

 **Size**
250mm x 300mm (10" x 12")

 **Paper Type**
 Kraft or White

 **Color**
1-2 Pantone color (white not counted)
1 Pantone (Full Background)

 **Sustainability**
Compostable, FDA-Approved,
FSC Certified, Water-based Inks

Print perfect checklist

- Add your design to the template available on the next page.

- Bleed Area**
Make sure to extend your background to fill the bleed area to avoid a white border. We require **1cm** of bleed all around.
- Trim Line**
This is a guide where the design will be trimmed.
- Safe Area**
Keep important text or graphic elements within the safe area which is **6mm** from the trim line. This is to prevent it from being cut off, or from being too close to the edge, which does not look nice.

- We recommend using **12pt font size** (2mm height) or larger.
- Thickness of lines, strokes and gaps should be no less than **0.3mm**.
- All colors should be converted to **1 or 2 Pantone colors** only. Choose from the **Pantone Solid Coated or Uncoated** swatch libraries.
- Metallic and Neon Pantone colors are not allowed.
- Colored design may appear differently on kraft due to them being printed on a brown kraft paper. We recommend using **black** or **white** when choosing kraft paper.
- We **do not recommend Pastel or light colored** design elements. Ink might blend in with the translucent tissue paper and look subtle on print.
- Colors should have **100% opacity**, no gradient or tints.
- For best results, your design should be in **vector** format, but if an image will be used, it should be no less than **300 DPI**.
- In order to ensure your custom tissue prints correctly, we require that **all fonts be converted to outlines**.
- For optimal scanning, ensure **QR codes have high contrast** and measure **20x20mm or above**. Do not scale the QR code below a **minimum of 16x16mm**.

- 1 Download dieline**
Ensure you have downloaded the correct sized dieline. Dielines can be found on the **noissue website**.
- 2 Complete your design**
Use the Print Perfect Checklist as a guide to get the best print results. Export as **CMYK PDF**. No crop marks needed.
- 3 Upload artwork and order**
Complete your order, upload your artwork and checkout. To guarantee print satisfaction, we'll review your file and send you a final proof to approve before going to print.
