The Grimm Variations

April 17, 2024

Grimms' Fairy Tales get a bold reboot on Netflix, with character concepts by CLAMP and animation by WIT Studio!

Once upon a time, brothers Jacob and Wilhelm collected fairy tales from across the land and made them into a book. But there's more to the story. They also had a much younger sister, the innocent and curious Charlotte, whom they loved very much. One day, while the brothers were telling Charlotte a fairy tale as usual, they saw that she had a somewhat melancholic expression on her face. "Do you suppose they really lived happily ever after?" she asked.

The pages of Grimms' Fairy Tales, written by Jacob and Wilhelm, are now presented from the unique perspective of Charlotte, who sees the stories quite differently from her brothers.
