Recyclable, Reusable

## Print perfect checklist

- ☐ Add your design to the template available on the **next page**. We **can't print** edge-to-edge design for both front and back side of the mailer.
- ☐ We recommend using **9pt font size (1.5mm)** or larger for the text height.  
For reference, they should have a similar size to this text.
- ☐ Lines and stroke thickness should be no less than **0.2mm**.  
This is how a 0.2mm thick line looks like: — — — — —
- ☐ All colors should be converted to **Pantone colors** only. Choose from the **Pantone Solid Coated or Uncoated** swatch libraries.
- ☐ Colors should be solid 100% opacity, no gradient or tints.
- ☐ For best results, your design should be in **vector** format, but if an image will be used, it should be no less than **300 DPI**.
- ☐ In order to ensure your custom padded mailer prints correctly, we require that **all fonts be converted to outlines**.
- ☐ For optimal scanning, ensure **QR codes have high contrast** and measure **20x20mm or above**. Do not scale the QR code below a **minimum of 16x16mm**.

- 1

### Download dieline

Ensure you have downloaded the correct sized dieline. Dielines can be found on the **noissue website**.
- 2

### Complete your design

Use the Print Perfect Checklist as a guide to get the best print results. Export as **CMYK PDF**. No crop marks needed.
- 3

### Upload artwork and order

Complete your order, upload your artwork and checkout. To guarantee print satisfaction, we'll review your file and send you a final proof to approve before going to print.
