

BID GUIDE

2029 UCI JUNIOR TRACK WORLD CHAMPIONSHIPS

1 FOREWORD FROM UCI PRESIDENT DAVID LAPPARTIENT

Cyclists worldwide dream of wearing the rainbow jersey of UCI World Champion, a distinction that goes to only the very best of our sport.

Each year, track's Junior athletes have just one chance to win that precious jersey: at the UCI Junior Track World Championships.

The UCI Junior Track World Championships are the discipline's leading annual event for Juniors and are much awaited by athletes and fans alike. To perform to their best, the athletes need to be sure that they can compete in the best possible conditions, which is why the role of the event's host is so important.

The UCI greatly appreciates the interest and commitment shown by potential organisers. In bidding to host the UCI Junior Track World Championships, you have already demonstrated your wish to invest in the future of this discipline and I thank you sincerely for that.

To help simplify the bidding process, we have prepared this concise, practical guide that was prepared after consultation with our various partners. Our aim is to help potential hosts compile a water-tight candidature file that contains all the required elements, for example concerning the competition site, infrastructure, transport, emergency services, accessibility etc.

This bidding guide also answers frequently asked questions such as: What commitments do candidate organisers make? What services does the UCI offer? What are our obligations? What about scheduling and deadlines?

I wish you the best of luck in your bidding procedure and hope that we will be able to come to your city or region with an edition of our UCI Junior Track World Championships.

David Lappartient
UCI President

2 A BIT OF HISTORY

Track is the only cycling discipline to have its own totally separate World Championships for Junior athletes: the UCI Junior Track World Championships.

Since then, the UCI Junior Track World Championships have been held in many different countries on all five continents, demonstration of the international appeal of this discipline.

The UCI Junior Track World Championships have become a prestigious springboard for future Elite champions. Many teenagers who have graced the podiums at the Junior World Championships have gone on to shine at the Elite UCI Track World Championships and Olympic Games.

Speed, excitement and intensity are the DNA of track and Junior racing is no exception. More than just a sporting event, it is a true show for the many spectators attending.

The diversity of the event attracts a large audience, with endurance and sprint, individual and team races ensuring an electric atmosphere throughout. The grandstand's proximity to the track brings the public to the heart of the event.

These tiers will be reflected accordingly in all the event's communication and visual material. The digits indicate the potential number of partners (of both the UCI and the Organiser) at each level. The percentages represent the approximate share of marketing and sponsorship rights each level will be entitled to.

The UCI reserves the following products/services categories for its partners. Please kindly note that the below categories are subject to contract renewals and may be subject to changes. A detailed overview may be provided by the UCI upon the Organiser's request.

APPENDIX L: EVENT LEGACY

DEVELOPING CYCLING IN YOUR CITY

Hosting a UCI event provides the perfect platform for promoting the development of cycling in your city.

- Do you want to promote your region/city as a bike-friendly environment?
- Do you wish to develop tourism in your area and encourage your citizens to use bikes as a means of transport?

Hosting a UCI event will provide a concrete translation of your ideas and plans. The UCI can support you as you build a strategy to develop cycling: we can provide you with ideas and benchmarks from successful initiatives around the world to help you to reach your goals.

We share the same target: to develop cycling!

Cycling is more than a sport, it is the answer to many concerns of our society: public health, environment, traffic...

UCI BIKE CITY LABEL

In order to promote cities and regions that invest in cycling, the UCI has created a "UCI Bike City Label". This label will distinguish cities active in two areas:

- Hosting a UCI event
- Developing cycling within its population.

Hosting a UCI event will provide a concrete translation of your ideas and plans. The UCI can support you as you build a strategy to develop cycling: we can provide you with ideas and benchmarks from successful initiatives around the world to help you to reach your goals.

The city/region will be entitled to use the label over a five-year period.

The label will be awarded each year during the UCI Road World Championships. A communication plan dedicated to the winners will be established through the UCI's various communication channels.

APPENDIX M : SUSTAINABILITY

The UCI has the vision to make cycling one of the world's most sustainable sports and promote the bicycle as a key transport mode in combating climate change, improving population health and building a more sustainable future for all.

We invite all organisations operating within the sport of cycling to sign the [*UCI Climate Action Charter*](#) and make a public commitment in solidarity with the UCI to reduce the sport's environmental impacts, advance the United Nations Sustainable Development Goals, and advocate for more everyday cycling.

The UCI requests that all UCI World Championships and UCI World Cup event organisers, as a minimum, take the following actions:

- 1. ENGAGE RELEVANT STAKEHOLDERS:** The strategic value of sustainability comes from involving stakeholders in identifying, understanding, and responding to sustainability issues and concerns. It also allows for the pooling of resources (knowledge, people, money, and technology) to solve problems and reach objectives that your organisation cannot achieve on its own.
- 2. MEASURE & REPORT:** Provide a credible account of the event's environmental impacts through collecting Scope 1, 2 and 3 emissions data to produce a carbon footprint, publish results of actions, and share lessons learnt with the UCI, other event organisers and the wider public.
- 3. AVOID & REDUCE EMISSIONS:** Prioritise opportunities to avoid carbon emissions. Introduce hierarchies that prioritise resource efficiency in energy use, waste, transport, materials and working practices to reduce the event's carbon footprint.
- 4. PROMOTE ACTIVE TRAVEL:** Activate all communication channels to engage local communities, spectators, media, and the wider public on the bicycle's important role in climate action and sustainable development. Encourage spectators, event workforce and other stakeholders to travel to the event by bike, active mobility and public transport.
- 5. ALLOCATE APPROPRIATE RESOURCE:** Ensure people have the right knowledge and time to plan for sustainability interventions. Where specific technical skills or responsibility for sustainability is required, ensure this is accounted for in staffing requirements.
- 6. IMPLEMENT A SUSTAINABLE SOURCING CODE:** This should set out the minimum standards expected within your supply chain – for example the types of materials, energy and transport standards you expect. By ensuring climate impact is considered as part of a sourcing code you can embed better standards from the start.
- 7. BIODIVERSITY:** Take action to address the pressures affecting biodiversity, climate change, pollution, waste management, invasive species and the overexploitation of natural resources. Raise awareness about biodiversity, its values to people, links to the sport, and the importance of conservation through communication and the media.

Detailed guidance on developing effective sustainability programmes and best practices for event organisers can be found in the [*UCI Sustainability Guidelines*](#). For further information, guidance and links to online resources to support these actions, please visit the UCI's [*Sustainability Hub*](#) as well as the [*UCI Sustainability Impact Tracker*](#).
