

# Ring Retrofit Alarm Kit

Bring your existing hardwired contact sensors into your Ring of Security.

Ring Alarm Retrofit Kit is a wired-to-wireless home security solution that connects your existing hardwired contact sensors to Ring Alarm, allowing you to control them via the Ring app. When one of your existing hardwired contact sensors is triggered, your Alarm will sound (if armed) and you'll get an instant alert on your smartphone or tablet, wherever you are. And, with Ring Protect Plus, customers can take advantage of 24/7 professional monitoring for Ring Alarm for just \$10 per month with no long-term commitments or hidden fees.

- **Wire up to 8 contact sensor zones with one Retrofit Alarm Kit.**
- **Get alerts directly from the Ring App.**
- **Optional 24/7 professional monitoring for Ring Alarm.**
- **Compatible with iOS and Android devices.**
- **Linked Devices allows easy connection to Ring Doorbells and Cams.**
- **Set your Ring Alarm to Disarmed, Home, or Away all from the Ring app.**
- **Professional installation recommended (but not required).**

\*Existing wired contact zones must be in good working order.

\*Requires the Ring Alarm Security Kit (sold separately).
