# LivingHome Finishes

plant<sup>®</sup>  
P R E F A B

# Make it yours.

This lookbook includes the finishes, fixtures, appliances, and smart home technology available for most LivingHomes. Base-level options have been carefully selected for quality and sustainability, and many categories also offer upgrade, luxury, and luxe sustainable options for additional cost.

We're always discovering new products to add to our collection, and appliance manufacturers are constantly unveiling new technology. Rest assured that when it's time to finalize your design we'll guide you to the newest and best options for your style and budget. And as always, if there's a material or appliance you don't see that you'd like to use, we'll happily work with you on a custom design solution.
