

Size
152mm x 229mm x 76mm
(8oz/250g)

Color
CMYK or Pantone

Sustainability
This pouch is recyclable – no need to remove zipper.,
Recyclable Material: BOPE25 / PE95,
FDA-approved ink

Print perfect checklist

- ☐ Add your design to the template available on the next page.
- ☐ We recommend using **1.5mm (6pt) font size** or larger.
- ☐ Lines and stroke thickness should be no less than **0.2mm (0.5pt)**.
1pt is recommended if reversed.
- ☐ For best results, your design should be saved in **vector** format,
but if an image will be used, it should be no less than **300 DPI**.
- ☐ The artwork file must be set up to **CMYK color mode**.
Our pre-press designers will convert the file to CMYK if it was set in RGB.
- ☐ We recommend to use barcodes with black bars and a white background
to ensure scan-ability. If a different color combination was used,
we advise to test the barcode with several types of scanners first.
- ☐ In order to ensure your coffee bag or pouch prints correctly, we require
that **all fonts be converted to outlines**.
- ☐ For optimal scanning, ensure **QR codes have high contrast** and measure
20x20mm or above. Do not scale the QR code below a **minimum of 16x16mm**.

1

Download dieline
Ensure you have downloaded the correct sized dieline.
Dielines can be found on the **noissue website**.

2

Complete your design
Use the Print Perfect Checklist as a guide to get the best
print results. Export as **CMYK PDF**. No crop marks needed.

3

**Upload artwork and order, or share with
your Account Manager**
Complete your order, upload your artwork and checkout.
To guarantee print satisfaction, we'll review your file and
send you a final proof to approve before going to print.

Stand Up Pouch

Size:

W: 89 mm
H: 239 mm
D: 71 mm

Finish:

Glossy
 Matte

Base Material:

Compostable
Product is opaque and does not allow light to pass through it. As a result, visibility of contents inside cannot be seen.

Recyclable
Product is naturally semi-transparent and will transmit light, but imperfectly. Depending on a dark or light color choice, material may exhibit varying degrees of translucency, perfect detail of contents will be obscured.

Compounded (non-recyclable)
Product is made with mylar film with pure aluminum or aluminum coating. It will remove any translucency and the product will be opaque. However, this will affect its recyclable credentials.
