Title: Key Landscape and Visual Features and Receptors (Detailed Study Area)

Heckington Fen Wind Park
Environmental Statement

Legend

- ◆ Site Location
- 2km Distance Band
- 5km Distance Bands
- Turbines Visible
- ★ Photomontage Viewpoint Location (1-30)
- Lincolnshire Wolds Area of Outstanding Natural Beauty

Note:
The ZTV shows those areas of open space, water bodies and transport corridors from where the proposed turbines are likely to be visible at ground level. It does not take into account views from upper storeys of residential and other properties in the study area.

This ZTV takes into account screening effects of some intervening elements such as woodland and buildings. Each of these are given assumed heights of 15m and 8m respectively. It does not take into account screening effects of incidental vegetation and roadside planting, including hedges, hedgerow trees and tree belts.
