UCI PRESIDENT'S WELCOME MESSAGE

The 2024 UCI Road and Para-cycling Road World Championships will mark a first for our sport.

Never before have we combined our UCI World Championships for road and para-cycling road into a single, two-fold event.

For the first time in cycling's history, the world's elite para-cyclists and cyclists will compete on the same roads and share the same finish line. In total, 66 titles of UCI World Champion will be awarded over nine days of racing.

These unprecedented UCI World Championships in Zurich obviously entail some logistical challenges and I take this opportunity to thank and congratulate the Local Organising Committee and its partners for ensuring all the athletes can compete in the best possible conditions.

The national delegations coming to Switzerland for this event will be larger than when the UCI Road World Championships and UCI Para-cycling Road World Championships are held separately, and I sincerely thank the National Federations for their commitment and motivation facilitating the participation of their athletes in Switzerland.

Our regular Chefs de Mission meetings have been tremendously useful for going over different aspects of the event with participating nations. In addition, we have produced this Technical Guide, a concise document which contains all the necessary information for your stay during the competitions.

From 21 to 29 September the best in the world will battle it out on the roads of Zurich. I wish you all the best for your final preparations, and look forward to seeing you at the 2024 UCI Road and Para-cycling Road World Championships.

David Lappartient
UCI President

ZURICH WELCOMES THE WORLD

Together we ride!

The whole of Zurich will be getting on their bikes in 2024. The 2024 UCI Road and Para-cycling Road World Championships will make history from 21-29 September this year. 66 times the winners will be able to put on the coveted rainbow jersey, cheered on by tens of thousands of fans from Switzerland and abroad.

The first-time integration of the para-cycling competitions into the Road World Championships for regular athletes will allow para-cyclists and non-para cyclists to ride some of the same routes and cross the same finish line. Individual time trials, team competitions and finally the elite road races will bring the UCI Road and Para-cycling Road World Championships to the people and the thrilling finale at Sechseläutenplatz in Zurich. **TOGETHER WE RIDE!**

On behalf of its governing bodies, the Canton and the City of Zurich, and in close cooperation with UCI, the Local Organising Committee is pleased to provide you with detailed information on this global cycling event. The finalised race programme with the start times, the exact race routes with the corresponding GPX files as well as numerous other pertinent details on formalities and procedures will allow all participants to thoroughly prepare for this great rendez-vous of international road cycling.

ARTICLE 3 - RADIO TOUR

Each Nations Vehicle will be provided with a pre-programmed Race Radio prior to the event which will remain in the vehicle for the duration of the event.

ARTICLE 4 - NEUTRAL SERVICE

TIME TRIALS

- Shimano's Neutral Service will be present with 6 cars during all time trials.
- Shimano will provide both the driver and the mechanic to each neutral car. Riders followed by Shimano may be accompanied by one staff member in Shimano's neutral car. The back seat is the technical area and reserved for the mechanic and materials.
- Riders followed by Shimano can hand over one complete spare bike before the start. The neutral car will carry it during the race.
- Shimano will provide spare wheels for various drivetrain brands as well as spare bikes in various sizes equipped with different pedal systems during the races. All spare bikes feature a dropper seat post to adjust the saddle height.

- All bikes need to be race-ready. Shimano's Neutral Service can help with small adjustments if required. Neither major adjustments to the bike nor a full reassembly of bikes can be conducted by the Neutral Service before the race.

ROAD RACES

- Shimano's Neutral Service will be present with 4 cars and 2 motorbikes during all road races.
- Each of the Neutral Service cars will carry
 - 6 spare bikes in various sizes equipped with different pedal systems. All spare bikes feature a dropper seat post to adjust the saddle height.
 - Spare wheels for various drivetrain brands and with different cassette specifications (11 speed, 12 speed).
 - Spare wheels for rim brakes and disc brakes (140mm, 160mm).
 - Bidons (water), gels and bars.
- All bikes need to be race-ready. Shimano's Neutral Service can help with small adjustments if required. Neither major adjustments to the bike nor a full reassembly of bikes can be conducted by the Neutral Service before the race.
- Riders who have received support by Shimano's Neutral Service during the race must return the Shimano equipment immediately after the race finished. Please find the Shimano team on the team parking close to the finish.
- Shimano's Neutral Service car behind the jury president will stay in position until the finale of the race. Riders that require support by the neutral car before the finale will be helped by the Neutral Service car at the back of the race convoy.
- The general protocol dictates that if a team car is following their rider(s), it falls under the team's responsibility to provide assistance to their respective riders. The Shimano Neutral Service, on the other hand, is prioritized for riders who do not have access to a team car.
- To the team managers: Please respect the position of the Neutral Service car in the race convoy.

FEDERATION SUPPORT IN ROAD RACES

- In addition to the 4 Shimano branded Neutral Service cars, 2 UCI Road World Championships branded LOC cars staffed with a Shimano driver and a Shimano mechanic will support appointed federations during the road races. These cars are equipped with the materials as listed above. For fairness reasons to all appointed federations, no personal equipment of riders can be carried by these two cars. For the same reason, it will not be possible for any federation staff to join these 2 cars during the race.
- The federations that are appointed to these 2 cars are requested to pro-actively share their riders' material specifications with Shimano's Neutral Service before the start of the race. This concerns the riders'
 - pedal brand
 - brake specifications (rim/disc brake, if disc brake: rotor size front and rear wheel)
 - drivetrain brand and cassette specifications (11 speed or 12 speed)
 - method used to close the wheel

A cool down area will be set up for the Men that are waiting for the Women finishing the race. All Men's teams must go to this cool down area and will not be allowed to leave it until their women teammates have crossed the finish line.

Team Managers shall inform the riders and team assistants of these arrangements.

CONFIRMATION OF STARTERS

You will need to produce your UCI race license at this meeting and bring racing kit to be checked by the Chief Commissaire. Team Managers may do this process on behalf of their team, providing they have all athlete's licenses and kit.

TEAM MANAGERS MEETING

The team managers meeting is an important pre-race activity that will provide competing athletes and their team managers with key information about technical rules and event procedures. The technical briefing will equip team managers with vital information required to support their athletes on event day. It is compulsory for each participating nation to have at least one representative from their team staff present. At the conclusion of the meeting, bib numbers, transponders and car stickers will be distributed.

At the 2024 UCI Road and Para-cycling Road World Championships, para-cycling will have 2 team managers meetings as highlighted earlier in the document.

Any questions regarding classification should be directed to classification@uci.ch.

START LIST

Provisional start lists will be available at the Event Information Point. The definitive list of starters will be available after the team manager's meeting.

H and T class riders are required to use the safety bar for both Individual Time Trial and Individual Road Race.

VEHICLE ACCREDITATION

Any team or support vehicles who wish to utilize the official team parking and/or access the field of play must submit their vehicle details during the accreditation process.

Your vehicle will be turned away from official event spaces if it does not have a Vehicle Accreditation.

PARKING INFORMATION

- No parking will be available in the at the Sechseläutenplatz for Para-cycling teams. Teams will be assigned a permanent team area under the Parkhaus Opera for team equipment and working areas. Teams will be able to unload and set up all team equipment in this underground parking for the duration of the championships. Vehicles will be permitted to unload but must then use the remote parking.
- Remote and long term parking will be offered at Bahnhof Tiefenbrunnen (approximately 1.5km from Sechseläutenplatz) for the duration of the championships for para-cycling nations to park team vehicles. With the exception of following cars in individual time trial competition, all para-cycling team vehicles should be used to drop off athletes and staff and then parked at the remote parking area for the day. Trams and buses run regularly between Sechseläutenplatz and Bahnhof Tiefenbrunnen.

RACE ROUTE MANAGEMENT

A large fleet of police and safety motorcycles will operate during official training and competition times to ensure the safety of all athletes involved. This means you may see more race management vehicles than you are used to, including broadcast camera motorcycles.

Shimano will provide neutral service that will be available. Basic repairs will be available but will not be available for structural repairs. A list of equipment in the neutral cars will be provided prior to the race.

TEAM CARS

Team cars are permitted to follow athletes during the time trials. Drivers must have a UCI license as well as a driving license or international driving license valid in Switzerland.

NO team cars are allowed in the road race convoys. Teams can service riders at the feed zone on the road race course. If neutral service is unable to get an athlete back on the road, a broom wagon service is available to get athletes and their machines back to the start / finish.

POST-RACE

Finish Line Process – once an athlete finishes their race, they are required to pass through the Media Mixed Zone where they may be interviewed by Media / TV, which will be managed by UCI Media Team. Upon leaving the Mixed Zone, athletes will be directed to team parking, anti-doping or victory ceremony waiting area. Chaperones will be on hand to assist in this process.

A hot spot will be run for all para-cycling Individual Time Trial Races. Provisional leader of each race of the respective class will be required to take a place at the dedicated area according to their placement.

Ceremonies will run from almost immediately after the race to a few hours after race finish depending on the competition day. We ask that team staff be prepared to bring day wheelchairs or athlete personal needs to the medal area should the ceremony be within 45 minutes after competition. Medalists without immediate medal ceremonies will be asked to return to the ceremony area 30 minutes prior to their scheduled ceremony time. Please note on many days the Plaza will be very crowded and it will take time to cross the plaza and accreditation areas. Please plan to arrive early in all situations.

ANTI-DOPING

Anti-Doping controls will be in place at competition venues. Athletes who are requested to attend anti-doping will be notified upon completion of their race and chaperoned to the relevant area.

AWARD CEREMONIES

Award Ceremonies times will be posted on the final schedule.

SAFE DRIVING

All drivers representing National Federations in the race convoy at UCI Road and Para Cycling World Championships must have a UCI License issued by a National Federation and are obliged to respect the UCI Regulations as well as the current guidelines for vehicle circulation. The UCI License must include the necessary third-party liability insurance in case of material damage or injury to others, which must be valid in all countries where the license-holder is likely to perform his/her duties.

Drivers are required to have an in-depth knowledge of cycle racing and its regulations as well as experience and ability to anticipate a wide range of race situations. It is the National Federations' responsibility to ensure that their drivers have the necessary experience to drive in the race convoy at the UCI Road and Para-Cycling Road World Championships.

Drivers are responsible for the manner in which they drive; if they fail to observe the regulations, they face significant financial penalties as well as the suspension of their UCI License (as a driver and any other role they may have). The sanctions related to driving in the race convoy are defined by Articles 2.2.038 and subsequent of the UCI Regulations.

To drive an official vehicle in Switzerland it is mandatory to either have a driving license in the language of German, French or Italian or otherwise have an international driving license. An identity card or passport by the National Federation have to be provided as well. For more information on how to apply for an international driving license, please refer to: internationaldrivingpermit.org/how-to-apply.
