VIRTUAL TOUR

Grand Restaurant

An homage to nature

Reopened after a redesign in December 2023, the Grand Restaurant at the Carlton Hotel is a hymn to nature and the culinary delights of the Engadin. Under the direction of Executive Chef Salvatore Frequente, guests enjoy a fusion of traditional influences and contemporary gourmet cuisine. Frequente's menu places a spotlight on wild ingredients from the surrounding forests – from sea buckthorn to juniper berries – in an authentic celebration of the region's diversity.

Conceived by Ticino designer Carlo Rampazzi, the interior uses earthy tones and large windows to mirror the surrounding landscape and complement the natural elegance of the space. It's a place where nature, fine dining and creativity come together in one extraordinary gastronomic experience.

Fondue gondolas

Classic Swiss cuisine

Our fondue gondolas have become something of a Carlton Hotel institution – and little wonder. Who could resist the combination of Swiss winter cheer and warming cheese fondue? Back this year by popular demand, our fondue gondolas will once again serving classic cheese fondue and other Engadin specialities – all, of course, with breathtaking views of Lake St. Moritz and the surrounding mountains. A quintessentially Swiss experience for groups of two to four.

Moving Mountains

Immersion in nature

Moving Mountains is a signature guest experience programme designed to help restore vitality, reconnect with nature and celebrate joy. ‘Play’ is one of the five pillars upon which the philosophy is built. We believe that play is as important for body and soul – as functional fitness or nutritious food – and it is with this in mind that we seek to help you discover the Engadin playfully. Lose yourself in nature, create something new, or push your nerves to the limit with a thrill-seeking adventure.

Find out more about any of our Moving Mountains activities by calling **+41 81 836 70 07** or sending an email to **outdoor@carlton-stmoritz.ch**. Alternatively, our Outdoor Butler will be pleased to advise you in person.

Sustainability

Because we care

The Tschuggen Collection is the first Swiss premium hotel group to bring pioneering environmental action and exceptional standards of hotel management under one roof. Our prized locations amidst spectacular natural beauty serve as a daily reminder of our firmly-held belief: that protecting the environment is the most important challenge of our time.

The Carlton Hotel is proud to continue to be recognised as a Sustainability Leader by The Leading Hotels of the World and as a Green Globe-certified institution. But our aspirations don't stop there. We offset our entire carbon footprint, run an annual Clean Up Day and are continuously expanding our green team. We continue to implement sustainable ways of doing things across our entire hotel, such as the upcycling of furniture by our in-house designer Carlo Rampazzi or the new, regionally focused dining concept at our Grand Restaurant.

We support both local and national initiatives to protect our natural environment and our region's cultural and historical heritage. Rewilding work was recently completed on the Bos-Cha lowland moor in the Lower Engadin – not far from the hotel – thanks to a joint initiative between us, the Pro Terra Engiadina Foundation and our environmental partner myclimate.

On the occasion of our 111th anniversary, we reaffirm our commitment to preserving the beauty and diversity of our natural environment for the generations to come.
