Booth #15500

## WHAT'S **NEW** FOR 2025?

Genelec's UNIO Ecosystem gives audio engineers the ability to seamlessly navigate different monitoring options, for the flexibility to work anywhere, anytime – from stereo to immersive.

# Introducing Personal Reference Monitoring

Now, with UNIO Personal Reference Monitoring (PRM), audio professionals benefit from the pinpoint accuracy of our pioneering active monitoring headphone solution.

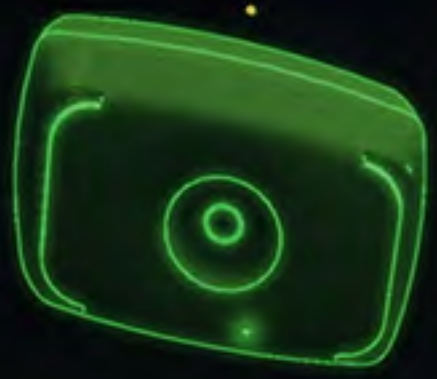

Package contains:

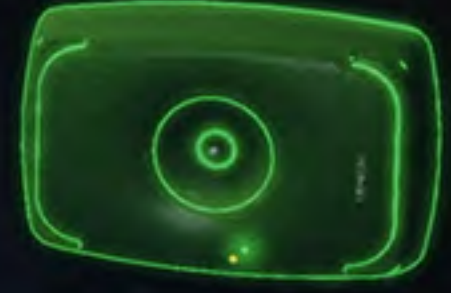

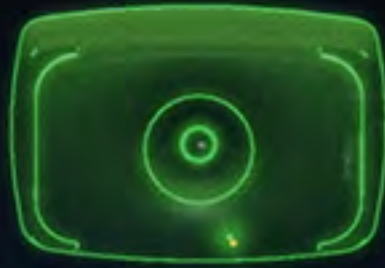

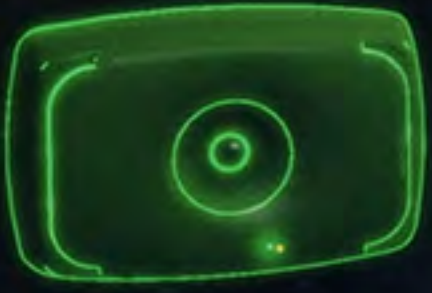

- 9320A SAM™ Reference Controller.
- Factory-calibrated Reference Microphone for GLM and microphone holder.
- USB type-C to type-C cable with type-A adapter
- Hard textile-surface carry case for 9320A.
- 8550A Professional Reference Headphones.
- Straight braided-surface headphone cable and coiled extending headphone cable
- Alternative ear cushioning pad pair with textile surface.
- Alternative headband lower part with textile surface.
- Hard textile-surface carry case for 8550A and alternative soft draw-string carry pouch.

# Aural ID 2

**Sound is universal. The way we experience it – deeply personal.**

With Aural ID, you can replicate the layout of your in-room loudspeaker monitoring system in your headphones, to create a much more consistent translation between headphones and monitors.
