Print perfect checklist

- ☐ Add your custom artwork to **your design here layer**.
- ☐ We recommend using **1.5mm** text height or larger.
- ☐ Thickness of lines, strokes and gaps should be **no less than 0.2mm**.
- ☐ All CMYK Colors will be converted to Pantone Colors. Please note that we can only print up to **4 Pantone colors** only.
- ☐ Neon Pantones and Gold Foiling are **not allowed**.
- ☐ Please be advised that edge-to-edge designs and seamless printing is not available.
- ☐ For best results, your logo or design should be in **vector format**.
- ☐ In order to ensure your custom cold cup prints correctly, we require that **all fonts be converted to outlines**.
- ☐ For optimal scanning, ensure **QR codes have high contrast** and measure **20x20mm or above**. Do not scale the QR code below a **minimum of 16x16mm**.

1

Download dieline
Ensure you have downloaded the correct sized dieline. Dielines can be found on the **noissue website**.

2

Complete your design
Use the Print Perfect Checklist as a guide to get the best print results. Export as **CMYK PDF**. No crop marks needed.

3

Upload artwork and order
Complete your order, upload your artwork and checkout. To guarantee print satisfaction, we'll review your file and send you a final proof to approve before going to print.
