MATERIAL
Organic Canvas (Natural cream)

Color
1 Pantone Color

Sustainability
Reusable (Organic) / Reusable & Recycled (Recycled Totes),
Global Organic Textile Standard (GOTS)

Print perfect checklist

- Add your design to the template available on the next page. We can do **edge-to-edge design** for both front and back side so you can extend your design until the edge of the artboard.

However, if the design is not edge-to-edge, please apply the safe area below:
10mm safe area on left and right, and **2mm** on bottom.

The tote bag has a **2cm** fold with stitch at the top. Designs can go below the stitch to ensure it won't run across the stitching.

- Designs are **not allowed** on the Flat Bottom Area.
- We recommend using **12pt font size** (1cm height) or larger.
- Lines and stroke thickness should be no less than **1mm**.
Gaps between lines or dots should be at least **1.5mm – 2mm**.
- We can only print **1 color** using **Coated or Uncoated Pantone**. We can help you convert your color to the closest pantone color. White ink is not allowed.
- Colors should be solid **100% opacity**, no gradient or tints.
- In order to ensure your custom tote bag prints correctly, we require that design should be converted to **vector**.
- We also require that **all fonts be converted to outlines**.
- For optimal scanning, ensure **QR codes have high contrast** and measure **20x20mm or above**. Do not scale the QR code below a **minimum of 16x16mm**.
- 1

Download dieline
Ensure you have downloaded the correct sized dieline. Dielines can be found on the **noissue website**.

2

Complete your design
Use the Print Perfect Checklist as a guide to get the best print results. Export as **CMYK PDF**. No crop marks needed.

3

Upload artwork and order
Complete your order, upload your artwork and checkout. To guarantee print satisfaction, we'll review your file and send you a final proof to approve before going to print.
- ## Connect your packaging
