CMYK or Pantone

Sustainability
FDA–Compliant, FSC–certified
Recyclable or Compostable

Print perfect checklist

○ Add your design to the template available on the next page.

○ We recommend using **6pt font size (0.8mm height)** or larger.

○ Lines and stroke thickness should be no less than **0.2mm (0.5pt)**. **1pt** is recommended if reversed.

○ For best results, your design should be saved in **vector** format, but if an image will be used, it should be no less than **300 DPI**.

○ The artwork file must be set up with Pantone or CMYK colors. Our pre–press designers will convert the file to CMYK if it was set in RGB.

○ In order to ensure your coffee cups correctly, we require that all fonts **has to be converted to outlines.**

○ For designs with texts, we recommend to place the text layout following the curve of the dieline. This ensures the texts will appear straight.

Lorem ipsum dolor sit amet, consectetuer adipiscing

Lorem ipsum dolor sit amet, consectetuer adipiscing

The texts will appear distorted when assembled.

The texts will appear more upright because it follows the curve.

1 **Download dieline**
Ensure you have downloaded the correct sized dieline. Dielines can be found on the **noissue website.**

2 **Complete your design**
Use the Print Perfect Checklist as a guide to get the best print results. Export as **CMYK PDF.** No crop marks needed.

3 **Upload artwork and order, or share with your Account Manager**
Complete your order, upload your artwork and checkout. To guarantee print satisfaction, we'll review your file and send you a final proof to approve before going to print.
