

noissue. Custom Coffee Cups

SIZE
8oz Double Wall

FINISH
Matte

PRINT COLOR
CMYK
Colors may have 5-10% variance after printing.

Step by step...

1

Download the template.

You can find the template on the noissue website. Choose the size you wish to order.

2

Choose finish.

For our custom coffee cups, we currently only offer **Matte** finish.

3

Start designing!

You may now start designing your noissue coffee cups! Use the **Print Perfect Checklist** as a guide to get the best print results.

4

Once done, you may upload as a finished artwork.

Choose "Upload a finished artwork" and upload your PDF file. Fill in the necessary fields: color, size, and quantity.

5

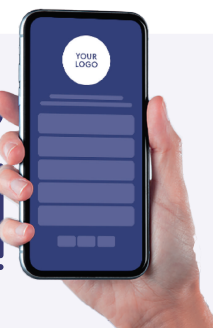

Add to cart and order!

We want to make sure you're happy so before we print anything, we'll send you a visual of your custom design to sign off.

Print Perfect Checklist

Add your design to the template available on the next page.

Bleed Area

Make sure to extend your background to fill the bleed area to avoid a white border. We require to extend it until the edge of the dieline.

Dotted Area

Design can only be within the dotted area.

Design Guide

Your design/texts need to be curved. You can select the guide layers for it to show.

We recommend using **0.9mm font size** or larger.

Thickness of lines, strokes and gaps should be no less than **0.2mm**.

All **Pantone Colors** will be converted to CMYK Colors.

Designs with CMYK Values less than 20% CMYK will print lighter than what is seen on screen. Designer can adjust the color and notify the customer to avoid complaints/reprints.

For best results, your logo or design should be in **vector** format

In order to ensure your custom tissue prints correctly, we require that **all fonts be converted to outlines**.

Please export as a '**CMYK**' **PDF**. No crop marks needed.
