1. Bob Hassler's "T" roadster features 1000 HP turbo-mill up front. Middlebrooks photo.
 2. John Rose kneels beside Turbonique's 1000 HP turbo-axle. Middlebrooks photo.
 3. Jack McClure's 1000 HP turbo-Chevelle goes into orbit over Florida. Middlebrooks photo.
 4. Jack McClure's turbine equipped Chevelle with racing colors applied. Middlebrooks photo.
 5. Jack McClure's turbo "SIZZLER" smogs NHRA's Tampa dragway. Ken Weddle photo.
 6. Harrison Arthur's "OZARK MULE" comes to life as he sparks 1000 turbo horses. L & M Films photo.
 8. Turbos tangle at AHRA Super Funnies. Gene Canham was King: 162.48. George Houraney photo.
 9. Gas Turbine Advertisement. Turbonique, Inc., 20 N. Kent St., Orlando, Florida 32806.
 10. "TURBO-SONIC" strips skin to display its 360 HP turbine engine. Barris photo.
 11. "TURBO-SONIC" built by George Barris for Walter Brennan T.V. series. Barris photo.
 12. Rauth & Venetti take class at Phoenix Winter Nationals with turbo "PEGASUS." Rauth photo.
 13. Turbonique's 500 HP turbine coupled to 6-spline early Ford axle. Middlebrooks photo.
 14. Marlow Treit's 3-wheel "MISS DEMEANOR" with 360 turbo horses. Pete Sukalac photo.
 16. Chain driven 170 HP Kart hits 170 MPH in quarter. Middlebrooks photo.
 18. World record setter "TURBO-STANG" eliminates the "X-1 ROCKET CAR." Costilow photo.
 19. This Jaguar owner says: "It's not what's up front that counts." Middlebrooks photo.
 20. Marine mills: 360 HP counter-rotating mates.—500 HP with B.W. box.—7 HP surfboard special.
 21. Carl Richardson's Turbo-Hydro hits 131 MPH on first run at Lake Ming. Rod Flint photo.
 22. The old Evenrude was livened up with a 170 HP turbo-head transplant. Middlebrooks photo.
 23. Designer Gene Middlebrooks poses with his 105 HP turbo-prop creation. Middlebrooks photo.
 24. Gaucho Middlebrooks corrals five thousand wild ponies. Middlebrooks photo.
 25. Hassler's Turbine "T" takes AHRA title at New York National Speedway. Super Stock photo.
 26. Turbine VW "BLACK WIDOW" challenges Tommy Ivo's "SHOWBOAT." Middlebrooks photo.
 28. "SHOWBOAT" accepts "BLACKWIDOW" challenge at NHRA's Tampa dragway. Middlebrooks photo.
 30. Ribbon chute slows turbo-beetle from a 183 MPH flight. Middlebrooks photo.
 31. How to install a 360 HP turbine on a 4-speed VW transaxle. Middlebrooks photo.
 32. George Hutcheson making a 209 MPH blast in "U.S. TURBINE I" dragster. L & M Films photo.
 34. Joe Mazza lets it all hang out in his latest turbine dragster. Paul Wasilewski photo.
 35. American-LaFrance fire pump with a hot turbine for a hot business. Middlebrooks photo.
 36. Just the thing for Junior! A 105 HP Kart red lined @ 92,000 RPM. Middlebrooks photo.
 37. Roy Hamilton's turbine bike makes 10.46 run at Fontana on half-throttle. Drag Racing photo.
 38. Henry Oaks turbo-prop kart develops 1350 lbs. thrust for 3 g. acceleration. Middlebrooks photo.
 40. General turbine educational test stand, solid and liquid fueled. Middlebrooks photo.
 42. Turbonique invades Winter sports with 105 HP turbine powered "SKI-DOO." Middlebrooks photo.
 43. A 170 HP turbine that can rev to 100,000 RPM without blowing. Middlebrooks photo.
 44. Three wheel "FREEDOM" turbo-dragster by Safety-Fast Equipment Co. Pete Sukalac photo.
 45. Two engines too much—lifted at 190 MPH for one only-strip trip. Bob Rauth photo.
 46. Joe Mazza waits for the green in his turbo-rail "PSYCHODELIA." Paul Wasilewski photo.
 47. George Hutcheson imitates "APOLLO" re-entry with "U.S. TURBINE I." Alan Earman photo.
 48. Walley Bishop at blast-off in 100 MPH twin-jet "AQUAKART" hydro. Middlebrooks photo.
 50. Giant killer Jack McClure in the world's fastest (162.34 MPH) kart. Middlebrooks photo.
 51. "AUTO JATOS" add 50 MPH to top end: GTO top, Toyota bottom. Middlebrooks photo.
 52. Jack McClure and Tommy Ivo give their machines a pre-flight check. Middlebrooks photo.
 53. Jack McClure takes on T.V. Tommy Ivo's "AA" fueller with "JET KART." Ken Weddle photo.
 54. Anyone for flying? V.T.O.L. is powered by Turbonique's T-16-A thruster. Middlebrooks photo.
 55. Jet engine advertisement: Turbonique, Inc., 20 N. Kent St., Orlando, Florida 32806.
 56. "Formula J" kart guaranteed to travel 1620 feet in 10 seconds or less. Middlebrooks photo.
 57. David Bennet's "JET CYCLE" uses twin T-16 jets on Greeves frame. D. Bennet photo.
 58. Top—Turbonique T-16-A jet. Bottom—Turbonique jet engine specifications. Middlebrooks photo.
 59. "TOO MUCH" jet kart will accelerate 0-150 MPH within 4 seconds. Middlebrooks photo.
 60. Top—Turbonique C-2-A turbocharger. Bottom—2HP/cu.in. Monza. Middlebrooks photo.
 61. Turbocharger advertisement: Turbonique, Inc., 20 N. Kent St., Orlando, Florida 32806.
 62. Turbonique's turbocharger family and Turbonique turbocharger specs. Middlebrooks photo.
 63. Sunny Hayes' "STREET CUDA" packs a 273 cubic inch, 578 HP blown mill. Middlebrooks photo.
 64. Turbonique's Model S-4-A Microturbo sectional cutaway drawing. Middlebrooks photo.
 65. Turbonique gas turbine specifications.

“Piston engines just don't make sense on the dragstrip anymore”

Gene Canham said it. And he knows.

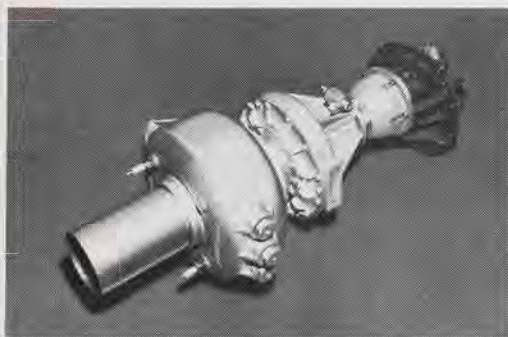

Gene knows because he's been running on Turbonique power since 1965. Making hundreds of smoking, crowd-pleasing exhibition runs. Turning record-breaking competitive speeds.

Piston engines don't make sense, Gene says, because “They're too damn expensive for me.”

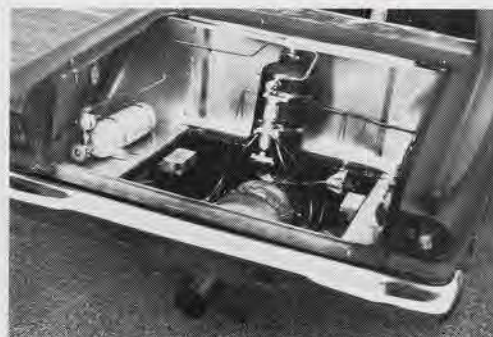

Before going turbine, Gene had to rebuild his piston engines after every 6 to 8 runs, just like everybody else. Since going turbine, he hasn't spent penny one on engine repairs.

He hasn't spent a penny because his 1,000 hp, axial-flow turbine engine is covered by a 5-year factory warranty on all parts and labor. And it gave him more hp per buck to begin with than any other competition engine he could buy.

If spending less and winning more means something to you, join Gene Canham in the ranks of the new-breed professionals. The Turbonique new-breed professionals.

Gene's 1,000 hp, axial-flow turbine develops 1,030 ft. lbs. of torque at stall; 730 ft. lbs. at 7200 rpm.

Gene's complete turbine power installation is simple, lightweight. There's nothing under the hood. All weight is over the rear wheels — where it's needed.

Gene turned the world's fastest 1/8th mile (132 mph) at the AHRA Nationals on July 9, 1967.

Get the latest word on our turbine engines, booster axles and self-powered superchargers. Order our new 52 page catalog now.
