## THE WALPOLE OUTDOORS DIFFERENCE

A Walpole Outdoors driveway gate is more than an entry—it's a statement of craftsmanship, engineered to perform beautifully for decades. We fabricate each gate in-house using premium materials selected for strength, stability, and longevity. Because every property is unique, our design team works with you to tailor proportions, details, and automation options so your gate feels perfectly at home with your architecture and landscape.

- 1 Gate frames are constructed from 2" square galvanized steel tubing for strength and durability. Barrel hinges feature 1" diameter stainless steel with integrated grease fittings and ball bearings to ensure smooth, reliable operation. Hinges are 1" diameter threaded hook bolts to allow adjustability in the field.
- 2 All exposed steel is corrosion resistant stainless steel.
- 3 Frames are laminated with C-PVC and fastened with stainless steel fasteners.
- 4 C-PVC gates are factory painted with a baked-on finish for maximum results.
- 5 CAD drawings are prepared for customer approval prior to fabrication.
- 6 Signature and custom designs are available to meet multiple price points and aesthetics.
- 7 Custom wood gates are available.
- 8 Steel pillar cores are 4" sq and 6" sq x 3/16" wall galvanized steel.
- 9 Hook bolts are set in to a 1" diameter coupler nut assembly welded through the steel post core.
- 10 Steel core can be fabricated for direct set into a concrete footing or include a 1/2" x 12"sq welded steel flange to set onto a footing to meet all installation requirements.
- 11 Gates are installed by our trained, certified crews, ensuring the job is completed with precision, care, and lasting quality (within our service areas).
- 12 We offer a comprehensive annual maintenance plan to keep the gate operating smoothly and reliably.

## TRADE COORDINATION

A successful drive gate installation depends on thoughtful coordination between multiple trades—from electrical to masonry and landscaping. Planning ahead ensures the operator, power supply, access controls, and gate structure all work seamlessly together, resulting in a smooth installation and reliable long-term performance.

This coordinated approach ensures the system performs properly and meets local building and safety requirements.

### Masonry / Landscaping

Installation of steel masonry cores

### Electrical

Connect customer to control boxes

### Telephone/AV

Connect telephone entry in house

### Security

Confirm security requirements

Universal Drive Gate with Scallop Top

## GATE OPERATOR SYSTEMS

Selecting the ideal driveway gate operator system is a balance of performance, aesthetics, and site-specific requirements. Whether above-ground or in-ground, each solution is designed to deliver dependable operation while complementing the design of your entrance. With thoughtful consideration and expert guidance, the right system will provide both lasting functionality and a refined, cohesive look.

### FAAC 400 EG Above Ground Double Swing

Powerful above-ground solution ideal for large swing gates with strong, reliable performance

### FAAC 750 Inground Double Swing

Powerful in-ground automation for smooth, discreet gate performance

### FAAC 844 Single Rack & Pinion Slide

Reliable sliding gate automation for secure and seamless gate movement

FEATURE	FAAC 400 EG Hydraulic Above-Ground	FAAC 750 Hydraulic In-Ground	FAAC 844 External Slide Gate
Gate Type	Swing (double)	Swing (double)	Sliding
Installation	Above-ground (visible arm)	In-ground (fully concealed)	External (rack & pinion motor)
Aesthetic Impact	Visible hardware	Virtually invisible	Visible operator
Drive System	Hydraulic	Hydraulic	Gear motor
Locking	Hydraulic (open/closed)	Hydraulic (open/closed)	Mechanical/self-locking motor

Universal Drive Gate with Gooseneck

Wenham Access Pillar

## ACCESS SYSTEMS

Driveway gate access systems combine advanced technology with intuitive design to deliver secure, effortless entry to your property. From keypads and remote controls to intercom and smart access solutions, each system is thoughtfully integrated to provide both convenience and confidence in every arrival. We've selected the two options below specifically for their proven performance and reliability.

### Praetorian Guard

IP-4G Video Advanced Cellular Entry System

### DoorBird

Smart IP Video Intercom with App Integration

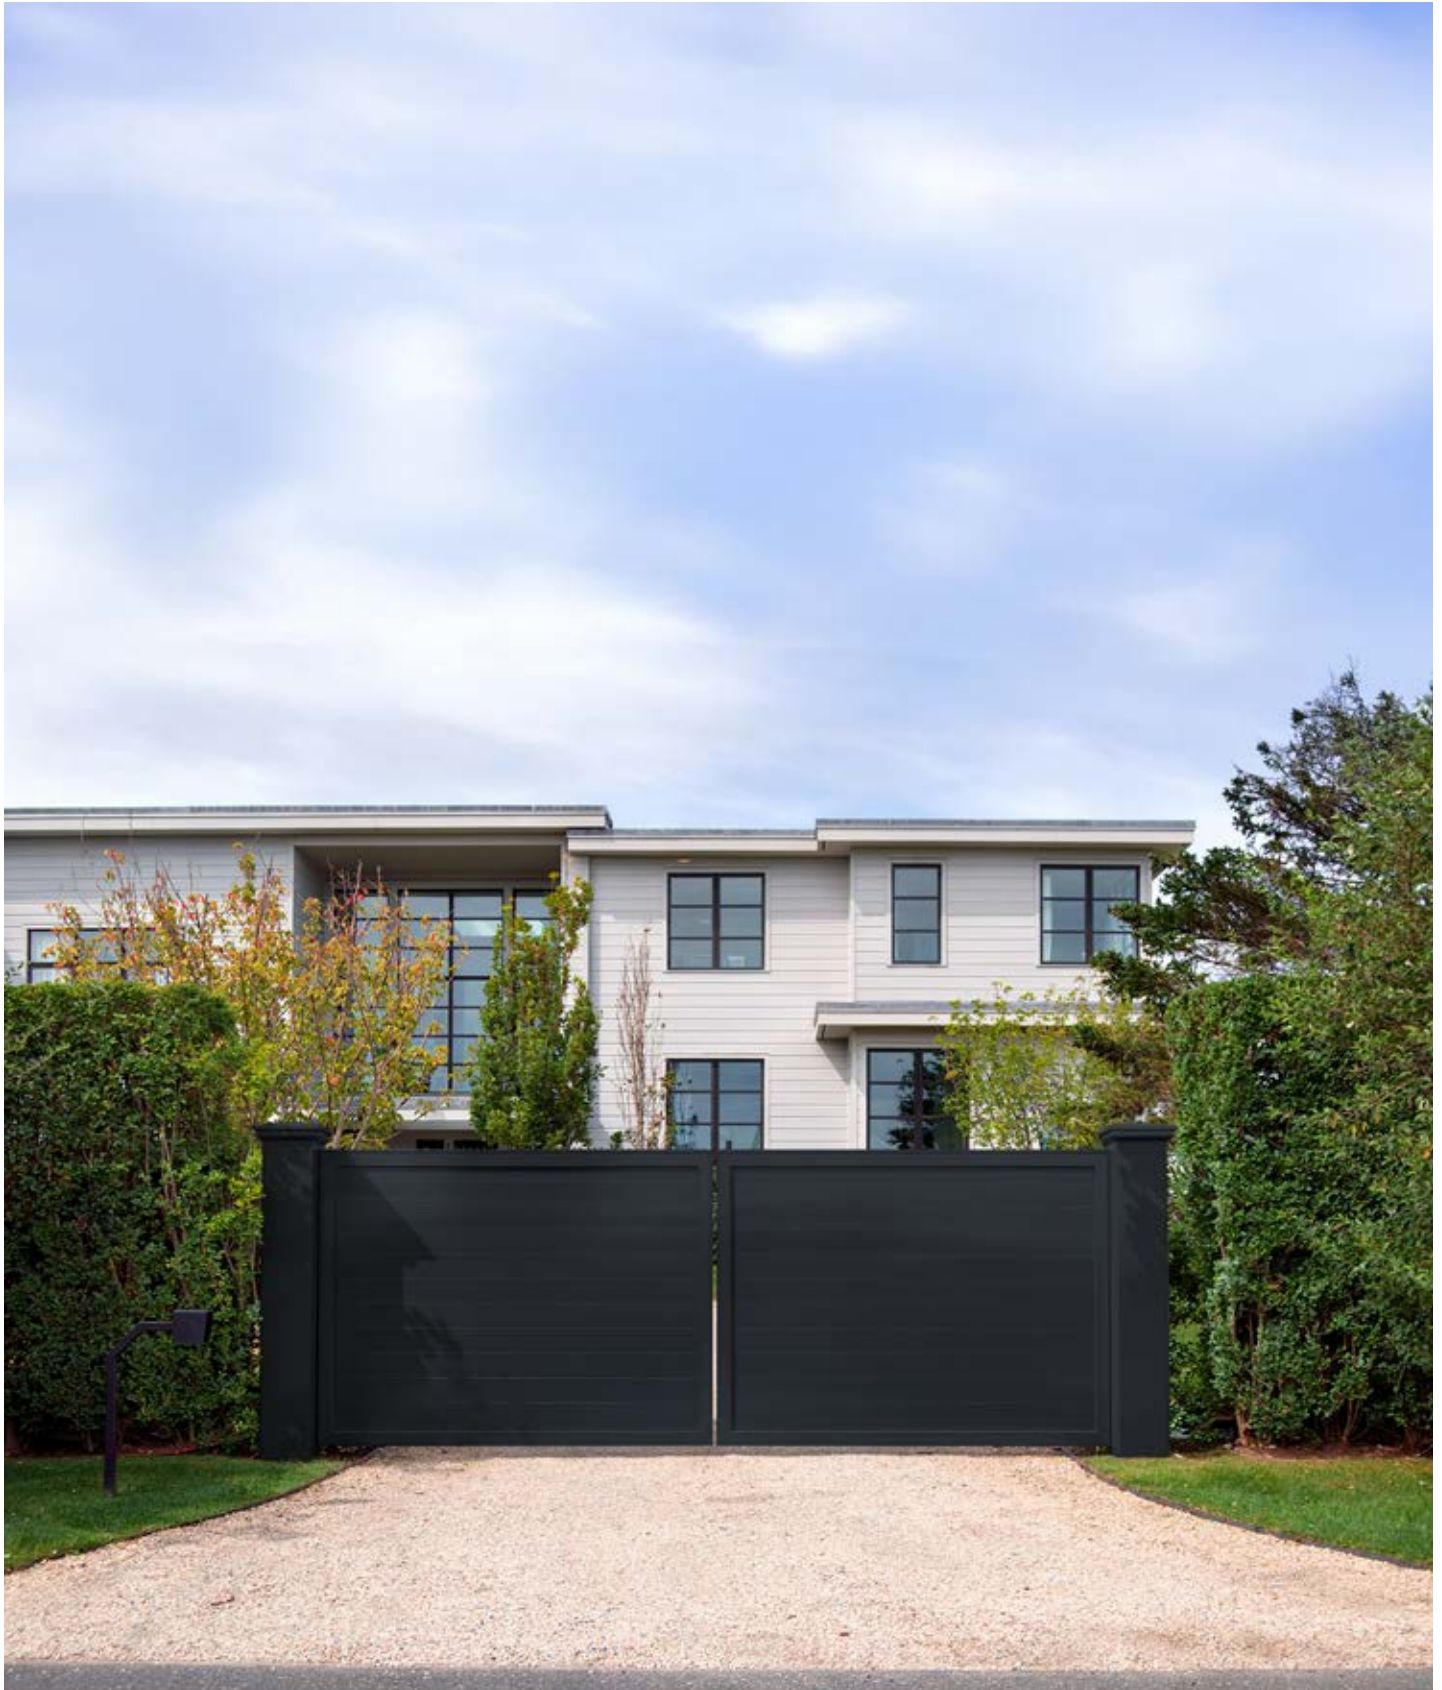

FEATURE	PRAETORIAN GUARD	DOOR BIRD
<b>Primary Strength</b>	Works in remote locations via SIM (no WiFi required)	Smart home integration and design
<b>Connectivity</b>	WiFi, LAN, or 4G cellular option	WiFi, LAN (PoE)
<b>Remote Access</b>	Full mobile app control (open gate, see and speak with visitors)	Full mobile app control (open gate, see and speak with visitors)
<b>Camera</b>	Built-in HD camera with full color, night vision, and motion detection	Built-in ultra-wide angle with 1080p HD video, night vision, and 4D motion sensor
<b>Audio</b>	Waterproof speaker with two-way audio (full or half duplex)	Waterproof speaker with full-duplex audio and noise suppression
<b>Access Control Options</b>	App, built-in keypad, RFID/PROX, programmable visitor access codes	App, RFID, Bluetooth, keypad (model dependent), programmable visitor access codes

## ACCESSORIES

Walpole Outdoors also offers accessories to complement your drive gate operator and access systems.

- FAAC Battery Back-up
- Knox Emergency Access
- SOS Opener
- AK-11 Keypad
- Push Button/Toggle
- Extra Remotes
- Free Entry Loop
- Free Exit Probe
- Steel Gooseneck
- Stainless Steel Gooseneck
- 10 x 10 Darien Access Pillar
- 10 x 10 Wenham Access Pillar (see photo on opposite page)

Horizontal Universal Drive Gate

# MAINTENANCE

Across the Northeast and coastal regions, seasonal weather shifts and moisture-rich environments can impact a drive gate's moving components and lead to slower operation if not properly maintained. Walpole Outdoors' drive gate systems are engineered to withstand the elements, but like all automatic gates, they benefit from regular care to maintain peak performance. Seasonal maintenance—particularly in the spring and fall—is an ideal way to address the effects of moisture and changing weather.

To help protect your investment, Walpole Outdoors offers a comprehensive annual service agreement priced at \$1,200\* that is designed to keep your automatic driveway gate operating smoothly, reliably, and safely year-round.

## ANNUAL SERVICE AGREEMENT

### 2 Scheduled Visits Per Year

Two planned service visits (Spring and Fall) to keep your system on track

### Inspection & Preventative Care

Comprehensive system check to identify and address wear before issues arise

### Maintenance Supplies

Essential maintenance materials—like hydraulic fluid and fuses—provided as needed

\* Pricing subject to change.

## PREVENTATIVE MAINTENANCE CHECKLIST

### Safety Equipment

- Photocell beams
- Loop detectors
- Open & close stops

### Control Boards

- Output voltage
- Terminal connections
- Wiring
- Control settings
- Control box condition
- Relays

### Hydraulic Motors

- Dampening
- End piston
- Opening width
- Hydraulic pressure
- Oil levels

### Motors

- Linear drive
- Drive sprocket
- Limit switch
- Brake
- Clutch

### General

- Hinges
- Manual release
- Bolts and footings
- Motor brackets
- Locks
- Gate track
- Gear rack
- Guide rollers
- Gate wheels
- Lubrication

### Access Control

- Remotes
- Push buttons
- Free exit loops

### Not Included

- Labor for repairs to gate operator systems

- Materials or supplies for repairs or replacements

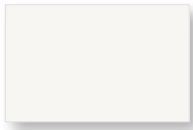

- Troubleshooting app-based access control systems

# FEATURES AND OPTIONS

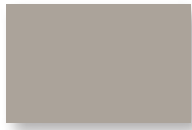

## PAINT COLORS

Our quality controlled in-line coating system ensures uniform coverage on your walk gate. We use only top quality VinylSafe paint, offered with a 25-year warranty. Products are pre-finished in white unless one of our signature paint colors are specified. We can also custom mix our coatings to meet unique style needs.

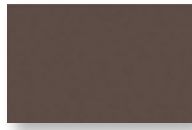

### Signature paint colors

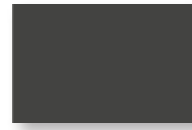

SW 7006  
Extra White

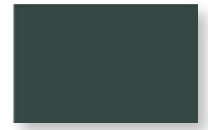

SW 7024  
Functional Gray

SW 3021  
Spicewood  
(Woodscapes)

SW 7069  
Iron Ore

SW Custom  
Verde Green

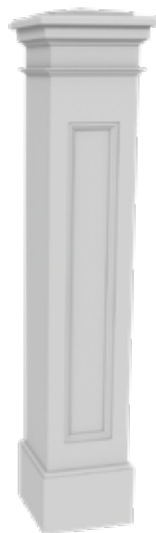

## PILLAR POSTS

Our drive gates are designed to accommodate a range of pillar posts and post caps to create a product customized for each customer's style. Pillar posts are available in 8" sq, 10" sq and 12" sq sizes.

Gates can also be installed into existing masonry pillars with a 6" steel masonry core. A 4" steel core can be used at existing masonry inside face with CPVC wrap (cleat).
