

**Size**

1 inch

**Color**

CMYK

**Sustainability**

Compostable and Recycle,  
both the stickers and the release liner  
is curbside recyclable

## Print perfect checklist

- Add your design to the template available on the next page.

**Bleed Area**

Make sure to extend your background to fill the bleed area to avoid a white border. We require 5mm of bleed all around.

**Trim Line**

This is a guide where the design will be trimmed.

**Safe Area**

Keep important text or graphic elements within the safe area which is **1.5mm** from the trim line. This is to prevent it from being cut off, or from being too close to the edge, which does not look nice.

- We recommend using **6pt font size** (0.8mm height) or larger.
- Thickness of lines, strokes and gaps should be no less than **0.2mm**.
- All colors should be converted to **CMYK**.
- For best results, your design should be in **vector** format, but if an image will be used, it should be no less than **300 DPI**.
- In order to ensure your custom sticker prints correctly, we require that **all fonts be converted to outlines**.
- For optimal scanning, ensure **QR codes have high contrast** and measure **20x20mm or above**. Do not scale the QR code below a **minimum of 16x16mm**.

1

**Download dieline**

Ensure you have downloaded the correct sized dieline. Dielines can be found on the [noissue website](#).

2

**Complete your design**

Use the Print Perfect Checklist as a guide to get the best print results. Export as **CMYK PDF**. No crop marks needed.

3

**Upload artwork and order, or share with your Account Manager**

Complete your order, upload your artwork and checkout. To guarantee print satisfaction, we'll review your file and send you a final proof to approve before going to print.
