

# Company Profile

---

## **Alberto Garcia** – Chief Technology Officer

---

Alberto oversees StandardVision's manufacturing and integration project activities from prototyping to delivery to installation.

Alberto began his career at the Sundance Institute & Film Festival, rising from Associate Programmer to Technical Coordinator to the prestigious role of Director of Competition. He served as Series Producer for the critically-acclaimed ITVS Television Families series and has worked in independent film production as a Post-Production Supervisor. Alberto's wide interests and talents also led him to the world of fine wine, where he was Manager of Logistical & Information Systems for The Grateful Palate in the U.S. and General Manager & Chief Strategic Officer for R Wines and Marquis-Philips Wines in Australia. Immediately prior to joining StandardVision, Alberto worked as Project Director for the Visioneering Design Company, where he designed and installed cutting-edge AV entertainment systems for Dreamworks Animation, Jeffrey Katzenberg, James Cameron, Lightstorm Entertainment, Marvel Entertainment and Cinco de Mayo studios.
