Beautiful bathrooms begin here.

At Reece, we know how important it is to have a beautiful bathroom that works for your life. That's why we've partnered with Tanya Buchanan, and the team at Australian House & Garden, to inspire you with five trends that will help kick off your bathroom build or renovation journey.

“WE HAVE IDENTIFIED FIVE TIMELESS TRENDS THAT WILL HELP TO DRIVE YOUR INSPIRATION INTO ACTION.”

I love the everyday luxury of a well-designed bathroom - a place where you can gather your thoughts and prepare the best version of yourself for the day ahead, or perhaps just spend some time meditating or practising mantra affirmation! Getting our day off to the right start in a thoughtfully conceived space benefits our mental health. Good design definitely makes life better.

Designing and renovating bathrooms can seem daunting. Like all considerable investments, we want to know that we have done our research thoroughly, scoped the available choices and selected quality that will last. I should know - I have renovated many bathrooms and am currently working on an ensuite bathroom refresh. I am trying to fit new pieces into an existing plan, which takes time and patience!

The Reece and *Australian House & Garden* teams have designed this booklet to simplify the bathroom design process and make planning enjoyable and easy. We have identified five timeless trends that will help to drive your inspiration into action. Contemporary Classics features timeless finishes with statement pieces such as pendant lighting or wall sconces and bespoke joinery, while Modern Australian channels our beautiful natural landscape and brings in the soft greens and blues of the bush and the coast. Wellness Sanctuary (my favourite, and often featuring a freestanding bath!) is perfect for a rejuvenating magnesium soak or a place to zone out, mask on face and book in hand. White on White is another fabulous choice for a bathroom - I love clean white surfaces, and they certainly don't have to be boring when you incorporate texture with tiles and tapware. Finally, at the other end of the spectrum is Colour Drenching. It's an excellent way to enhance the bathroom space, as well as layering tone and texture. The selections available now make it possible to complement Colour Drenching with an extensive range of fixtures and fittings. We predict we will see many elegant and subtle designs in Pantone's colour of the year, Mocha Mousse.

We hope you enjoy the following pages, a great starting point for your bathroom design journey. The team at Reece is incredibly experienced and enjoys a wealth of product knowledge, so make sure you talk to one of their experts when you are in store to ensure you achieve your dream bathroom.

COLOUR DRENCHING

Soak up the new monochrome – not black and white, but a celebration of one favourite colour. Think calming blues and greens, or variations on Pantone’s colour of the year: the delectable Mocha Mousse, revealed here. And, if you’re feeling brave, go moody and dark while including tonal shifts for intriguing variety. This hue of the moment is complemented by brushed bronze tapware and vanities in oak or travertine.
