

WOMEN'S MARCH 2023 WINS

Photo by Hedi Rudd

**women's MARCH HAS BEEN EVERYDAY PEOPLE'S
BIGGEST ONRAMP TO THE PROGRESSIVE
MOVEMENT SINCE OUR INCEPTION.**

Women's March mobilizes the power of feminists.

We are leading the charge in building a feminist, multi-racial democracy that serves us ALL.

Women's March is one of the few organizations focused on building a distributed, national base, and the ONLY one that focuses on organizing women across race and place at scale.

Our base is the backbone of political and community power that drives wins. With over 15,000 actions and over 15 million people taking action with us since our inception. We are undeniably the largest mobilizer and base builder on the Left.

2023 SO MUCH WINNING

A person wearing a black jacket and a bright pink knit hat is seen from behind, holding a white sign with the text "I AM WOMAN WATCH ME VOTE!" written in blue and red marker. The person is standing in a crowd at a Women's March rally. In the background, there are other people, some wearing similar pink hats, and American flags. A large, classical-style building is visible in the distance under a clear blue sky.

And **Women's March** was there.

Madison, Milwaukee, Amarillo, Washington DC, and everywhere in between — we showed up and took action in 2023.

2024 LOOKING aHEAD

We will need multiple tactics to win on multiple agendas. The common denominator of those strategies will be the need for an invigorated and organized base of people, which we have been building for years. This is our core strength and our strongest, most unique contribution to the movement landscape.
