Print perfect checklist

- ☐ Add your design to the template available on the next page. We **can't print edge-to-edge** design for both front and back side of the mailer. Except for the background color, any design elements placed outside the safe area will get cropped.
- ☐ We recommend using **9pt font size** (1.5mm height) or larger.
- ☐ Thickness of lines, strokes and gaps should be no less than **0.25mm**.
- ☐ We can print up to 4 Pantone (Coated or Uncoated) colors.
- ☐ Colors should be solid 100% opacity, no gradient or tints.
- ☐ For best results, your logo or design should be in **vector** format.
- ☐ In order to ensure your custom poly mailer prints correctly, we require that **all fonts be converted to outlines**.
- ☐ For optimal scanning, ensure **QR codes have high contrast** and measure **20x20mm or above**. Do not scale the QR code below a **minimum of 16x16mm**.
