

Smarter, better, further, brighter

The background features a dark blue field with a grid of lighter blue lines that recede into the distance, creating a sense of depth and perspective. The lines are arranged in a way that suggests a three-dimensional space, with the grid pattern becoming more pronounced as it moves away from the viewer.

A world of **perpetual** motion.

The world of technology
is constantly evolving.

For businesses and individuals, keeping up with the rate of change is a never-ending and challenging task. We're here to help you meet that challenge head on.

From first-time students to career-changers, upskillers to promotion-seekers, support techs to CTOs, we equip you with the knowledge and skills you need to flourish in a future where technology rules.

We use our decades of training expertise, deep industry knowledge and unrivalled connections to propel you and your business forward. To go further, faster. To **accelerate change**.

For more than three decades, we've been helping people master technological change.

As DDLS, we've upskilled thousands of teams and businesses, partnering with the world's top tech vendors to become Australasia's undisputed leaders in IT training.

Now, under the banner of our new brand, Lumify, we're building on that legacy. Through our three core brands - Lumify Learn, Lumify Work and Lumify People - we're able to deliver on the full spectrum of IT training. So no matter what your skillset, where you are in the world, or how you prefer to learn, we can make it happen.

LUMIFY
learn

Hyper-relevant, accredited IT qualifications, globally-recognised certifications and vendor-certified bootcamps for individuals, delivered 100% online.

Vendor-endorsed courses, world leading content

We're the best IT training provider in Australasia - and we've got the vendor relationships to prove it.

As the preferred training partner of the world's leading technology vendors, we're able to create best-in-class, vendor-authorised learning experiences for our students and customers across a vast and ever-growing range of topics and courses.

Connected expertise

Our vendor connections are built on trust, years of partnership and an industry-wide reputation for being the best at what we do. It's how we've come to represent the most comprehensive range of vendors in Australasia. And it's why we've been awarded partner of the year status time and again by the likes of Microsoft, VMware and Cisco.

Partnered with the world's leading vendors

A person is shown from the side, using a magnifying glass to inspect a fingerprint on a device screen. The screen displays lines of code, including 'ae-ed', 'lang', and 'lib'. The background is dark with colorful bokeh lights.

Train for the unknown

Some resist change.
Others accept it as the
price of progress. Us?
We embrace it.

Helping your business turn change into opportunity is what we're all about. That's why we design courses that are pragmatic and real-world ready, equipping workforces with the mission-critical tech skills to transform teams, supercharge careers and future-proof businesses.

From cyber security to cloud computing, AI to agile, our industry-accredited trainers deliver cutting-edge, vendor-certified content to over 20,000 students online, in classrooms and in workplaces, every year.

Learn with the experts

To be the best, you need
to train with the best.

That's why all of our courses are delivered by award-winning, industry-accredited instructors with extensive product knowledge and real-world experience.

Leaders in their respective fields and with an average student rating of 4.8/5, our trainers will inspire your team to learn, thrive, and grow. But don't just take our word for it. Here's what some of our students have to say.

“The instructor was brilliant, bringing a dry subject to life, providing plenty of practical, real-world context to obscure topics and throwing some entertainment in for good measure.”

★★★★★

Charlene Winfred
Enterprise Office Solutions
Bankwest

“The instructor knew her material and was engaging and patient with the different skill levels of the class. I recommend this course and cannot speak highly enough of the instructor.”

★★★★★

Chris Daly
Operations Business Analyst

**Training
solutions
designed
by us,
adapted
by you**

Nothing stands still in the world of tech, and nor do we.

We're constantly evolving the way we deliver our learning, changing things up to suit the way you do business. Our model is flexible, customisable and designed to help you overcome the barriers to training - so however and wherever you want to train your team, you'll find course options to match.

Choose to learn online or at a state-of-the-art Lumify campus. Opt for live instructor-led training or pick a time that suits you. Go hard and fast with an intensive short course or take a self-paced approach.

Extend your knowledge with Lumify Plus

Your team can even extend their skills post-class with Lumify Plus, our online learning platform. Free with over 40 of our most popular courses and packed with learning resources like study guides, courseware, quizzes, assessments, and more, Lumify Plus is designed to encourage a culture of continuous learning and growth among your people.

In-classroom, instructor-led training

Face-to-face sessions with hands-on instruction from industry experts, delivered in person at one of our 10 state-of-the-art Lumify campuses.

Virtual instructor-led training

Participate in a live Lumify training session from anywhere in the world. Connect to our virtual classroom from home, your boardroom, or your nearest Lumify campus.

Hybrid training

A combination of hands-on, instructor-led sessions and online self-paced training.

Online, self-paced learning

Self-directed, 100% online courses where you choose when and where you study.

Complex requirements need custom solutions

We get that learning isn't one-size-fits-all.

That's why, in addition to our 600+ instructor-led courses, we provide custom-designed, end-to-end learning services and solutions.

From helping you identify your unique learning and development needs to designing and implementing a solution, we can help you meet specific learning outcomes, instil a culture of continuous improvement, and measure your return on investment.

Choose training to be delivered in your workplace, online, at a Lumify campus - or a mix of all three.

Express Learning

Reduce training time by providing just the specific knowledge your team needs.

Bespoke Technology

Custom training modules, documentation, and training delivery, designed specifically for your organisation.

Digital Academy

Customised training delivered within your own online learning portal, with skills pathways developed in partnership with your business.

E-learning Tools

Custom creation of digital learning tools - from online training modules to live webinars and video training.

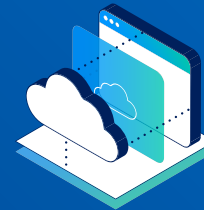

More courses, more often. Guaranteed.

With 600+ courses across 12 categories, our public ICT training schedule is the largest in Australasia.

With an emphasis on in-demand training areas and cutting-edge, vendor-certified content, we guarantee our courses will always run as scheduled.

Learn today. Lead tomorrow.

In a world where IT skills are in high demand but short supply, we make it possible for anyone, anywhere, to unlock their potential and pursue a career in IT.

Delivered 100% online by real-world experts, our range of globally recognised, vendor-certified bootcamps and accredited qualifications is aimed at individuals who want to shape their own learning journeys - and get supported throughout the process.

Accredited courses

Designed to create job-ready candidates with nationally recognised qualifications, practical experience and technical skills. Courses vary from 12 to 18 months and cover a range of diplomas and certificates in:

- » Information Technology
- » Cyber Security
- » IT Networking
- » Front-End Web Design
- » Systems Administration Support
- » Web Development
- » Back-End Web Development
- » Advanced IT Networking

We help students kickstart their careers and boost their earning power.

Mentorship and career coaching

Lumify Edge is our dedicated student support program, designed to give industry newcomers a head start by connecting them with mentors, career advice, and prospective employers.

Vendor-certified bootcamps

Designed to help students earn internationally recognised vendor certifications and in-demand skills. Courses range from 5 weeks to 6 months.

- » Certified Data Analytics Professional
- » Microsoft Azure Data Fundamentals
- » Cloud Computing Certified Professional
- » Certified Full Stack Developer
- » Certified Cyber Security Professional
- » Certified Data Science Professional
- » Growth Marketing Professional
- » Certified Artificial Intelligence Professional
- » Certified Project Management Professional

Change starts within

We help organisations keep pace with the rate of change by providing specialist advice, training, and support from the ground up.

Experienced in delivering multi-year, multimillion-dollar tech initiatives, our strategic advisory team works with you to understand your business' unique challenges and build organisational capacity - whether that's by providing people on the ground, delivering tailored learning solutions, or embedding specialists within your teams.

Lumify People is built on the foundations of a 20-year partnership with the Australian Department of Defence. Since 2005, we've been delivering logistics systems training and learning services to Navy, Army, RAAF, APS and contractor staff Australia-wide. Through our appointment to the Defence Support Services Panel, we provide a range of services that span logistics, program and project management, strategic management consultancy, and learning and development skill sets.

Learning & development

Fully customised, end-to-end learning and development solutions to upskill workforces and plug critical skills gaps. Delivered in workplaces, classrooms, online, or a mix of all three.

Portfolio & project management

Support, guidance, and advisory services to provide the experience, advice, and tools to deliver business outcomes. Embed members of our team into your business to coach and upskill your teams or bridge short-term resource gaps.

Strategic & management consulting

Expert business analysis and strategic business advice to help you deliver better business outcomes and top-level organisational support to help you overcome challenges.

Logistics & supply chain

Advisory services across the full suite of supply chain strategy, management, planning, analysis, performance, optimisation, assurance, and reporting.

nexacu
Powered by Lumify

Experts in Microsoft

Through Nexacu, we deliver quality, instructor-led Microsoft app training for end users across APAC. Our dedicated researchers and in-house course writers continually develop new skills-based training content to give your team a productivity advantage.

Public courses

One-day Microsoft training courses, delivered live online across South East Asia.

Corporate training

Customised content and training to meet your unique requirements.

Micro-credentials

Instructor-led courses, support, practice tests, capstone projects, and official exams that provide a pathway to certification.

A track record in business transformation

From ASX-listed companies federal departments and government enterprises, we're the learning solutions partner of choice for business transformation.

With a portfolio that spans government, healthcare, finance, banking, telecommunications and insurance, we're able to implement large-scale learning solutions across thousands of seats in multiple locations.
