## POOL FENCE STYLES

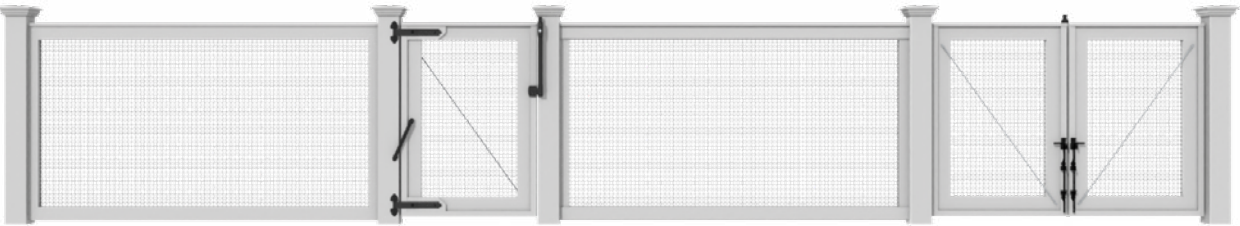

A swimming pool is often the focal point of a backyard oasis—and, ultimately, so is the fence that surrounds it. Walpole’s fencing products provide an elegant solution for integrating the pool into the home’s landscape plan while maintaining safety as the primary consideration. Our experienced design consultants work with each customer to determine the right pool fence to create a safe, functional, and aesthetically pleasing pool enclosure.

Our pool fence program offers four distinctive collections, from classic to contemporary designs, with several customization options available. Customers begin by selecting the fence collection, material (if applicable), and color. Customization options are available for color, post caps, and some optional code-approved add-on items such as equipment enclosures and poolside pergolas.

**Walpole Outdoors expertly designs, builds, and installs pool fences to code height; however, the customer is responsible for verifying local building codes for specific requirements regarding pool fence height, material, and installation.**
