Cardrona is home to an extensive network of world-class terrain parks, so make the most of your time by getting in there and developing your skills, no matter what level they are at. We aim to have multiple groups running to be able to suit your confidence and skill level.

As a critical part of the SBINZ Level 2 and Level 3 exam, the intensive week is highly recommended for snowboard exam candidates.

The week runs in the gap between the Level 1 exam and the start of Level 2 training, and is available for both ski and snowboard disciplines.

The add-on half days are Wednesdays during the standard training weeks, and are available for both ski and snowboard disciplines.

Internship Possibilities

There's no better way to develop as an instructor than hands-on experience! You'll learn, qualify, teach, and progress all in one season—setting yourself up for future instructing opportunities anywhere in the world.
