Step by step...

1. Download the correct dielines.

You can find the box dielines on the [noissue Custom Food Paper Bag Page](#). Choose the size you wish to order, then download the dielines to start designing.

2. Start designing!

You may now start designing your noissue paper shopping bag! Use the [Print Perfect Checklist](#) as a guide to get the best print results.

3. Once done, send your artwork over to your noissue Account Manager

Send us your design in a PDF file. Fill in the necessary fields: color, size, quantity and eco-badge.

4. We'll be right back to you!

We want to make sure you're happy so before we print anything, we'll send you a visual of your custom design to sign off.

Print Perfect Checklist

- Add your custom artwork to **your design here layer**.
- To ensure the texts will come out legible. We recommend using **1.5mm for the text height**.
- Thickness of lines, strokes and gaps should be **no less than 0.2mm**.
- For best results, your design should be in **vector format**, if an image will be used, it should be **no less than 300 DPI**.
- For designs near the edge, please leave a **10mm space** from the edge to ensure it will not move to the other side of the bag.
- In order to ensure your bag prints correctly, we require **that design should be converted to vector and all fonts converted to outlines**.

→ Please export as a '**CMYK**' PDF. No crop marks needed.
