Print perfect checklist

- ◯ Add your custom artwork to **your design here layer.**
- ◯ In order to ensure your custom packaging cuts correctly, it is very important that the unique structural dieline we send you is included as part of the print file. Please **do not delete, rotate or change the colors** of the structural dieline.
- ◯ We recommend using **10 pt font size** or larger.
- ◯ Single logo or design should also be **0.125 in** away from the trim lines.
- ◯ Lines and stroke weight should be no less than **.5pt** and **1pt** if reversed out.
- ◯ All artwork should be converted to **CMYK.**
- ◯ An alternative method to replicate the look of white ink on a kraft that you may consider is to purchase a white box instead and **simulate the Kraft material** by placing an image of Kraft material as a background image.
- ◯ If your art includes black, we recommend it's built as a rich black with **30 cyan (C), 30 magenta (M), 30 yellow (Y), and 100 black (K).** For best results, include a .5pt stroke of 100% black (K) to avoid print overspray.
- ◯ For best results, all artwork should be vectored and image resolution should be **no less than 300 dpi.**
- ◯ In order to ensure your custom wine carrier prints correctly, we require that **all fonts be converted to outlines.**
- ◯ **Extend your design until the green lines** in the dielines. This serves as a bleed area to allow for inconsistencies during printing.
- ◯ For optimal scanning, ensure **QR codes have high contrast** and measure **20x20mm or above.** Do not scale the QR code below a **minimum of 16x16mm.**

1 Download dieline
Ensure you have downloaded the correct sized dieline. Dielines can be found on the **noissue website.**

2 Complete your design
Use the Print Perfect Checklist as a guide to get the best print results. Export as **CMYK PDF.** No crop marks needed.

3 Upload artwork and order, or share with your Account Manager
Complete your order, upload your artwork and checkout. To guarantee print satisfaction, we'll review your file and send you a final proof to approve before going to print.
