Jackson

CUSTOM SHOP *Jackson*[®]

MADE IN THE U.S.A.

BESPOKE SINCE THE BEGINNING

The Jackson Custom Shop has turned out world-class custom guitars ranging from the fine to the fantastic ever since the Jackson name was first affixed to a headstock in 1980. The reason for this impressive longevity is simple: Jackson was a custom shop since the very beginning. Every Jackson guitar was an original, high performing custom instrument.

Some production guitar-makers open their own custom shops after reaching a certain age or level of success. Jackson existed from its early days as nothing but a custom shop, building distinctive and meticulously crafted instruments for a very exacting clientele. No design was too crazy, and no idea too far-fetched—if someone conceived it, Jackson's talented, imaginative and occasionally demented craftsmen built it. This early emphasis on originality and one-off instruments proved enormously influential for Jackson's most famous and oft-copied body shapes.

It's a longstanding tradition of U.S.-made greatness and devotion to craftsmanship that flourishes to this day.

CUSTOMS

SELECT

TRADITION REBORN.

Custom Select instruments recall the time-honored tradition of the '80s-era Jackson Custom Shop, when every instrument was a special-order. Nowhere else will you find U.S.-built, production-model shred machines of such stellar design, peerless performance and superior craftsmanship, brought to life by the best builders in the business.

These instruments are not only customized for every player, but also serve as vehicles of unprecedented self-expression. No two models are ever alike, and new options and finishes are always being added. Of all Jackson's acclaimed instrument families, Custom Select delivers the best of Jackson's best.

- USE MENUS TO CUSTOM-BUILD THE ULTIMATE SHRED MACHINE

- QUARTERSAWN MAPLE NECKS
- EBONY, MAPLE OR ROSEWOOD FINGERBOARDS
- COMPOUND RADIUS FINGERBOARDS

- FLOYD ROSE® ORIGINAL TREMOLO BRIDGES
- HIPSHOT® HARDTAIL BRIDGES
- TONEPROS® LOCKING BRIDGES

- CHOOSE PICKUPS FROM A VAST SELECTION BY BARE KNUCKLE®, FISHMAN® FLUENCE®, SEYMOUR DUNCAN®, DIMARZIO®, EMG® AND MORE

Soloist SL1, Platinum Pink

SOLOIST™

ONE OF THE MOST POPULAR AND IMITATED
JACKSON MODELS OF ALL TIME

Jackson has always combined traditional double cutaway body styles with shark-like high performance. Featuring an addictive compound radius fingerboard and a new pitch on its through-body neck, the Soloist was born to shred. With its player-centric features and alluring good looks, this guitar is respected for a reason.

Features include an alder body (flame maple top on transparent finishes, mahogany body on SL2H-MAH), quartersawn hard rock maple neck-through body, compound radius ebony fingerboard (12"-16"), black hardware (chrome hardware on transparent finishes) and Dunlop® locking strap pins.

USA SL1 Soloist

Seymour Duncan humbucking and single-coil pickups, Floyd Rose Original tremolo and string-through-body bridge

Model Number 2803070

Model Number 2803170 Left-hand model

USA SL2H Soloist

Alder or mahogany body, quartersawn Eastern hard rock maple neck-through body, compound radius ebony fingerboard, Seymour Duncan humbucking pickups, Floyd Rose Original tremolo and black hardware (flame maple top and chrome hardware on transparent finishes)

Model Number 2803071

Model Number 2803076

Model Number 2803072

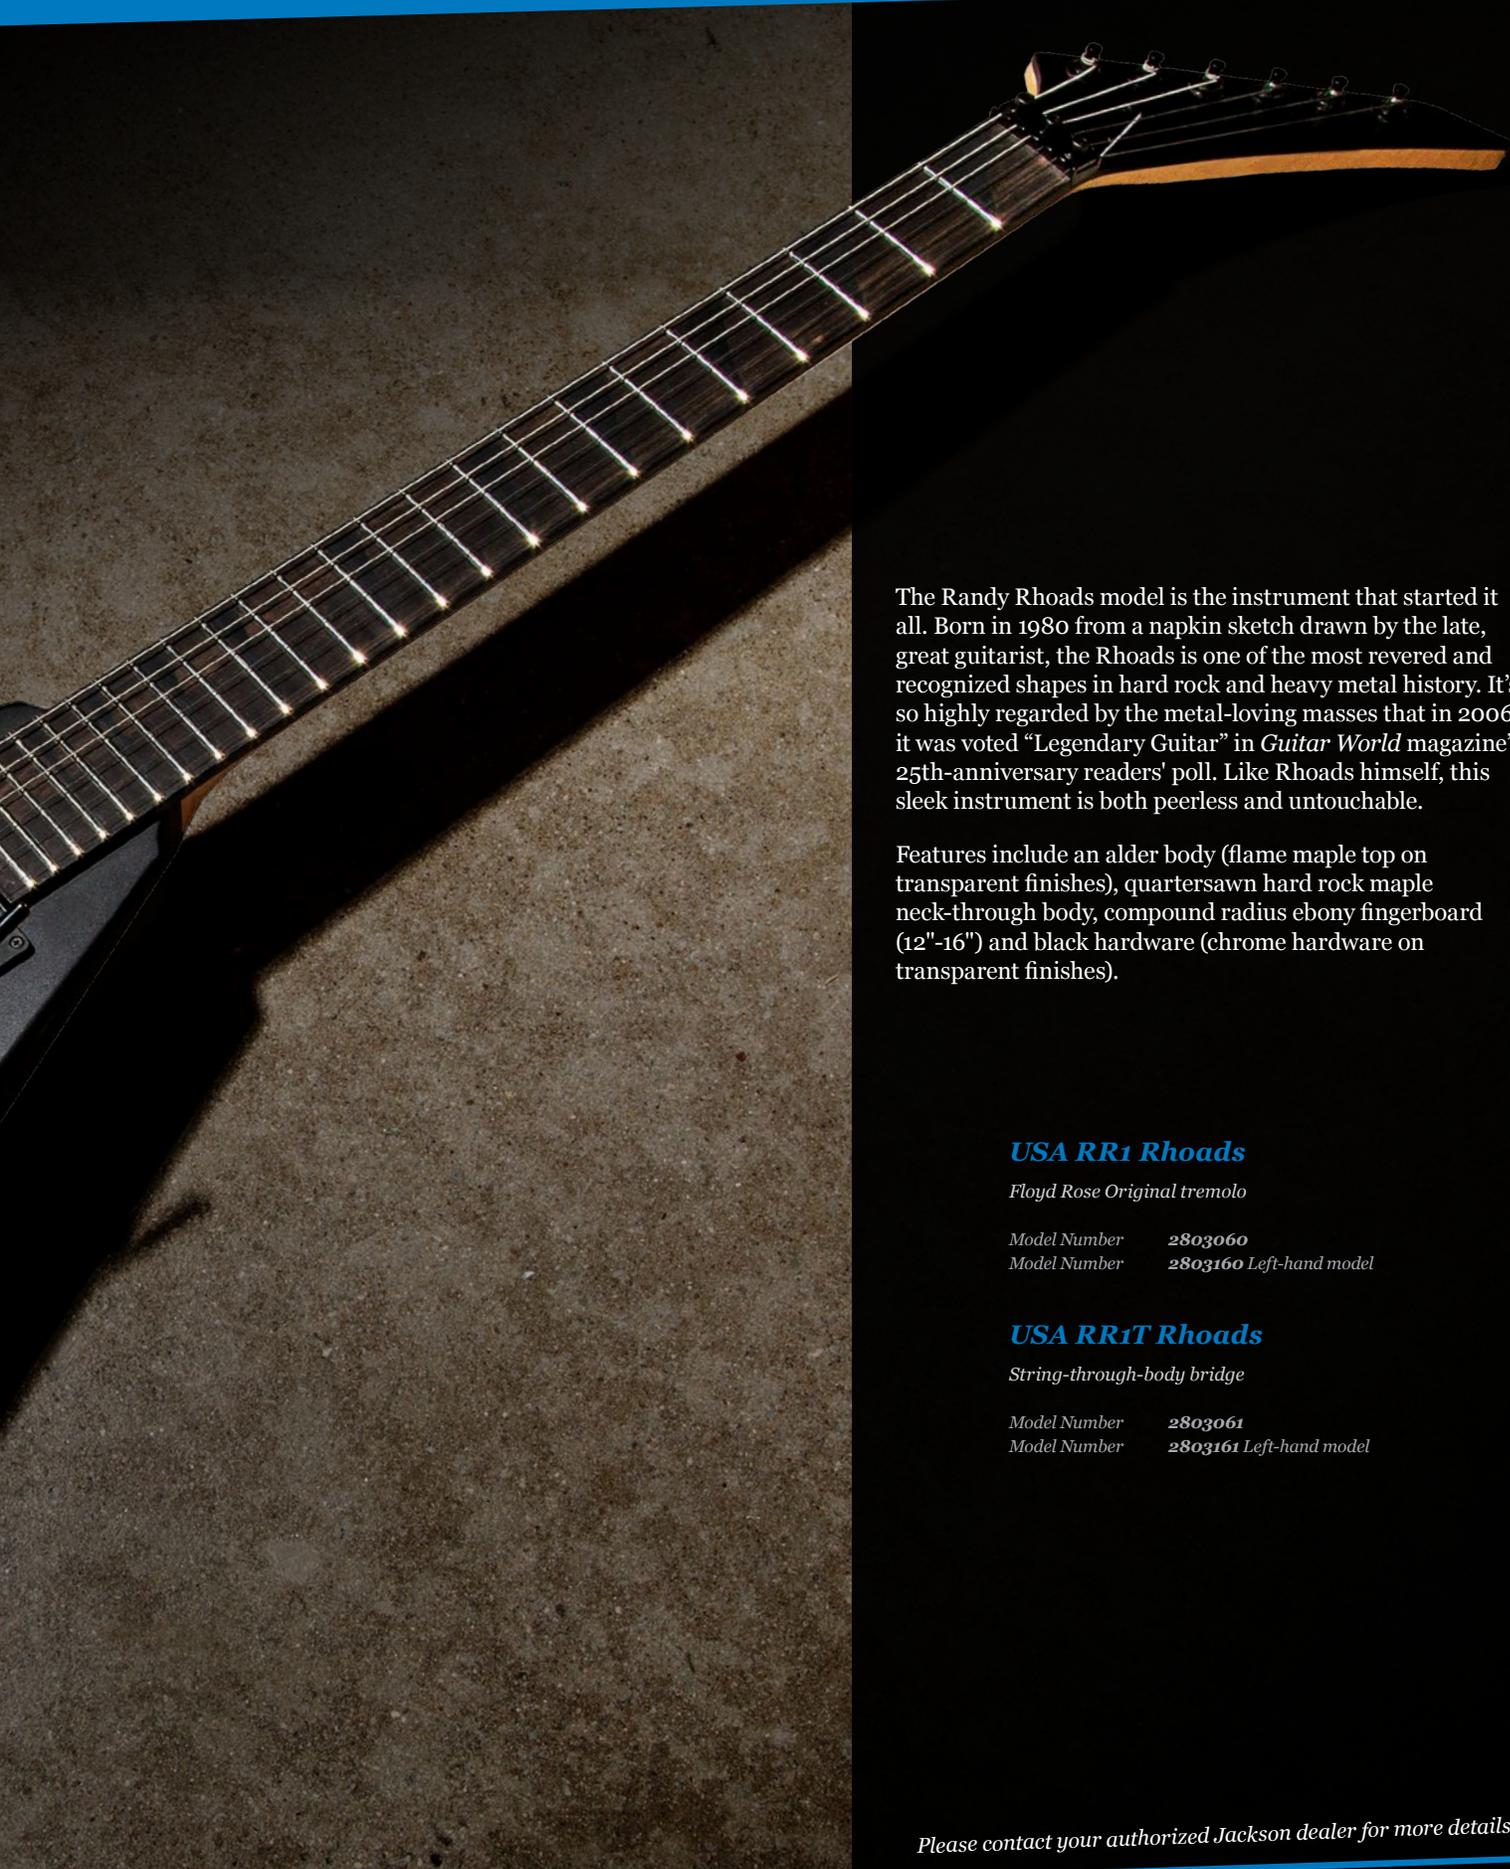

Please contact your authorized Jackson dealer for more details.

2848045000 JCS Rhoads RR24 - EMG, Satin Black

CUSTOM RHOADS SELECT

A TIMELESS CLASSIC THAT WILL
ALWAYS ENDURE AND INSPIRE

The Randy Rhoads model is the instrument that started it all. Born in 1980 from a napkin sketch drawn by the late, great guitarist, the Rhoads is one of the most revered and recognized shapes in hard rock and heavy metal history. It's so highly regarded by the metal-loving masses that in 2006 it was voted "Legendary Guitar" in *Guitar World* magazine's 25th-anniversary readers' poll. Like Rhoads himself, this sleek instrument is both peerless and untouchable.

Features include an alder body (flame maple top on transparent finishes), quartersawn hard rock maple neck-through body, compound radius ebony fingerboard (12"-16") and black hardware (chrome hardware on transparent finishes).

2849979000 Warrior WR1 - Quicksilver

CUSTOM WARRIOR™

THE WARRIOR ALWAYS
EMERGES VICTORIOUS

In late 1989 Jackson introduced an outlandish and brutal-looking body design—the aptly named Warrior. Created with a dark new breed of artist in mind, it was designed as a vicious new weapon with smartly savage styling. In fact, a close look at the X-shaped Warrior reveals the method behind the madness: Every angle resembles the distinctive Jackson headstock.

Features include an alder body (flame maple top on transparent finishes), quartersawn hard rock maple neck-through body, compound radius ebony fingerboard (12"-16"), Seymour Duncan humbucking pickups, Floyd Rose Original tremolo and black hardware (chrome hardware on transparent finishes).

USA WR1 Warrior

*Seymour Duncan pickups and Floyd Rose
Original tremolo*

Model Number 2803080

Please contact your authorized Jackson dealer for more details.

2849976000 King V - Reverse Headstock, Two Face

KING V™

ALL HAIL THE KING

CUSTOM FROM
SELECT

As metal exploded with fret-burning flamboyance in the mid-1980s, artists clamored for Jackson Rhoads-style personality and playability in a larger-bodied axe. Jackson's custom builders responded with a classic design, combining Rhoads high performance with a larger traditional V-shaped body. Thanks to head-turning looks and incredible playability, the regal King V reigns as a firm favorite in the Jackson line.

Features include an alder body (flame maple top on transparent finishes), compound radius ebony fingerboard (12"-16"), Seymour Duncan humbucking pickups, Floyd Rose Original tremolo and black hardware (chrome hardware on transparent finishes).

USA KV2 King V

Quartersawn hard rock maple through-body speed neck and Floyd Rose Original tremolo

Model Number 2803040

USA KV2T King V

Three-piece mahogany through-body speed neck, 24.75" scale and string-through-body bridge

Model Number 2803041

Please contact your authorized Jackson dealer for more details.

2811001412 Kelly - KE2, Pavo Purple

CUSTOM KELLY™ SELECT

FEARSOME JACKSON TONE
AND PLAYABILITY

Born to be played onstage and armed with an eye-catching shape and lightning-fast neck, the Kelly has been a popular Jackson staple ever since its 1983 introduction. When the U.K.'s prestigious *Guitarist* magazine published its special "Book of Metal" issue, it referred to the Kelly as, "one helluva guitar with a truly massive sound. Arguably the be-all and end-all of rock guitars. This has to be the coolest axe ever from one of the genre's most prolific names."

Features include an alder body (flame maple top on transparent finishes), quartersawn hard rock maple neck-through body, compound radius ebony fingerboard (12"-16"), Seymour Duncan humbucking pickups, Floyd Rose Original tremolo and black hardware (chrome hardware on transparent finishes).

USA KE2 Kelly

Model Number 2803030

Please contact your authorized Jackson dealer for more details.

2803010000 JCS DK, Natural

CUSTOM DINKY™

A LIGHTER BODY WITH
JACKSON'S TRADEMARK
HIGH-SPEED PLAYABILITY

In the early 1990s guitarists sought an instrument boasting Jackson speed and high performance, with a bolt-on neck similar to those made by the company's famous older sibling, Charvel®. Jackson designers responded by streamlining the acclaimed Soloist with a lighter, smaller body. The Dinky was an innovative breakthrough in a long line of Jackson firsts and an immediate success that has flourished ever since.

Features include an alder body (flame maple top on transparent finishes), bolt-on quartersawn hard rock maple neck, compound radius ebony fingerboard (12"-16"), EMG 81 and 85 humbucking pickups, Floyd Rose Original tremolo and black hardware (chrome hardware on transparent finishes).

USA DK1 Dinky

SIGNATURE

“Over the course of developing what was going to be my signature guitar, it had to be an instrument that I wanted to play. It had to be the one that I picked first out of a rack of guitars.”

— **MARK MORTON** LAMB OF GOD

“I have to have a guitar that can take nuances, whether they be aggressive or extremely tender and delicate, and to get that out of the same guitar is quite a challenge. That’s what we were shooting for and that’s what we got, and it looks totally badass at the same time.”

— **MARTY FRIEDMAN**

“Putting your name into any sort of product and working with legendary companies like Jackson, these are the craziest dreams that any kid could have.”

— **GUS G.** FIREWIND

“When I saw my first Jackson hanging on the wall of a music store back in the late 1980s, I thought ‘I want to play that instrument.’ I feel that same way now when I walk into the studio and on to the stage and I see my instruments lined up.”

— **DAVID ELLEFSON** MEGADETH

CHRISTIAN ANDREU

GOJIRA

French metal band Gojira blends thrash and progressive elements to create a groove metal sound like no other. Jackson collaborated with their acclaimed guitarist, Christian Andreu, to create his signature version of the classic Rhoads design. Tricked out for even more high performance and thunderous sound, this sleek instrument is packed with the Jackson DNA you love and is available in both USA and affordable X Series versions.

USA Signature Christian Andreu Rhoads RR

Mahogany body, one-piece through-body mahogany neck, 12"-16" compound radius ebony fingerboard, single 12th fret Gojira inlay, Custom Charvel MFB humbucking pickup, single volume control, Jackson adjustable string-through-body bridge and black hardware. Comes with hardshell case.

COREY BEAULIEU

TRIVIUM

Trivium carries the metalcore torch high, making their guitarist Cory Beaulieu a natural choice for a signature guitar. Teaming up with Jackson to modify the King V to meet his exact specifications, they created a guitar that sounds as vicious as it looks. Both the USA series and more economical X Series versions are packed with Jackson's bloodline—killer style, easy playability and monstrous sound.

PHIL COLLEN

DEF LEPPARD

As a longtime Jackson endorser (since 1986) and lead guitarist for one of the world's biggest-selling rock bands, Def Leppard's Phil Collen has deftly wrung numerous classic riffs from Jackson guitars. It's impossible to imagine the '80s and '90s rock charts—or Jackson history—without him. With exotic woods and a Jackson Sustainer/Driver system, Collen's PC1™ Dinky was one of the original Jackson signature instruments and remains a pivotal part of the line. New for 2017, Collen's revered USA signature models have been refreshed to match his latest tastes and specifications.

USA Signature Phil Collen PC1

Caramelized mahogany body, 1/8" quilt maple top (Satin Stain finishes only), bolt-on two-piece quartersawn caramelized flame maple neck, 12"-16" compound radius caramelized flame maple fingerboard, convenient heel-mounted truss rod adjustment wheel, licensed Fender® Stratocaster® headstock, DiMarzio pickups with Jackson Sustainer/Driver in HSS configuration, Floyd Rose Original tremolo and either black or satin gold hardware (Satin Stain finishes). Comes with hardshell case.

DAVE DAVIDSON

REVOCATION

Over the last decade, Boston-based act Revocation has firmly established itself as one of the finest in today's death metal genre. Much of that has to do with frontman Dave Davidson, who is heralded as one of modern metal's elite guitarists. Jackson continues its storied history of working with the best in the business by pairing Master Builder Mike Shannon with Davidson to create the only 7-string in the Warrior lineup.

USA Signature Special Edition Dave Davidson Warrior 7

PHIL DEMMEL

MACHINE HEAD

In the world of brutal, no-holds-barred metal, Machine Head is more than a band. Lead guitarist Phil Demmel, a Jackson friend and endorser since his late-1980s days with Vio-Lence, joined the group in 2003. Demmel appeared on the critically acclaimed 2007 release *The Blackening*, which took the metal world by storm, won numerous awards and earned Machine Head its first Grammy nomination. Demmel's signature King V models speak directly to his versatility as a metal guitarist, with a number of shred-friendly features.

DAVID ELLEFSON

MEGADETH

Bassist David Ellefson has reigned as a titan of thrash bass, garnering worldwide acclaim as a co-founding member of “Big Four” thrash innovator Megadeth and widely known for his fleet-fingered, hard-hitting style and versatility. Simply put, nobody shreds a bass like Ellefson, and Jackson is proud to have his name on several formidable bass models.

USA Signature David Ellefson Concert Bass CB

MARTY FRIEDMAN

One of the most influential and respected players in the world, Marty Friedman's impactful and game-changing contributions to heavy metal and guitar in general continue to inspire generations of musicians and music fans to this day. Jackson continues its longstanding relationship with Friedman by collaborating with the virtuoso on the all-new Marty Friedman MF-1, an instrument that can run the full musical spectrum — from the most blazing metal track to the sweetest and most sensitive melodic ballad.

USA Signature Marty Friedman MF-1

24.75" scale, mahogany body with 3/4" plain maple top, one-piece mahogany set-through neck with graphite reinforcement and scarf joint, bound 12" radius rosewood fingerboard with 22 medium wide jumbo frets and mother of pearl block inlays, Marty Friedman EMG MF signature humbucking pickups, two volume and two tone white speed controls, three-way toggle switch, TonePros adjustable Tune-O-Matic® Style bridge with Gotoh stop tailpiece and Schaller® locking tuners, reverse AT-1 headstock and black hardware. Comes with hardshell case.

GUS G.

FIREWIND

Gus G. has spent the past decade affirming his status as one of metal's reigning guitar virtuosos. Personally handpicked by Ozzy Osbourne in August 2009, he served as the heavy metal legend's lead guitarist through spring 2017, while also establishing himself as an acclaimed solo artist with more than a dozen studio albums to his credit. He's also managed to find time to perform worldwide with acts as diverse as Arch Enemy, Dream Evil and his own band, Firewind.

Jackson pays homage to the Greek Metal God with new signature Star models, offering an all-new take on one of Jackson's original avant-garde body shapes.

USA Signature Gus G. Star

Alder body, one-piece through-body quartersawn maple neck with scarf joint, 12" radius fully bound rosewood fingerboard with 24 custom jumbo frets and optional 12th fret Gus G. logo in mother of pearl, Seymour Duncan Gus G. Signature Blackouts, master volume control, three-way toggle switch, black hardware, TonePros adjustable Tune-O-Matic style bridge with Gotoh stop tailpiece, bone nut and Sperzel® locking tuners. Comes with hardshell case.

SCOTT IAN

ANTHRAX

In a career spanning four decades, veritable thrash godfather Scott Ian has pummeled audiences with his huge sound and formidable chops. Ian not only co-founded New York "Big Four" thrash institution Anthrax, but also helped create and define U.S. metal in the mid-1980s. Jackson honors the longtime Anthrax axe man with a distinctive King V signature model, available in a USA or X Series option.

USA Signature Scott Ian King V KVT

24.75" scale, mahogany body, through-body maple neck with graphite reinforcement and scarf joint, 12"-16" compound radius rosewood fingerboard with 22 jumbo frets and pearl block inlays, white pickguard, chrome hardware, ivoroid binding on the neck and headstock, Seymour Duncan JB SH-4 humbucking bridge pickup and '59 SH-1N humbucking neck pickup, and TonePros adjustable Tune-O-Matic style bridge with Gotoh stop tailpiece and Gotoh die-cast tuners. Comes with hardshell case.

2848237000 Ivory

X Series Signature Scott Ian King V KVXT

24.75" scale, mahogany body, through-body maple neck with graphite reinforcement and scarf joint, 12"-16" compound radius rosewood fingerboard with 24 jumbo frets and pearloid block inlays, white or mirror pickguard, chrome hardware, white binding on the neck and headstock, Duncan Designed humbucking pickups (HB-103), master volume and tone controls, three-way toggle switch and Jackson compensated and adjustable TOM-style bridge with anchored tailpiece and Jackson die-cast tuners

MISHA MANSOOR

PERIPHERY

Fingerboard speed demon Misha Mansoor has gained widespread acclaim as the mastermind behind the axe-centric progressive metal band Periphery. He's known to impress the most discerning of metal fans with his steadfast, fleet-fingered technique. And with their striking finishes, bolt-on necks for superb stability and super-dynamic pickups, his personally designed collection of instruments is sure to set any shredder's tone ablaze.

USA Signature Misha Mansoor Juggernaut Bulb

25.5" or 26.5" (7-string) scale, alder body with premium .785" quilt maple top (on transparent finishes), caramelized basswood bodies (for solid colors), bolt-on quartersawn maple neck with graphite reinforcement, heel-mounted truss rod adjustment wheel, 20" flat radius ebony fingerboard with 24 jumbo stainless steel frets, Luminlay side-dots, and mother-of-pearl piranha inlays with "P" inlay at the 12th fret, direct mount brushed nickel covered Bare Knuckle Juggernaut Misha Mansoor signature pickups with black hex pole pieces and Bulb logo, volume with push/pull tone control, Hipshot hardtail bridge, Hipshot open-gear locking tuners, Dunlop dual-locking Straplok® strap retainers, natural body binding and Jackson AT-1 headstock (reverse on HT7 models). Comes with hardshell case.

MARK MORTON

LAMB OF GOD

Lamb of God guitarist Mark Morton has led his million-album-selling, Grammy-nominated band to the forefront of U.S. metal. By combining explicit technique, angular off-kilter riffs and full-throttle sound, Morton continues to redefine the genre. He worked closely with Jackson on his signature model, creating it the original Jackson way—with pencil, paper and imagination. The result is the Mark Morton Dominion™—a uniquely shaped and versatile guitar for all types of music.

Pro Series Signature Mark Morton Dominion

24.75" scale, quartersawn mahogany through-body neck, bound and chambered mahogany body, compound radius (12"-16") bound ebony fingerboard with 22 medium jumbo frets and shark eye block inlays, DiMarzio Mark Morton signature pickups with dual-circuit design (lead and rhythm), two mini-toggle inside-coil selector switches (one for each pickup), dedicated coil tap for each pickup, three-way toggle switch, compensated bridge with stop tailpiece, Jackson locking tuning machines, distinctive three-on-a-side Mark Morton Dominion headstock and gold hardware

ADRIAN SMITH

IRON MAIDEN

Iron Maiden is one of the most successful and influential metal bands ever, thanks to the molten yet melodic guitar work of Adrian Smith. With timeless songwriting and thrilling live performances, Maiden continues to record, tour internationally and sell out stadiums everywhere with electricity. Jackson proudly honors Smith's metal prowess with two signature models: the U.S.-made Adrian Smith San Dimas® DK and the X Series Adrian Smith SDX.

USA Signature Adrian Smith San Dimas DK

25.5" scale, San Dimas-shaped alder body with pickguard, bolt-on quartersawn maple neck, maple or ebony compound radius (12"-16") fingerboard with jumbo frets, DiMarzio Super Distortion® bridge pickup and Fender Noiseless™ single-coil middle and neck pickups, black Jackson Gotoh tuners and black top-mounted Floyd Rose Original tremolo. MICK THOMSON

SLIPKNOT

Slipknot lead guitarist Mick Thomson is one of metal's most successful and revered players. His game changing, take-no-prisoners approach to metal guitar has influenced countless musicians worldwide, while his black hole-heavy de-tuned guitar sound has been an integral part of Slipknot for more than two decades. With over 16 million records/videos sold and an impressive stream of ongoing sold-out worldwide tours, the Grammy award-winning, multi-platinum band continues to be a dominant force in modern metal music.

Jackson pays tribute to Thomson with a sinister custom Soloist to match the guitarist's diabolical demeanor, capable of handling his acclaimed aggressive technique and tone.

USA Signature Limited Edition Mick Thomson Soloist

Genuine mahogany bound body, graphite reinforced through-body three-piece quartersawn maple/rosewood/maple neck, custom super-thin neck profile, 12"-16" compound radius ebony fingerboard with 24 frets, Seymour Duncan Mick Thomson EMTY Blackouts, single master volume control, three-way blade switch, fixed Floyd Rose bridge and locking nut with Gotoh tuners, uniquely angled side jack, Schaller strap locks and custom Anvil® case with Slipknot logo

PRO SERIES

ES

PRO LEVEL FEATURES WITHOUT THE PRO LEVEL PRICE TAG

The first thing you notice about the Jackson Pro Series, besides the striking aesthetics, is the feel—super-sleek necks and well-balanced classic designs with modern features, designed to deliver outstanding tone, light-speed playability and remarkably attainable value. Crafted with more than three decades of Jackson experience and expertise, Pro Series guitars feature volcanic pickups from Seymour Duncan and EMG, perfectly sculpted bolt-on or neck-through constructions with hand-rubbed oil finishes, and compound radius maple or ebony fingerboards. Each fingerboard curves more dramatically at the nut for easy chording and flattens out as it approaches the body for wicked fast runs and crazy-high bends.

Pro Series guitars also feature premium body woods and tops, graphite-reinforced flatsawn maple necks, jumbo frets, authentic Floyd Rose tremolo units or compensated TOM-style bridges for rock-solid stability and intonation. Grab a Jackson Pro Series instrument by the neck and let the show begin.

- NECK-THROUGH CONSTRUCTION
- WRAP-AROUND HEEL BOLT-ON DESIGNS
- COMPOUND RADIUS FINGERBOARDS

- ORIGINAL FLOYD ROSE TREMOLOS
- JACKSON HIGH MASS HARTAIL BRIDGES
- STRING-THROUGH-BODY BRIDGES

- SEYMOUR DUNCAN PICKUPS
- EMG PICKUPS

- SHARKFIN, SHARK EYE BLOCK, OFFSET DOT AND PIRANHA INLAYS
- CLASSIC JACKSON TUNING MACHINES

PRO SERIES MONARKH

X SERIES

JACKSON X SERIES GUITARS ARE LOADED WITH PURE JACKSON DNA.

Think classic Jackson designs, outstanding tone, ultra-fast playability and highly affordable value for 21st-century guitarists. Built with the very latest in Jackson expertise and innovation, X Series models feature hot humbucking pickups that deliver well-balanced tone with tight bass, glassy mids and crunchy highs. Their bound compound radius rosewood and maple fingerboards curve more dramatically at the nut for easy chording and flatten out approaching the neck joint for low-action bends without fretting out.

X Series models also feature distinctive sharkfin or piranha inlays, tremolo or hardtail bridges and a fantastic selection of striking finishes. More than the sum of their parts, these guitars are imbued with an “X” factor that makes them perfect modern shred machines for a whole new generation of fleet-fingered players.

ALL-NEW X SERIES TELLY

New for 2017, Jackson introduces a Telly model – featuring Jackson’s alternative take on a classic single-cut body shape. Preferred by many players for its traditional style, comfortable balance and fit, Jackson and Charvel master builders first began tinkering with this highly-requested design back in the mid-1980s. After more than three decades as a Custom Shop offering, the Telly has now made its way into Jackson’s mainstream lineup in 7-string form with the X Series Telly TY2-7 HT.

This 7-string guitar features a 25.5" scale, basswood body, one-piece through-body maple neck with painted back finish, graphite reinforcement and scarf joint, 12"-16" compound radius bound maple fingerboard with 24 jumbo frets and black sharkfin inlays, Jackson high-output 7-string humbucking pickups with three-way blade switching and master volume and tone dome-knob controls, Jackson HT7 string-through-body hardtail bridge and black hardware.

X SERIES SOLOIST

Distinctive and affordable, Jackson's X Series Soloist models are built for speed! Jackson's venerable double cutaway workhorse offers features such as basswood bodies, through-body maple necks, Duncan Designed humbucking pickups, and either Floyd Rose Special trem units or Jackson compensated and adjustable string-through-body TOM-style bridges. Their bound compound radius rosewood fingerboards curve more dramatically at the nut for easy chording and flatten out farther up the neck for low-action bends without fretting out.

X SERIES SOLOIST ARCH TOP MULTI-SCALE

Shred in ergonomic comfort and style with the X Series Soloist Arch Top SLAT7 and SLAT8 MS instruments. A high-performance evolution of the electric guitar, these multi-scale models unlock the possibilities of an instrument by accommodating two scale lengths on one fingerboard, thus improving overall playing comfort, tension and intonation.

Both models feature a basswood body with arched top, one-piece maple neck with graphite reinforcement and scarf joint for maximum neck stability, 12"-16" compound radius rosewood fingerboard with 24 jumbo frets, single-ply neck binding, modern EMG humbucking pickups with master volume, master tone and three-way toggle switching, Jackson designed individual bridge saddles that are staggered to accommodate the two scale lengths, Jackson AT1 headstock and Jackson die-cast tuners.
