Custom Card

Size
127mm x 178mm (5" x 7")

Color
CMYK

Sustainability
Compostable, Recyclable, Recycled, 100% FSC Certified, Soy–based and Water–based Inks

Print perfect checklist

○ Add your design to the template available on the next page.

Bleed Area
Make sure to extend your background to fill the bleed area to avoid a white border. We require **10mm** of bleed all around.

Trim Line
This is a guide where the design will be trimmed.

Safe Area
Keep important text or graphic elements within the safe area which is **3mm** from the trim line. This is to prevent it from being cut off, or from being too close to the edge, which does not look nice.

○ Double–sided printing is an option – you can create a different design on each side at no additional cost.

○ We recommend using **8pt font size** (1.5mm height) or larger.

○ Thickness of lines, strokes and gaps should be no less than **0.2mm.**

○ All colors should be converted to **CMYK.**

○ For best results, your design should be in **vector** format, but if an image will be used, it should be no less than **300 DPI.**

○ In order to ensure your custom card prints correctly, we require that **all fonts be converted to outlines.**

○ For optimal scanning, ensure **QR codes have high contrast** and measure **20x20mm or above.** Do not scale the QR code below a **minimum of 16x16mm.**

1 Download dieline
Ensure you have downloaded the correct sized dieline. Dielines can be found on the **noissue website.**
2 Complete your design
Use the Print Perfect Checklist as a guide to get the best print results. Export as **CMYK PDF.** No crop marks needed.

3 Upload artwork and order, or share with your Account Manager
Complete your order, upload your artwork and checkout. To guarantee print satisfaction, we'll review your file and send you a final proof to approve before going to print.
