WE ARE VELOCITI

Velociti is the leading provider in IoT (Internet of Things) and automotive technology services which we deliver anywhere our clients are located.

We deploy technologies around the world such as vehicle/DOT log book tracking, tractor/trailer smart sensors, in-vehicle camera safety systems, to self-driving enhancements.

Wherever a solution is needed in the industry a Velociti technician can be deployed to service and maintain those various types of vehicles and equipment.

TECHNICAL CAREERS

NATIONWIDE INSTALLATION TECHNICIANS

Come travel the USA (and world) servicing a vast array of new and existing customers equipment. Each customer and product has various technology solutions that create a fast pace and exciting work environment.

Nationwide technicians require the ability to travel for extended durations and benefit from various company supplied travel programs.

VELOCAL TECHNICIANS

Through the Velocare Warranty Program, Velociti offers many regional positions that service existing customers who wish for a technician to maintain the health of their technology. This will include troubleshooting equipment, de-installing or newly installing products, and upgrading various fleet solutions.

Velocal technicians work within a dedicated region. While some overnight travel is required, these regional positions allow for more time at home and include various company travel programs.

COMPENSATION

Velociti's competitive wages for technicians are at the top of the IoT industry. Additional incentives include yearly bonuses, overtime, and company provided travel programs and allowances.

TECH TRAVEL BENEFITS

At Velociti our company is focused on eliminating the struggles industry techs face with travelling logistics. While our technicians service customers across the country, we offer them a full suite of travel programs to keep them agile and burden free.

Our travel programs work with all lodging and airline points systems so when a tech books travel through us, they keep their points!
