Compostable

Print perfect checklist

- ☐ Add your design to the template available on the next page.
- ☐ We recommend using **6pt font size (0.8mm height)** or larger.
- ☐ Lines and stroke thickness should be no less than **0.2mm (0.5pt)**. **1pt** is recommended if reversed.
- ☐ Avoid placing large shapes on print seam and no large background colors covering template. This causes streaking in our process and creates unnecessary product waste.
- ☐ In order to ensure your custom clamshell takeout container prints correctly, we require that design should be converted to vector and all fonts converted to outlines.
- ☐ In order to ensure your coffee cups correctly, we require that all fonts **has to be converted to outlines**.

1

Download dieline

Ensure you have downloaded the correct sized dieline. Dielines can be found on the **noissue website**.

2

Complete your design

Use the Print Perfect Checklist as a guide to get the best print results. Export as **CMYK PDF**. No crop marks needed.

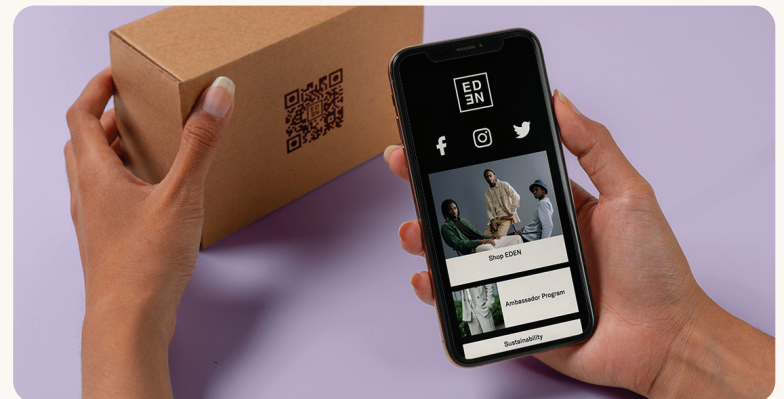

3

Upload artwork and order, or share with your Account Manager

Complete your order, upload your artwork and checkout. To guarantee print satisfaction, we'll review your file and send you a final proof to approve before going to print.
