
- Growth was driven by higher sales prices in contract manufacturing and industrial products following the increase in the cost of barley
- **Profitability** declined due to the higher cost of barley and higher operating expenses

Q3 22:
45.8 (52.6)
million kilos
of grain

- Key principles for barley sourcing:**
- Purchased at spot prices; no hedging tools available for barley
 - Average monthly sourcing volume 17000-18000 tn

- About 1 month inventory; volumes and purchase prices are fixed a couple of months ahead
- New harvest in August-September

Net cash flow from operations, EUR million	7.3	-5.1	50.8

- The **increase in net debt** was due to the **acquisition of Globus Wine** which was financed with debt.
- **Cash and cash equivalents** amounted to EUR 76.8 (129.7) million, while **the interest-bearing debt** including lease liabilities amounted to EUR 392.5 (302.3) million. The increase in interest-bearing debt was related to funding of the **Globus Wine acquisition** (EUR 85 million) and **increase in IFRS 16 lease liabilities from Globus Wine**.
- The **gearing ratio** was 65.8% (35.5%) and **equity ratio** was 39.0% (42.5%).
- The **reported net debt to comparable EBITDA** was 3.6 (2.9) times. If **including Globus Wine** rolling 12-month figures, net debt/comparable EBITDA (rolling 12 months) would have been **approx. 3.4** for Q1-Q3/22.
- **Cash flow from operations** was impacted by the change in working capital due to a high inventory level. Inventory values were higher than year ago due to stocking of barley and ethanol, as well as higher input costs resulting in higher standard costs.

Outlook 2022

Guidance remains unchanged

- **Comparable EBITDA expected to be between EUR 75-85 million**
- Corresponds to the **pre-pandemic level**
- Takes into account the **annual impact of EUR 4.6 million** of the divestment of Anora brands due to the merger
- **Volumes in the monopolies are expected to be significantly lower** than in 2020 and 2021 as the lifting of COVID-19 restrictions result in higher on-trade, border trade and duty-free sales
- **Input costs are expected to remain at a high level**

Summary of Q3 22

**Strong performance
by Globus Wine in
Denmark – driving
net sales growth**

**Profitability declined
in Q3, but we were
at pre-pandemic
level (excl. Globus
Wine)**
