Kraft or White

PRINT COLOR
CMYK or Pantone

Step by step...

-  **1. Download the correct dielines.**
You can find the box dielines on the [noissue Custom Coffee Cup Sleeve Page](#). Choose the size you wish to order, then download the dielines to start designing.
-  **2. Start designing!**
You may now start designing your noissue coffee cup! Use this [Print Perfect Checklist](#) as a guide to get the best print results.
-  **3. Once done, send your artwork over to your noissue Account Manager.**
Upload your file as a finished artwork. Fill in the necessary fields: size, print option, quantity, and badge.
-  **4. We will get back to you!**
We want to make sure you're happy so before we print anything, we'll send you a proof of your custom design to sign off.

Print Perfect Checklist

- Add your custom artwork to your design here layer.
- We recommend using **6pt font size** (0.8mm height) or larger.
- Thickness of lines, strokes and gaps should be no less than **0.2mm**.
- For designs with lots of texts, we recommend to place the the text layout **following the curve of the dieline**. This ensures the texts will appear straight.

Lorem ipsum dolor
sit amet, consec-
tetuer adipiscing

The texts will appear distorted
when assembled.

Lorem ipsum dolor
sit amet, consec-
tetuer adipiscing

The texts will appear more upright
because it follows the curve.

- For best results, your design should be in **vector** format, but if an image will be used, it should be no less than **300 DPI**.
- In order to ensure your bag prints correctly, we require that design should be converted to vector and all fonts converted to outlines.
- Please export as a '**CMYK**' PDF. No crop marks needed.
