## Akagi Nanmen Senbonzakura & Forest of Miyagi Senbonzakura

More than 1,000 cherry trees line on the both sides of the road for over 1.3 kilometers. When they are in full bloom, it becomes a tunnel of cherry blossoms.

Since the road varies in elevation from 430 to 550 meters above sea level, you can enjoy blossoms for several weeks.

Besides someiyoshino, the major variety, other varieties of cherry blossoms are also planted. The period of blooming is slightly different in each variety and it enables you to enjoy cherry blossom viewing for a month.

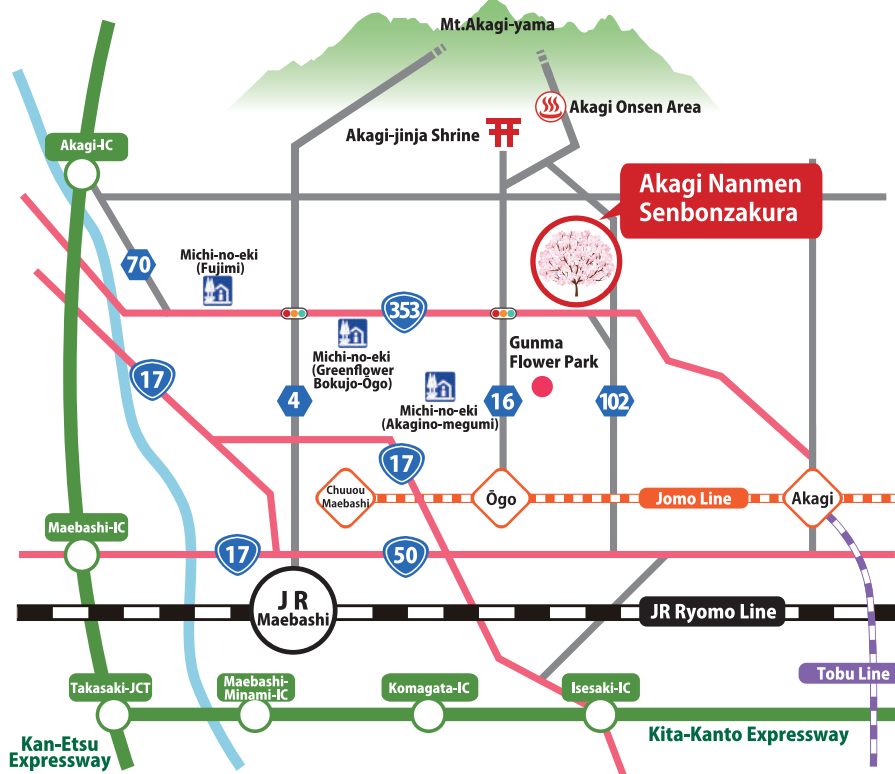

Torch azalea (Around May)

Red spider lily (Around September)
