Environmental precautions:

Do not allow to penetrate into soil, waterbodies or drains.

Methods for clean-up:

Isolate leaked material using non-flammable absorption agent (e.g. sand, earth, vermiculit, diatomaceous earth) and collect it for disposal in appropriate containers in accordance with the local regulations (see section 13). Never return spills in original containers for re-use.

Additional information: Special danger of slipping by leaking/spilling product.
