

**About 1Password**

Trusted by over 100,000 businesses and millions of consumers, 1Password offers industry-leading identity security solutions to reduce risk for companies and provide people with peace of mind. 1Password is on a mission to ease the tension between security and convenience with solutions that enable powerful password management as well as the future of authentication with passkeys. Since our founding in 2005, 1Password has evolved from a beloved, award-winning password manager to an enterprise security leader serving customers like IBM, Slack, GitLab, Under Armour, and Intercom.
