Print Perfect Checklist

Add your custom artwork to **your design here layer**.

To ensure the texts will come out legible. We recommend using **2mm for the text height**.

Thickness of lines, strokes and gaps should be **no less than 0.2mm**.

For best results, your logo or design should be in **vector format**.

Gradients and tints are **not allowed**.

Edge-to-edge print is **not allowed**, so for designs near the edge, please leave a **10mm space** to ensure it will not move to the other side of the bag.

In order to ensure your bag prints correctly, we require **that design should be converted to vector and all fonts converted to outlines**.

Designs with CMYK Values less than **20% CMYK** will print lighter than what is seen on screen. Designer can adjust the color and notify the customer to avoid complaints/reprints.

Please export as a **'CMYK' PDF**. No crop marks needed.
