FABRICUT®

THE DRAPERY HARDWARE COLLECTION

INTRODUCING THE

FABRICUT®

DRAPERY HARDWARE COLLECTION

Elevate every interior with Fabricut's Drapery Hardware program - a premium, fully customizable collection proudly crafted in the USA with exceptional attention to detail. Each piece showcases superior craftsmanship, refined finishes, and precision engineering, delivering timeless design with effortless functionality.

Designed to coordinate seamlessly with Fabricut fabrics and our family of luxury brands, the collection offers versatility and sophistication for any space. Choose from hand-painted, stained, or plated finishes, thoughtfully developed to complement styles ranging from modern minimalism to classic elegance.

The program includes made-to-order stained wood, painted and plated metal, lacquered and unlacquered brass, and acrylic components. Projects may be further customized with specialty brackets, bent or mitered returns, and rings, or elevated with custom-stained wood and painted metal in virtually any color.

Finials and end caps feature clean, understated profiles that emphasize material quality while harmonizing with a wide range of interiors. Functional options include passing rings and brackets, along with manual and motorized traversing systems powered by advanced technology for seamless performance and control.

1⅜” ROUND

METAL | STAINED WOOD | ACRYLIC

METAL
Sleek and enduring, the metal version offers a refined architectural look suitable for transitional and modern interiors.

STAINED WOOD
Crafted from premium White Oak and Walnut, our Stained Wood Collection features rich finishes that enhance the natural grain bringing warmth and organic texture to any drapery design.

ACRYLIC
This modern material lends a sense of lightness and clarity, offering an airy aesthetic ideal for bright, open spaces and contemporary interiors.

MOTOR OPTIONS:

Somfy | Glydea® ULTRA

Glydea ULTRA sets a new benchmark in quiet motorization, delivering exceptional acoustic performance at under 38 dBA—among the quietest solutions available today. Advanced engineering absorbs noise and vibration within the motor and throughout the entire system, ensuring near-silent operation.

Designed to remain virtually invisible, Glydea ULTRA combines discreet elegance with smooth, fluid movement and an impressive traversing capacity of up to 132 lb (60 kg). This balance of silence, strength, and precision reflects Somfy's unwavering commitment to performance-driven innovation.

Glydea ULTRA 35e
Draperies weighing up to
77 lbs (35kg) | 32 ft (9.7m)
H9538F

Glydea ULTRA 60e
Draperies weighing up to
132 lbs (60kg) | 36 ft (10.9m)
H9539F

Somfy | Irismo™ 45 WireFree RTS

Irismo™ 45 WireFree RTS redefines simplicity in motorized drapery, offering refined, wire-free operation without compromising performance. Powered by an integrated rechargeable battery, it delivers smooth, controlled movement with soft start and stop technology for a quiet, fabric-conscious experience.

Designed for effortless integration, Irismo 45 features a compact, discreet profile ideal for retrofit applications and spaces where wiring is impractical. Supporting substantial drapery weights and extended track lengths, it embodies Somfy's commitment to intelligent design—where convenience, reliability, and understated elegance converge.

Irismo™ 45 WireFree RTS
Draperies weighing up to
99 lbs (45kg) | 33 ft (10m)
H9540F

Comfort & Convenience
Features soft start and stop technology for smooth, fabric-protective movement and whisper-quiet operation. Touch motion and manual override provide intuitive control, even during low battery conditions. Designed to support substantial drapery weights and long track spans, its compact, wire-free profile allows for discreet, plug-and-play installation. Energy-efficient performance helps reduce heat gain and UV exposure while extending battery life.

Somfy | Glydea® ULTRA 50 WireFree™ Zigbee

Glydea ULTRA sets a new benchmark in quiet motorization, delivering exceptional acoustic performance at under 38 dBA—among the quietest solutions available today. Advanced engineering absorbs noise and vibration within the motor and throughout the entire system, ensuring near-silent operation.

Designed to remain virtually invisible, Glydea ULTRA combines discreet elegance with smooth, fluid movement and an impressive traversing capacity of up to 132 lb (60 kg). This balance of silence, strength, and precision reflects Somfy's unwavering commitment to performance-driven innovation.

Glydea ULTRA **50 WireFree Zigbee**
Draperies weighing up to
132 lbs (60kg) | 36 ft (10.9m)
H9541F

Motor Mounting
Versatile mounting allows 0, 90, 180, -90 degree positioning to better accommodate various types of draperies.

Motor Hook
Unique adapters for pinch pleat hooks and ripplefold snaps.

Digital Tools - Designed for Professionals
Step-by-step instruction guide, quick start-up, maintenance.

TaHoma® by Somfy App
Centralized remote control, touch motion, and manual override.

Removable Battery Pack
Fast charging via Somfy USB-C charger. No electrical wires needed for pre-installation.

Somfy | Ways to Control

Ysia® 5 Zigbee
H9553F

Ysia offers intuitive, streamlined control for motorized window coverings. Designed in a crisp white finish with a modern profile, it delivers subtle elegance while functioning as a direct control for Somfy Zigbee devices or as part of the connected TaHoma switch system.

DecoFlex WireFree™ Zigbee 4 Channel Surface-mount
H9554F

The DecoFlex WireFree Zigbee keypad pairs minimalist design with effortless operation, providing refined control of Somfy-powered Zigbee solutions.

Situo® 5 RTS Pure II

H9542F

Situo handheld remotes offer simple, flexible control of a single window covering or grouped treatments. A contemporary design ensures seamless integration with any décor.

TaHoma Switch

H9552F

TaHoma® switch is a smart control that centralizes and connects your complete smart home ecosystem and is compatible with third-party home controls.

TaHoma Switch® features multiple technologies such as **Zigbee and Radio Technology Somfy® (RTS)** as well as close to **300 types of Somfy products and major home equipment brands.** Create your ideal home environment at your own pace thanks to an interoperable and scalable smart home solution.

Smoove® 4 RTS Pure II

H9555F

The Smoove 4 RTS surface-mounted wall switch delivers easy installation without cutting drywall or requiring an electrician. Battery operated and multi-channel, it is available with seven decorative frame options to complement a wide range of interior styles.

TaHoma App

TaHoma® by Somfy app is a simple interface for controlling smart shading while at home or away. Check your connected equipment for the real-time status of each device. Program scenes and automated schedules for added convenience.

Voice Control

Compatible with Apple Home*, Amazon Alexa, and Google Home.

*Apple Home compatibility is only supported for TaHoma switch used with select Zigbee technology motors. See motor specifications for details.

CUSTOM BENDS

Precision-engineered metal bends ensure seamless continuity and flawless alignment through corners and architectural transitions. Each bend is custom-formed using detailed templates to guarantee accuracy, smooth movement, and tailored fit for every installation.

CUSTOM FINISHES

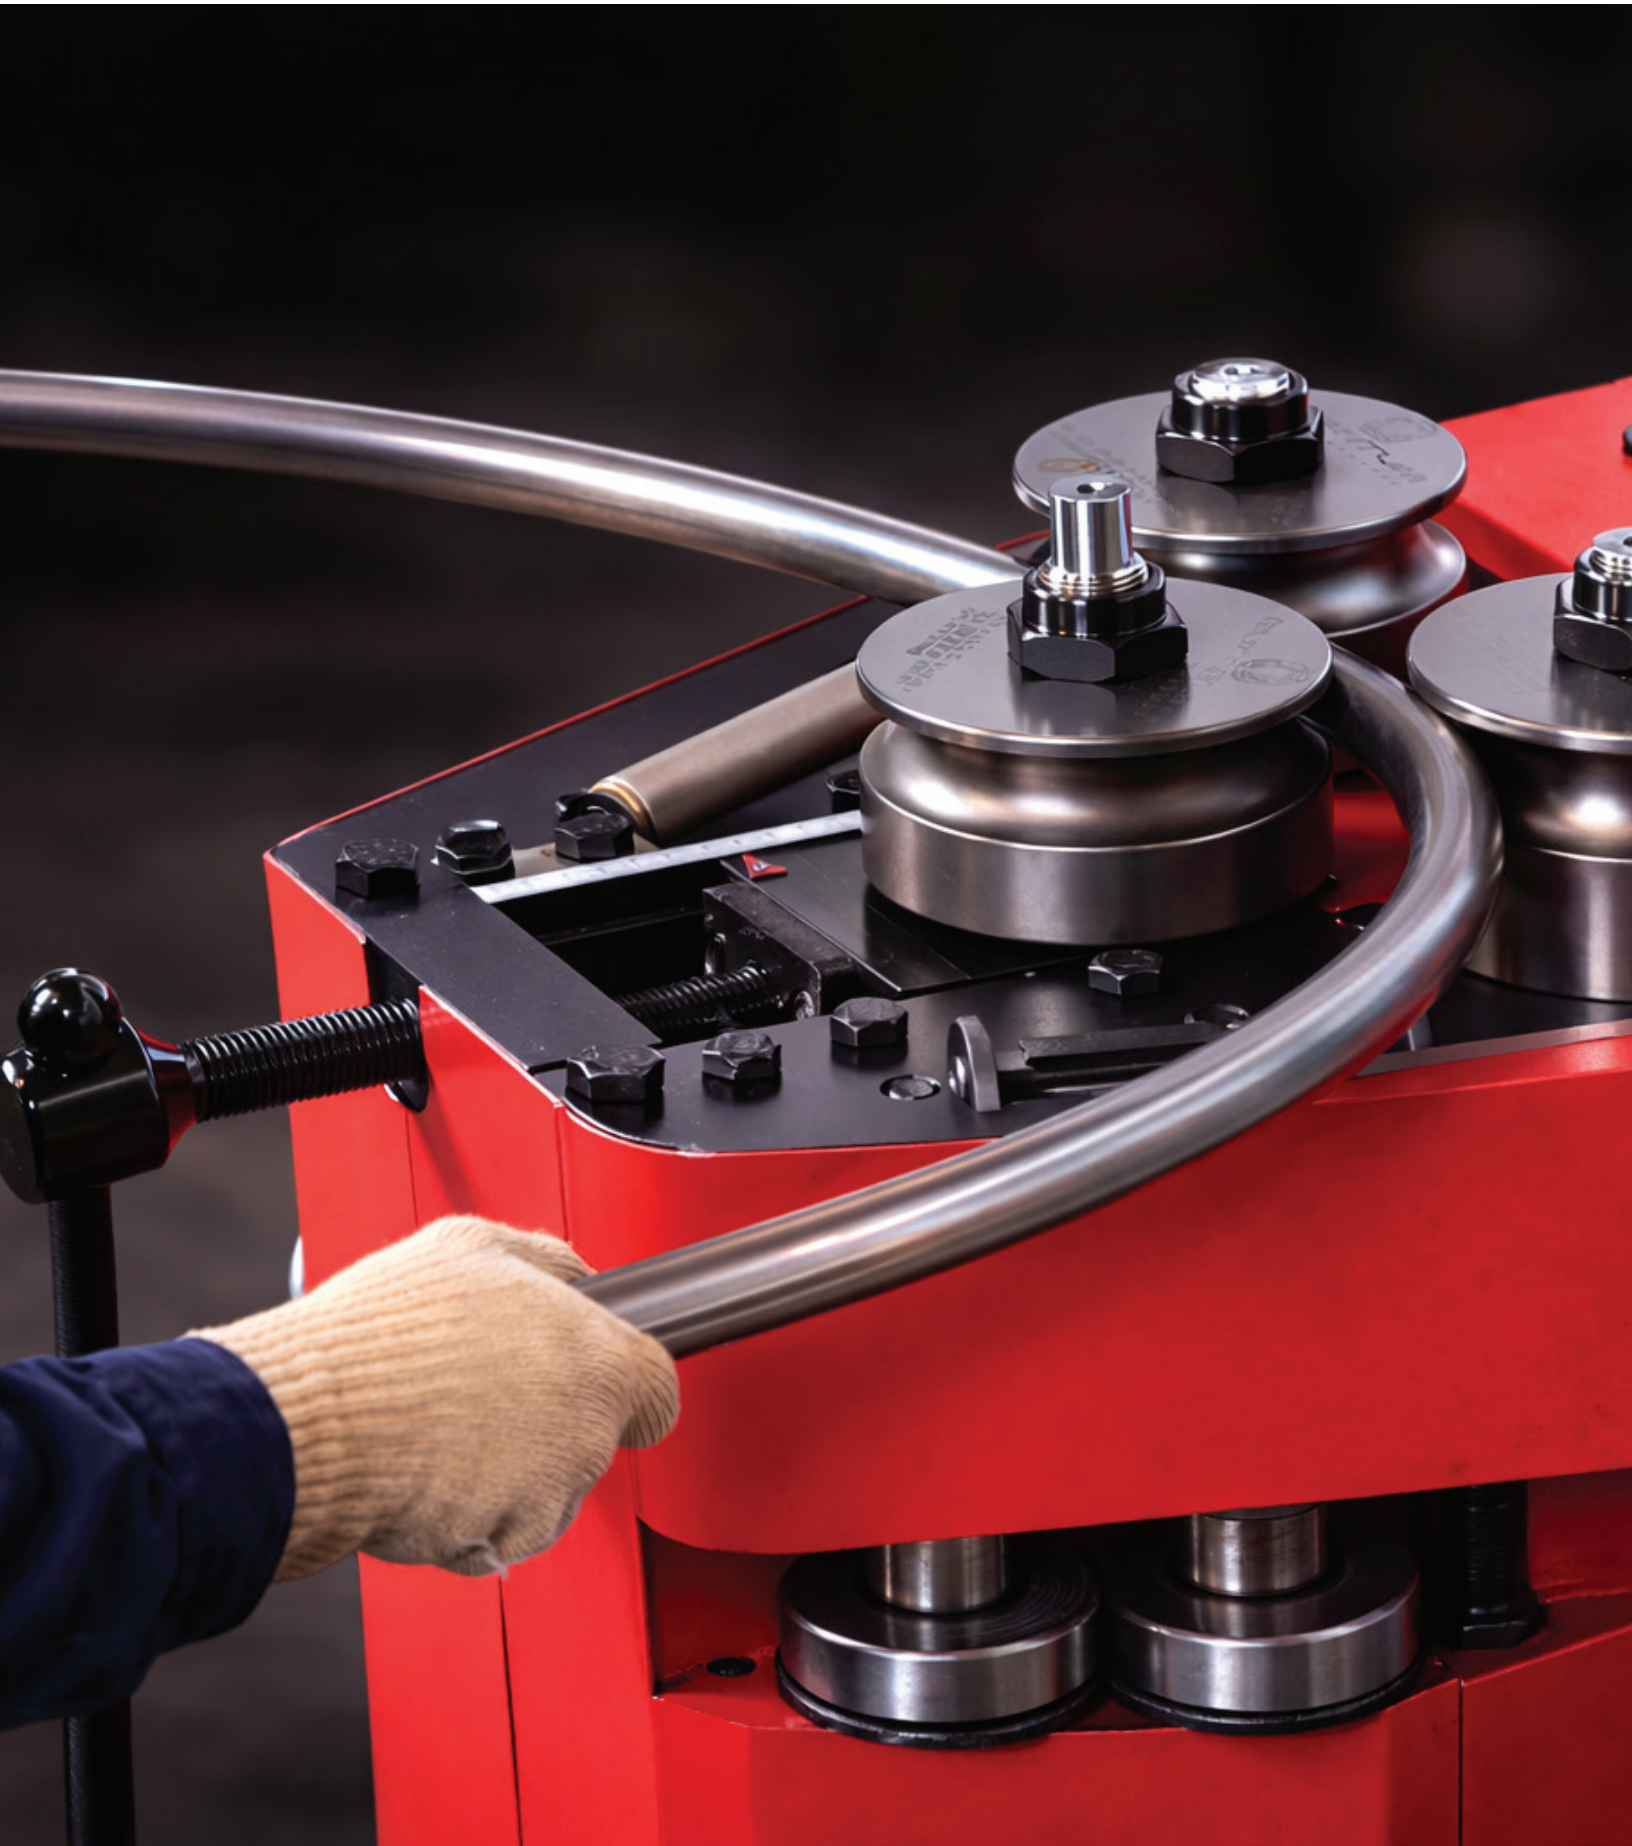

Design without compromise. Our custom finish capabilities allow you to specify any paint or stain finish, paired with your desired sheen level — whether a velvety matte, a subtle satin, or a luminous gloss. Each finish is expertly applied to enhance depth, texture and durability, ensuring your hardware is as distinctive as the space it completes.

CUSTOM BENDS

BENDS

With proper templates, custom bends for all bay windows are available. Please see the Technical section of the Specification Guide for details.

PAINT

From simple paint to match to complex metallic mixes, contact our custom department for your extraordinary requirements.

PATINA

From aging our standard brass finishes, to producing your order in solid unlacquered brass, tailored options are at your disposal.

OUTDOOR

DRAPERY HARDWARE

METAL

The Outdoor Collection is engineered for durability and performance in open-air environments while maintaining a clean, refined aesthetic. Built to withstand the elements, each component pairs robust construction with streamlined design - delivering reliable function and effortless style for both interior and exterior living spaces.

CERAMIC COATED

Our ceramic coating features exceptional, industry-leading UV resistance due to its 100% inorganic formulation. It is engineered to be completely UV stable, meaning it will not yellow, haze, or fade under exposure to sunlight - making it ideal for, and excelling in, long-term outdoor applications.

This treatment also exceeds over 3,000 hours in ASTM B117 salt spray tests, offering industry leading corrosion resistance against pitting, rusting, and fading.

This ceramic coating can be applied over any of our finishes, or directly in matte black.
