BAMBOO Handle Crochet Hooks

The sleek aluminium and comfortably shaped bamboo handles of these beautiful crochet hooks provide a brilliant combination. They feel wonderful to work with and are the perfect solution for those who love the tactile appeal of wood but prefer to crochet with a metal hook. These hooks are comfortably light and won't tire your hands or wrists, even after hours of knitting. Made from fast growing, sustainable bamboo which is exclusively sourced in India, the handles are manufactured naturally without the addition of chemical brighteners.

Pack size 1

These BAMBOO handle crochet hooks combine the ease of smooth metal with the comfort of an elegant bamboo handle. Bamboo absorbs the skin moisture and does not give an electrostatic charge which makes them very popular for people suffering from rheumatism or allergies.

**A one-off feeling
in crochet**

Pony BAMBOO handle crochet hooks are especially helpful for those with arthritis or repetitive strain injury as these hooks warm hands for extra ease while you crochet.

EASY GRIP Crochet Hooks

Let your customers discover the joy of crocheting with Pony crochet hooks. The slightly tapered hook and perfectly shaped point will make it easy to get into the stitches and at the same time prevent splitting the yarn. Packed in an attractive and plastic-free gift box these hooks will delight every crocheter.

PONY

THE ENVIRONMENT-FRIENDLY SOLUTION!

We proudly present our next packaging alternative: PONY JUST JUTE® needle cases made from one of the world's most natural fibres and, with the environment in mind, without any additional outer packaging.

PONY JUST JUTE® cases can lead to a sustainable and efficient fight against plastic consumption, with the added benefit of reducing carbon dioxide emissions, lowering our carbon footprints, and finding new and alternative resources to fight climate change. As the method used for processing Jute has barely changed in a century, the cases are made with no chemicals and are completely biodegradable.

PONY JUST JUTE® cases are sturdy and customer-ready. They can be casually stored in boxes, bags and drawers with no worries on pins escaping. A true plastic-free and space-saving storage for every environmentally conscious knitter.

Fresh jute plant with vibrant green leaves grown in Bengal, India. The jute plant has an extremely low carbon footprint and is an amazing crop for the environment as the plants are rain fed and require no pesticides, or fertilisers, or irrigation.

After separating out the fiber from the plant, the fibers are dried in the sun. Jute stores a high amount of carbon and releases large quantities of oxygen into the air, even more than some trees do!

Jute, the crop from heaven

Bundles of dry jute are sent to textile factories and jute weaving mills. Jute weaving is as old as the ancient civilization of the Indus Valley and is mentioned in Sanskrit texts, the world's oldest language recorded.
