**Pursue your passion for natural health**

# Welcome to Endeavour

Endeavour College of Natural Health is the largest private Higher Education provider of natural medicine courses in the Southern Hemisphere.

From our humble beginnings in 1975 with just 16 students, today we boast over 5,000 students and 400 staff across six vibrant campuses in Brisbane, Gold Coast, Melbourne, Perth, Sydney and Adelaide\*.

With experienced lecturers, cutting edge curricula, and Australia's largest choice of natural health courses, Endeavour is committed to the growth and prominence of natural health in Australia and around the world.

Endeavour College of Natural Health acknowledges the Australian Aboriginal and Torres Strait Islander peoples as the first inhabitants of the nation and the Traditional Custodians of the lands where we live, learn and work. We pay our respects to ancestors and Elders, past, present and future. Endeavour College of Natural Health is committed to honouring Australian Aboriginal and Torres Strait Islander peoples' unique cultural and spiritual relationships to the land, waters and seas and their rich contribution to society.

## Lemon Myrtle

---

The native lemon myrtle is high in antioxidants, vitamin E, calcium, zinc and magnesium. It is commonly turned into tea, flavour ingredient or essential oil. This fantastic plant is also known to have anti-microbial and anti-fungal properties.

## A message from our Director of Education

Thank you for considering Endeavour College of Natural Health as a potential place to study your chosen career.

Endeavour College is the leader in natural health education, producing the experts that keep the world well – we are the best at it because it's all we do.

Endeavour College has campuses across Australia with a student body in excess of 5,000. With intimate classes, the open exchange of ideas is important and we encourage you all to learn from those around you. Whether you're studying one of our theory subjects through our state-of-the-art digital learning environment or attending a practical or clinical class on campus, the journey is entirely yours and we welcome all students to enjoy the College experience.

At Endeavour College, we teach what the world wants to feel. I know you will be impressed by the professionalism of the staff and the quality of their teaching as well as the support and guidance of our Student Services team. We are a national and international leader in the field of natural medicine with some of Australia's most respected lecturers teaching across all disciplines of study.

We specialise in clinical practice, so one of the greatest benefits of studying with Endeavour is the amount of actual hands-on, real-life experience you will gain as a student. The Endeavour Wellness Clinic is set up for you to be a practitioner and work your practical hours with paying clients in a supported and friendly environment, on campus.

Endeavour offers a unique opportunity to shape your individual specialisation and to work in collaboration with other areas of natural health within the same clinic. During your clinical practice, you will learn real business skills which will help you understand the nuances of running a business, which many of our graduates achieve after completing their courses.

An exciting time awaits you in the months and years ahead. Best wishes with the decisions you make now for your future. Turn your passion into your purpose.

### Dr Jenny Wilkinson

Director of Education

**The College fosters an atmosphere that is respectful, supportive and welcomes students from all demographics and cultural backgrounds. Here you'll find other caring and curious people, and develop a strong camaraderie among your peers.**

### Kangaroo Paw

Native to Australia, the kangaroo paw (or *Nollamara*, *Kurulbrang* or *Yonga Marra* in the local Nyoongar language) is known for its bright and vivacious flowers. Indigenous Australians have used kangaroo paw as bush medicine for many thousands of years, and may also speed up the skin's renewal process, as well as hydrate the skin.

# Why start your journey with Endeavour?

Studying natural health can help you follow your dreams to a career in Clinical Nutrition, Naturopathy, Acupuncture or Chinese Medicine. Endeavour is at the forefront of education in the natural health sector, with a national footprint of six campuses and teaching clinics, and highly trained and experienced lecturers, tutors and clinical supervisors.

Endeavour is closely aligned with professional national and international associations. This helps to ensure our curriculum is industry standard and aligned with traditional philosophies, while also giving students strong networks within the industry.

We believe in holistic health and a holistic philosophy. This is demonstrated in our teaching in the classroom and in the wider support Endeavour provides students throughout their learning journey. With the support of our lecturers, students benefit from a personal approach in our smaller classes and real-life experience in our onsite student clinics. This business minded focus coupled with one-on-one time with experienced professionals sets Endeavour students in good stead when they graduate and become practitioners themselves.

## People power

We are the largest natural health college in the Southern Hemisphere and have been a natural health educator since 1975. You will learn from the natural health industry's best teachers, rub shoulders with some of its superstars, and no doubt discover like-minded people amongst your peers.

**18,000+ graduates  
and counting...**

## Direct entry

As an Institute of Higher Education, we offer a range of direct entry opportunities as part of our commitment to the value of student centricity. Previous study is also considered and you may be eligible for course credits into our higher education degrees or courses.

**A student-centric approach**

## Ongoing support

Everyone needs a little support on life's journey. At Endeavour, you will always receive the support you need to succeed from our Student Support and Academic teams.

**Support every step  
of the way**

## Career-focused

Whether you're wanting to open your own clinic, travel the world working with clients, create your own products, or anything in between, studying with us can help you reach those goals. We hold regular networking events, webinars and panels for students, and provide you extensive client and clinical experience at our public, on campus Endeavour Wellness Clinics.

**Your goals realised**

## Find your purpose

Turn your passion into a thriving career with real purpose. All you need to do is take the first step. If studying natural health has been something you've been considering, there is no better time than now.

**Turn your passion  
into your purpose**

# HELLO *Australia!*

Known for its stunning nature, gorgeous weather and relaxed lifestyle, it's no wonder Australia is one of the happiest countries in the world. Endeavour has six campuses across Australia giving you the freedom to choose where to live and study. Whether you're looking for a bustling urban lifestyle or chilled beach vibes, each city offers something unique.

From its red centre to its blue oceans, it's easy to escape the city and explore what this amazing country has to offer. Jump in the car, hop on a plane or board a train, here are just a few ideas for a weekend getaway or mid-session break:

- › Go for a bush walk and visit the Three Sisters in the Blue Mountains, NSW
- › Discover delicious food and wine and breathtaking views in Victoria's Mornington Peninsula
- › A visit to Moreton Island – the third largest sand island in the world is just a 70 minute ferry ride from Brisbane
- › Take a selfie with a quokka on Rottneest Island, just 19 kilometres from Perth
- › Swim beneath waterfalls in the Gold Coast Hinterland

## Campuses

We have five vibrant CBD campuses across Australia open to international student enrolments, each with its own Endeavour Wellness Clinic. Common facilities for students on campus include a library, kitchen, breakout areas, and more...

[View our campus videos or book in for a personalised tour here.](#)

### Brisbane Campus (Meanjin)

**Level G, 1 & 2 Transport House, 230 Brunswick Street, Fortitude Valley QLD 4006**

Located in a brand-new space at Valley Metro, our Brisbane campus offers re-designed teaching, breakout, and group learning spaces, as well as a digital learning lab and bookstore. There are a wide range of cafes, transport, shops, and amenities nearby, making this campus an ultra-handly location.

#### Brisbane fast facts

- › Brisbane is home to 2.1 million people
- › It gets on average 283 days of sunshine a year
- › Brisbane is the birthplace of the lamington

### Gold Coast Campus (Yugambeh)

**Level 1 & 2, 121 Scarborough Street, Southport QLD 4215**

In the heart of Southport, our brand new Gold Coast campus is close to everything the Gold Coast has to offer – beaches, restaurants, cafes, and more. On campus you will find our Endeavour Wellness Clinic, classrooms and laboratories and library.

#### Gold Coast fast facts

- › Over half a million people live in the Gold Coast
- › The Gold Coast boasts 57km of beautiful coastline
- › The average sea water temperature is 22°C year round

## Melbourne Campus *(Naarm)*

**Level 2, 368 Elizabeth Street, Melbourne VIC 3000**

Located in the heart of Melbourne's CBD and just a moment from public transport, this newly renovated campus is home to an extensive library, fit-for-purpose classroom and laboratory settings, student common areas and clinic.

### Melbourne fast facts

- › Melbourne is Australia's second most populated city with a population of 4.5 million
- › On an average weekday 928,000 people use the city
- › The median age of an inner-city Melbournite is 28

## Perth Campus *(Boorloo)*

**170 Wellington Street, East Perth WA 6004**

Located just one kilometre from the city centre, our Perth campus is close to Wellington Square Park and public transport. We have an on-site library as well as teaching clinic, plus fit-for-purpose student common areas, kitchen facilities and learning spaces.

### Perth fast facts

- › 2.4 million people visit Perth each year
- › 60% of people get around without a car
- › Perth is the sunniest city in the world!

## Sydney Campus *(Gadigal)*

**Level 7, 815/825 George Street, Haymarket NSW 2000**

Recently renovated, the Sydney campus provides students with group learning spaces, digital learning hubs, re-designed teaching areas as well as a whole floor dedicated to the Endeavour Wellness Clinic. It's located right across the road from Central train station and Railway Square bus stops and is within easy access of many restaurants, shops and facilities.

### Sydney fast facts

- › Sydney has approximately five million residents
- › George Street (the street our college is on) is the oldest street in Australia
- › English, Mandarin, Thai and Cantonese are the main languages spoken in the City of Sydney

## Student life

Life at Endeavour College isn't just about lectures, textbooks, and studying. We live and breathe natural health, and we want to give you the opportunity to do the same! To provide you with a rich and well-rounded experience, we offer a range of services and opportunities throughout your student journey.

Welcome to  
*Student Life*

Endeavour is more than just study.  
Connect and get inspired at our  
exclusive student events

## Endeavour Wellness Clinic

All students receive discounted treatments at Endeavour Wellness Clinic, along with 15% off dispensary and retail items. Treatments include Nutritional Medicine, Naturopathy, Acupuncture, and Massage. Students also receive two free treatments per calendar year. Treatment availability may vary in each clinic.

## Academics

Our academics are leaders in the natural health industry with years of experience and a passion for teaching the next generation of natural health professionals.

## Student support

As an Endeavour student, you will always have access to help and support. We offer face-to-face, online and over the phone support services which cater to individual student needs. On top of this students can access a 24/7 online study support platform which can be accessed anytime, anywhere, whenever you need it.

## Wi-Fi

With free and fast Wi-Fi, you can stay connected while on campus.

## Break out spaces

Take some time out and enjoy our student break out spaces. With kitchen facilities and comfortable seating, these spaces are great places to relax, spend time with fellow students or grab a snack in-between classes.

## Fit-for-purpose classrooms

We have a range of classrooms specifically designed for the kinds of learning you will be undertaking while on campus. These include laboratories, digital learning hubs, and practical classrooms – these spaces will help bring your learning to life!

## On-campus activities

Throughout the academic year, you'll have access to free events and activities (both on-campus and online). From orientation webinars and course progression sessions to yoga and skincare workshops, there's never a dull moment in the student events space! Endeavour students also have access to exclusive industry events, which are either free of charge or discounted.

## Library

Find a range of natural health books available for you to borrow. Our libraries also have bookable rooms for you to meet and study in, general study spaces, and printing and copying facilities.

## Bookstore and product discounts

We work with industry partners to bring you a range of product and service discounts. You also receive a discount at the Endeavour Bookstore – an online store where you can pick up many health and wellness items, clinic equipment and uniforms, learning aids, and more.

## Endeavour Wellness Clinic

Real life experience practising in Endeavour Wellness Clinic is the greatest benefit of choosing Endeavour College when you study with us.

Located on all campuses, the Endeavour Wellness Clinic is open to the public and receives fee-paying clients. If your course requires clinical hours, you will treat clients in a safe, supportive and professional environment, supervised by qualified practitioners. You can apply your academic knowledge, learn practical skills while treating clients and gain an understanding on the principles of running your own clinic in the future.

Clinical practice provides you with the opportunity to work with peers across different disciplines of natural medicine. Endeavour Wellness Clinics treat more than 1,000 clients with a variety of backgrounds and conditions every week.

🔍 [endeavourclinic.com.au](http://endeavourclinic.com.au)

### Clinical hours per course

- › Bachelor of Health Science (Naturopathy)\*: 565 hours
- › Bachelor of Health Science (Clinical Nutrition)\*: 384 hours
- › Bachelor of Health Science (Acupuncture Therapies): 432 hours
- › Bachelor of Health Science (Chinese Medicine): 904 hours
- › Diploma of Health Science (Chinese Remedial Massage): 192 hours

\* Student Visa holders may study these courses by completing our Diploma of Health Science first.

**“The campus has such good energy. I knew immediately that it was where I wanted to be. At Endeavour, natural health is everyone’s passion project, and they want to learn as much as they possibly can.”**

**Amelia Hetherington**  
Bachelor of Health Science (Naturopathy) graduate

**Our clinics service real clients, providing you with authentic clinical experience to enhance your employability**

# Bachelor degrees

Our Health Science Bachelor degrees combine theory and practical experience across a range of specialist areas including Naturopathy, Nutrition, Acupuncture and Chinese Medicine.

## Bachelor of Health Science (Acupuncture Therapies)

Acupuncture is a branch of Chinese medicine that stimulates specific points on the body to regulate the flow of Qi (vital energy) to restore health and balance the functions of the body, mind and spirit.

Acupuncture therapies combine Chinese medicine theory (philosophy and principles) with Chinese manual therapy practices including acupuncture, moxibustion, Qi Gong, and Chinese remedial massage (Tui Na), supported by Chinese dietary therapy and prepared Chinese herbs.

### Course duration

- > 3 years full time
- > 24 hours per week

### Course fees

### Career opportunities

- > Acupuncturists may practice independently as a sole trader or provide treatment in a multidisciplinary setting.
- > Acupuncturists often work alongside other allied health practitioners such as medical doctors, physiotherapists, osteopaths, chiropractors, and naturopaths.
- > Practitioners may choose to focus on specific areas of interest such as women's health, sports medicine, men's health, chronic disease, or other areas.
- > Graduates are eligible to articulate into the Bachelor of Health Science (Chinese Medicine) with up to 92 credit points of advanced standing, as well as master's degree programs in a variety of related areas.

<sup>†</sup> Course fees correct at time of publication and are subject to change.

**“At Endeavour, I witnessed different styles of acupuncture and got plenty of clinical experience, which gives you the confidence to practice in a way that’s true to yourself.”**

**Nicholas Beasley**  
Bachelor of Health Science  
(Acupuncture) graduate

# Bachelor of Health Science (Chinese Medicine)

Chinese medicine is a whole medical system that seeks to balance the functions of the body, mind and spirit and restore health. Chinese medicine combines theory (philosophies and principles) and practices including acupuncture, moxibustion, medical Qi Gong, Chinese remedial massage (Tui Na), Chinese herbal prescribing and dispensing, and Chinese dietary therapy.

## Course duration

**“The lecturers are all practitioners themselves, and their love for the medicine shines through. It’s cool to be exposed to their different viewpoints and approaches – it helps us define how we want to practise.”**

**Alf Zollo**  
Bachelor of Health Science  
(Acupuncture) student

# Bachelor of Health Science (Naturopathy)

*Student Visa holders may study this course by completing our Diploma of Health Science or a one-year equivalent credit pathway first.*

Naturopathy is a whole medical system combining an array of natural therapies to support healing and maintain health. Naturopaths aim to treat the underlying causes of illness and disease. Students experience a holistic learning environment, broadening their studies across biological sciences to understand the human body and its functions. The core principle of “healing through nature” guides the naturopath’s use of nutrition, dietary counselling, herbal medicine, manual therapies, flower essences, lifestyle education and homeopathy.

## Course duration

- > 4 years full time
- > 24 hours per week

## Course fees

## Career opportunities

- > Naturopaths may practice independently in their own clinic.
- > Work alongside other allied health professionals such as medical doctors, physiotherapists, osteopaths, and acupuncturists.
- > Choose to specialise in a particular area of interest such as women’s health, children’s health, chronic disease, autoimmune diseases, environmental medicine and more.
- > Naturopaths regularly appear in the media as subject matter experts, produce content and work with brands to develop products.
- > Graduates may be eligible to pursue post-graduate programs and education roles.

<sup>†</sup> Course fees correct at time of publication and are subject to change.

**“Enjoy the journey. You will love the experience of learning throughout the course and, as natural medicine is such a practical course, you will be able to start implementing and applying what you are learning to your own health, or your friends and family’s health straight away. Naturopathy is such a beautiful course and the places it can lead you are endless.”**

**Emma Watson**  
Bachelor of Health Science  
(Naturopathy) graduate

# Bachelor of Health Science (Clinical Nutrition)\*

*Student Visa holders may study this course by completing our Diploma of Health Science or a one-year equivalent credit pathway first.*

Clinical nutritionists integrate traditional food wisdom and current evidence to motivate individuals and communities to eat well and live healthier lives.

Disease prevention is approached and managed through a multidimensional lens. Nutrient adequacy, food quality, dietary behaviours and lifestyle are assessed to develop individualised Nutrition Care Plans. Clinical Nutrition studies broaden during the degree to include nutritional biochemistry, weight management, clinical nutrition, dietary planning, sports nutrition, nutritional physiology research and public health nutrition.

## Course duration

- > 3 years full time
- > 24 hours per week

## Course fees

AUD \$68,298 + elective (or max \$69,725)<sup>†</sup>

## Campus availability

Brisbane, Sydney, Melbourne, Gold Coast and Perth

## Campus CRICOS Code

## Career opportunities

- > Clinical nutritionists may practice independently in their own clinic.
- > Work alongside other allied health professionals such as medical doctors, physiotherapists, osteopaths, and fitness professionals.
- > Upon graduation you may also pursue a career in population or corporate health, media and content creation, food and product development and more.
- > Graduates may be eligible to pursue post-graduate programs and education roles.

\* This degree does not meet the professional accreditation requirements of the Dietitian's Association of Australia (DAA) for graduates to practice as an Accredited Practising Dietitian (APD).

† Course fees correct at time of publication and are subject to change.

**“I liked that I was able to study in my own time and still continue with work and family life.”**

**Lexi Crouch**  
Bachelor of Health Science  
(Clinical Nutrition) graduate

# Higher Education Diplomas

A higher education diploma is the perfect entry qualification towards a career in natural health. Our higher education diplomas are structured to provide you with future study pathways and career opportunities across Nutrition, Naturopathy, Acupuncture, and Chinese Medicine.

## Why choose a Diploma of Health Science?

The Diploma of Health Science can be studied entirely overseas, from your home country. International students can complete the Diploma of Health Science in familiar surroundings, while building a relationship with lecturers and the College community online.

Upon graduation, students will have study credits and may have the option to pathway into the second year of our nutrition or naturopathy degrees, which can be studied in Australia. The benefit for you as an international student, is that you will already have foundational knowledge and an established network ready to welcome you to Australia if you wish to further your studies beyond the Diploma of Health Science (and a lowered cost of study due to the ability to complete initial studies from overseas).

While it's important to note that the Diploma of Health Science does not guarantee an Australian Student Visa, what it does provide is the possibility to qualify for a Genuine Temporary Entrant (GTE) Visa, which allows students to come to Australia for the purpose of gaining a quality education.

- › Study the Diploma of Health Science from overseas
- › Lower cost due to the ability to study from your home country and continue with current employment
- › Choose to study full time (one year) or part time (two years)
- › Classes delivered via live stream in AEST but are then available online to view at a time that suits you
- › Best route for a Genuine Temporary Entrant (GTE) Visa if you wish to pursue further studies
- › Pathway into the Bachelor of Health Science (Naturopathy) and Bachelor of Health Science (Clinical Nutrition)
- › If further studies are pursued, students enter Australia with an established network which includes peers, lecturers and the wider Endeavour community

### Lilly Pilly

Described by some as a superfood, lilly pilly is high in vitamin C and fruit acids which has many skincare benefits. These include anti-aging and anti-inflammatory benefits as well as improving collagen production and skin cell rejuvenation.

# Diploma of Health Science

Contribute to a healthier and happier society with Endeavour's Diploma of Health Science. In addition to gaining foundational knowledge of biological and social sciences, our one-year full time (two years part time) course gives you the opportunity to gain an introduction to various areas of complementary medicine through interdisciplinary electives including Naturopathy and Nutrition.

Upon graduation, this Higher Education Diploma opens the doors to further study in health science degrees or roles in allied health or complementary medicine environments. From owning your own business to being a part of community health project teams, the career outcomes of this course are full of exciting possibilities.

## Course duration

- › 1 year full time

## Course delivery

This course is offered in a fully virtual space, using only online and livestreaming modes of delivery.

## Course fees

AUD \$14,707 + electives (or max \$19,615)<sup>†</sup>

<sup>†</sup> Course fees correct at time of publication and are subject to change.

## Career opportunities

- › Work on project teams in community health, local and federal government or even in community gardens.
- › Develop recipes and products for your own brand or for local business. This could include developing your own products such as herbal teas, healthy meal packs, café menus and beauty.
- › Work in specialised health food stores, organic food sales, pharmacy retail and nutrition sales.
- › Create digital content through social media channels, blog writing and video development.
- › Undergo further studies in allied health science careers including naturopathy, nutrition and dietetics, acupuncture, complementary medicine and other allied health fields.

**“Studying at Endeavour was the most rewarding, challenging and empowering experience of my life. I learnt that it is all about how you apply yourself, not about how intelligent you are.”**

**Jenna Carroll**  
Bachelor of Health Science  
(Naturopathy) graduate

# Diploma of Health Science (Chinese Remedial Massage)

Chinese remedial massage utilises a range of manual therapy techniques developed within Chinese medicine to assess and support conditions commonly experienced within the community.

Techniques including Tui Na (Chinese remedial massage), acupressure, moxibustion, cupping, gua sha, topical herbal applications and medical Qi Gong are utilised to holistically support clients across the lifespan with special emphasis on clinical and musculoskeletal conditions.

## Course duration

- › 1.5 years full time

## Course delivery

The Diploma of Health Science (Chinese Remedial Massage) is offered in mixed mode, with a combination of online, blended, live-streamed and on campus subjects.

## Course fees

AUD \$33,926†

## Campus availability

Brisbane, Sydney, Melbourne, Gold Coast and Perth

## Campus CRICOS Code

National CRICOS Provider Code: 00231G

## CRICOS Course Code

106487B

## Career opportunities

- › Chinese remedial massage practitioners may practice independently as a sole trader or provide treatment in a multidisciplinary setting.
- › Chinese remedial massage practitioners often work alongside other allied health practitioners such as acupuncturists, Chinese herbalists, medical doctors, physiotherapists, osteopaths, chiropractors, and naturopaths.
- › Practitioners may choose to focus on particular areas of interest such as sports medicine, musculoskeletal health, massage or retreat centres, health maintenance, or holistic care.
- › Graduates are eligible to articulate into the Bachelor of Health Science (Acupuncture Therapies) or Bachelor of Health Science (Chinese Medicine) with up to 34 credit points of advanced standing. Graduates may also articulate into other health qualifications in a variety of related areas.

† Course fees correct at time of publication and are subject to change.

**“With Chinese medicine, I love that I can see the results straight away. People would walk out of the clinic feeling better than when they walked in. I learned so much from my clinic supervisors and fellow students during that time.”**

**Zarah Adaniel**  
Bachelor of Health Science  
(Acupuncture) graduate

## Accreditation and professional recognition

We develop our courses with professional associations, external academics, clinicians and graduates to ensure your qualifications are recognised by key industry bodies. We regularly review all our courses to make sure they meet our students' and industry's needs.

Each of our bachelor degrees courses are formally assessed and accredited by the Australian government national regulator for Higher Education, the Tertiary Education Quality Standards Agency (TEQSA).

Once you graduate you are eligible for membership with professional associations relevant to your field of study, such as Complementary Medicine Association, The Nutrition Society of Australia, and the Australian Natural Therapists Association.

Our Bachelor of Health Science (Acupuncture Therapies) and Bachelor of Health Science (Chinese Medicine) are currently being accredited by AHPRA.

We educate first-rate professionals, perfectly positioned to service the thriving health and wellness sector.

# Entry requirements

## English language requirements

(all applicants with English as an additional language)

**Bachelor of Health Science (Acupuncture Therapies), Bachelor of Health Science (Chinese Medicine), Diploma of Health Science (Chinese Remedial Massage) and postgraduate qualifications:**

- › IELTS 7.0 (no sub score less than 6.5)
- › Cambridge English: Advanced (CAE 185-190, no sub score less than 176)
- › Pearson (PTE) Academic Score of 65 (overall score, with a communicative skills score in writing 58 or above)
- › Internet based (iBT) TOEFL score of 100 (with a minimum of 24 or above in writing).

**All other Bachelor degrees and Undergraduate Certificates (other than Human Biology, as below):**

- › IELTS 6.5 (overall score – no sub score less than 6.0)
- › Cambridge English: Advanced (CAE 176-184)
- › Pearson (PTE) Academic Score of 59 (overall score)
- › Paper based (PBT) TOEFL (Test of English as a Foreign Language) score of 577
- › Internet based (iBT) TOEFL score of 90.

**Diploma of Health Science and Undergraduate Certificate in Human Biology:**

- › IELTS 6.0 (overall score – no sub score less than 5.5)
- › Cambridge English: First (FCE 169-175)
- › Pearson (PTE) Academic Score of 52 (overall score)
- › Paper based (PBT) TOEFL (Test of English as a Foreign Language) score of 537
- › Internet based (iBT) TOEFL score of 79.

These levels have been set to ensure the student will have the ability to successfully engage in study.

Applicants with English as their native language are not required to undertake an assessment of their English skills.

A high school transcript or subsequent qualification would be sufficient evidence that education was conducted in the English language.

## Academic entry requirements

Country	Equivalent studies to Australian Year 12 (must include a science subject)
Australia	Year 12
Brunei	GCE "A" Levels
Canada	Canadian Senior High School Graduation Diploma
China	Successful completion of the first year of a bachelor degree at university, or for selected programs, meet the appropriate criteria for Gaok
Denmark	Studentereksamen
Fiji	University of the South Pacific Foundation Year or successful completion of the first year of a bachelor degree at university or New Zealand
France	French Baccalauréat
Germany	Abitur
Hong Kong	Hong Kong "A" Levels, Hong Kong Diploma of Secondary Education
India	All India Senior School Certificate; Indian School Certificate awarded by the Indian Council of School Examinations; Indian Higher Secondary School Certificates from the State Boards of Gujarat, Maharashtra, West Bengal and Karnataka
Indonesia	Successful completion of the first year of a bachelor degree at university
International Baccalaureate	Completed diploma
Japan	Successful completion of the first year of a bachelor degree at university
Malaysia	Malaysian STPM or Unified Examination (UEC)

Country	Equivalent studies to Australian Year 12 (must include a science subject)
Norway	Norwegian Certificate of Completion of Upper Secondary School Examinations, Vitnemal, Examen Artium, Studenteksamen, Gymnaseksamen
Pakistan	Intermediate/Higher Secondary School Certificate
Philippines	Successful completion of the first year of a bachelor degree at university
Republic of Korea	Successful completion of the first year of a bachelor degree at university or two years study at an approved junior college
Singapore	Singapore/Cambridge "A" Levels
South Africa	South African Senior Certificate since 2008 or Matriculation Certificate
Sri Lanka	Sri Lankan "A" Levels
Taiwan	Successful completion of the first year of a bachelor degree at university or two years study at an approved junior college
Thailand	Successful completion of the first year of a bachelor degree at university
UK	GCE "A" Levels
USA	US High School Certificate + SAT scores; SAT + AP scores; ACT scores; or High School Diploma and AP
Vietnam	Successful completion of the first year of a bachelor degree at University. Graduates from selected Gifted Secondary High Schools with a Year 12 grade of 8.0 or above will be considered for a limited number of undergraduate programs

# Visa requirements

## What is an International Student?

Endeavour defines an International Student as someone who is not an Australian citizen, permanent resident or a New Zealand citizen. This definition includes students studying onshore on a range of visas. Information that applies only to students studying on specific visa classes (e.g. Student Visa) will be specified when relevant. Endeavour College of Natural Health is registered on the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS) to deliver courses to international students studying on a student visa.

## Student visas

There are a number of visa subclasses accepted for study by Endeavour College of Natural Health.

### Higher Education (500)

Applies to a Bachelor degree:

- You must meet the conditions of your student visa at all times
- Report any change to your enrolment to the Department of Home Affairs (DHA)
- A full time (100%) study load must be undertaken unless a reduced workload is approved due to compassionate or compelling circumstances

## Temporary visa holders

Australian international temporary visas are varied and many subclasses of visa may be eligible to study in Australia. Please confirm with DHA that your visa allows you to study prior to enrolling at Endeavour.

The following types of visa may allow you to study in Australia:

- Employer Sponsored Workers visa (subclass 457)
- Other Professional and Work visas (various subclasses)
- Visitor visas (subclass 600) Working Holiday visas (subclass 417 and 462)
- Retirement visas (subclass 410 only)
- Medical Treatment visas (subclass 602, 675, 685)
- Bridging visas (various subclasses)

Other visas not listed above may allow you to study in Australia for a fixed period of time. If you hold another visa and are interested in studying at the College, please check with DHA if you are eligible to study.

Temporary visa holders (students that hold a temporary visa other than a student visa) may enrol in any available course at any campus and may also study part time and online.

If the prospective student's visa does not cover the length of the course, they must provide the College with a statement that explains the way in which they intend to complete the course.

**Overseas Visitor Health Cover (OVHC) for students on other temporary visas:** All students are encouraged to arrange Overseas Visitor Health Cover (OVHC).

## Bottlebrush

This striking plant known for its bright red blooms is a rich source of essential nutrient including potassium, manganese, and selenium. Traditionally, bottlebrush was used to treat kidney ailments, bleeding, ulcers, and tuberculosis. Studies have shown that bottlebrush's antioxidant and antihyperglycemic presence may act a therapeutic agent in diabetes.

### Finger Lime

Used by Indigenous peoples for centuries, finger limes provide a number of health benefits. Studies have shown that the citric acid content in finger limes can act as an antibacterial agent which can treat wounds and ulcers. It's high in vitamin C which can help boost immunity as well as aid in collagen formation for healthy skin. On top of this, finger limes contain vitamin E – an antioxidant which protects our cells from damage.

## Insurance requirements

Insurance requirements assist international students meet the costs of medical and hospital care you may need while in Australia.

### What is Overseas Student Health Cover (OSHC)?

OSHC is insurance to assist international students to meet the costs of medical and hospital care that they may need while in Australia. OSHC will also pay limited benefits for pharmaceuticals and ambulance services.

### Who has to take out OSHC?

People who must take out OSHC are overseas students undertaking formal studies in Australia and their dependents (for example, spouses and children under 18 years old).

For the purposes of OSHC, 'overseas student' means:

- > a person who is the holder of a student visa (subclass 500);  
or
- > a person who:
  - > is an applicant for a student visa; and
  - > is the holder of a bridging visa; and
  - > was immediately before being granted the bridging visa, the holder of a student visa.

The Department of Home Affairs requires overseas students to maintain OSHC for the duration of time they are in Australia. For further information please visit the [Department of Home Affairs website](#).

### Who doesn't have to take out OSHC?

Belgian, Norwegian and some Swedish students are not required to purchase OSHC as part of their visa requirements. International students on any other visa than a subclass 500 (i.e. another temporary visa) are encouraged to take out Overseas Visitor Health Cover (OVHC) but this is not a visa requirement.

### How do I purchase OSHC?

You can purchase your own OSHC online by visiting insurer's websites. Please ensure it is an Australian OSHC product that you are purchasing, not travel or other medical insurance. You retain the right to choose your own OSHC provider even when your educational institution makes a specific recommendation because they have negotiated a preferred provider arrangement with a particular insurer.

### How much does OSHC cost?

The cost of OSHC varies depending on the type of cover required. The average cost of minimum cover is \$685 for 12 months singles cover, \$2354 for 12 months couples cover, and \$3582 family cover (Australian dollars).

For more information regarding OSHC, please visit the [Australian Government Department of Health website](#).

# How to apply

Ready to start studying? Here's what international students need to know about applying to study at Endeavour College of Natural Health.

**Apply** to Endeavour College online in just a few minutes.

Alternatively, contact one of our current **Education Agents** who can guide you through the enrolment process.

Once you have submitted your online application form, there are a number of steps required from you and our admissions team to finalise your enrolment with us.

## After you apply

### Step 1: Submit certified documents to support your application

You will need to arrange certified copies of the following:

- › Passport
- › All academic qualifications that satisfy course entry requirements
- › Evidence of English language proficiency that satisfy course entry requirements
- › Current visa (If you are already in Australia)

Documents can either be emailed to the College or posted.

Email: [international@endeavour.edu.au](mailto:international@endeavour.edu.au)

Post: **Attn: International Team**  
Level G, 1 & 2 Transport House,  
230 Brunswick Street, Fortitude Valley QLD 4006

### Step 2: Enrolment interview

To finalise your application (and enrol you as a student) we will need to connect with you to talk through your study needs and confirm your details.

This process is called an enrolment interview. Please be assured this process is designed to ensure we understand your needs as a student and that these match what Endeavour can offer.

In addition, we will discuss with you the Inherent Course Requirements of the course you have chosen to study, to ensure you understand the task requirements of the course (and of practitioners in these fields) and that you will be able to meet those requirements.

### Step 3: Offer, written agreement and payment

Once your interview is completed and it has been determined that you meet the entry requirements, the following documents will be sent to you via email:

- › Letter of Offer
- › International Student written agreement
- › International Student Handbook

Upon receiving these documents, you will be required to sign and return the written agreement and make upfront payment of fees as outlined within that document (including enrolment fee, first semester tuition fees and any OSHC fees).

### Step 4: Confirmation of Enrolment (Student visa holders only)

Once acceptance and payment have been received, we will issue you with a Confirmation of Enrolment (COE). This is the document that is required for your student visa application.

### Step 5: Welcome email

You will be enrolled into the subjects as per the course structure and a welcome email including the following information will be sent to you:

- › Orientation details
- › Timetable
- › Student ePortal information
- › Learning Management System (LMS) and free online enabling courses
- › Policies and Procedures

### Step 6: Arrive in Australia and prepare to commence your studies

It is important that you present to your campus as soon as possible after your arrival in Australia, to provide us with a copy of your student visa and your local contact details (as required by your visa conditions, must be provided within seven days of arrival).

Prior to course commencement we encourage you to prepare for your study by studying our online enabling courses, available free on your LMS (ask your Admissions Adviser if you can't find them).

### Step 7: Orientation and course commencement

Orientation normally takes place during the week before your course commencement date. A number of activities during orientation week will be offered to fully prepare you for successful study at the College. It is important that you attend as many orientation activities on your campus as possible, and particularly the international student orientation which will be an online livestream session with our dedicated Student Support Coordinator.

## Credit transfers and prior learning

If you have already studied an Australian qualification or degree, or are currently studying one, you may be eligible for advanced standing towards an Endeavour degree.

Likewise, if you have completed informal learning or a structured course that did not lead to a qualification, you may be eligible for a credit transfer. These options are known as Educational Pathways.

**Find out more about educational pathways.**

### Need more information?

Endeavour's team of friendly Admissions Advisers are on hand to answer any questions and to assist with your enrolment. Call us on 1300 462 887 during the following times:

- › Monday to Friday – 9:00am to 6:00pm AEDST

You can also submit a **Course Enquiry** and we will contact you.

# Ready to take the next step? If a future in natural health is calling, we are here to help!

## Chat with us

Our Admissions Advisers are available to talk you through your course options and study load, as well as answer any questions you may have about enrolling to study. Call 1300 462 887.

## On campus & Virtual Open Days

Join us at one of our upcoming open days where you can tour your local campus, meet the academics, explore the clinic, and chat with our admissions team.

Can't make it to campus? Our virtual open days make it easy for you to explore study life from the comfort of your own home or office.

## Take a campus tour

We'd love to show you around! If you'd like to check out our campus, simply arrange a private tour by calling 1300 462 887.

## Enjoy a treatment in our Wellness Clinic

Experience learning in action at our Endeavour Wellness Clinic – available at all our campuses. We offer a range of natural health treatments at affordable prices.

## Apply now

Decision made? **Jump online** to apply today and one of our Admissions Advisers will be in touch!

### Golden Wattle

---

Australia's national flower, the striking golden wattle has been used for millennia by Indigenous Australians for food, medicine, dyes, and perfumes. It can also be used to improve moods and calm the spirit.
