For those who strive for top performance – not only in sports.

Our clever heat pump system

Elite athletes strive for true excellence – both in sports and at home. Even after her career, Denise continues to rely on top performance and quality: with the Vitocal 250-A heat pump from Viessmann. Effortless control via the ViCare app lets her enjoy a perfect feel-good climate every day. The clever system expands easily with photovoltaics and power storage. For even more independence and efficiency.

BMW IBU WC 3 Annecy-Le Grand Bornand - Justine Braisaz-Bouchet (FRA)

Dear Biathlon Friends,

As a truly tight-knit family, biathlon embraces the guiding principles of governance, integrity, and sustainability - values shared by teams, sponsors, suppliers, media partners, Organising Committees, and fans alike. The IBU's top score in the Fifth Governance Review of Winter Olympic Federations by I Trust Sport underscores the transparency and professionalism cultivated in recent years, proving that perseverance, honesty, and thoughtful decision-making yield the brightest rewards.

No better example exists than Franziska Preuss winning the Total Score title just days after her 31st birthday. Long recognised for her talent and work ethic but challenged by setbacks, she triumphed in the closest possible duel with Lou Jeanmonnot - decided in the final 100 meters of the season.

In those moments of both joy and heartbreak, as Jeanmonnot stumbled entering the iconic finish area with the ski jump and Oslofjord as backdrop, biathlon's spirit shone. Preuss waited for her rival, checked on her, and invited her to share the podium, both wearing the yellow bib. Hours later, the legendary Boe brothers bid farewell to the crowd and to biathlon, leaving behind a legacy for future generations.

The 2024/2025 season was historic for Para Biathlon, as the IBU assumed full responsibility for the Para Biathlon World Cup and hosted the inaugural IBU Para Biathlon World Championships in Pokljuka.

Development initiatives focused on education, collaboration, and inclusive growth, addressing the evolving needs of National Federations. Through Closing the Competition Gap and the IBU Coach Education Programme, targeted support and comprehensive training strengthened national systems.

The IBU's extended partnership with the European Broadcasting Union through 2030 continues to elevate visibility. Free-to-air broadcasting has reinforced biathlon's position as Europe's leading winter sport, while digital reach has tripled in two seasons.

With Antholz-Anterselva as the venue for the Milano-Cortina 2026 Olympic Winter Games, biathlon stands ready for another golden moment on the world's biggest stage.

With warm and kind sporting regards.

A handwritten signature in blue ink, appearing to read 'Olle Dahlin', written in a cursive style.

Olle Dahlin

IBU

1.1 INTRODUCTION

The International Biathlon Union (IBU) is recognized by the International Olympic Committee (IOC), as the international governing body for the Olympic sport of biathlon. Headquartered in Anif bei Salzburg, the IBU is a non-profit organization registered in Austria that regulates the sport and oversees the competition organization world-wide. In cooperation with its 61 member national federations (NFs), the IBU uses competitions, events, programs and other activities to promote and develop participation in Biathlon throughout the world. The IBU was founded in 1993 as independent association under the umbrella of the UIPMB alongside the UIPM (Union Internationale de Pentathlon Moderne). The IBU separated from UIPMB in 1998. In July 2022, the IBU took over the governance of the Para biathlon from the International Paralympic Committee. Para biathlon is managed jointly by the International Ski and Snowboard Federation (FIS) and the International Biathlon Union (IBU). The IBU was welcomed as a new member of the International Paralympic Committee (IPC) on 28 September 2023 - during the 2023 IPC General Assembly in Manama, Bahrain.

The IBU holds all rights pertaining to Biathlon World Championships (senior, junior, and youth), Biathlon World Cups, Biathlon Continental Championships, IBU Cups, IBU Junior Cups, Biathlon Continental Cups and Summer Biathlon World Championships. In exercising these rights, the IBU has marketing and sponsor partnerships, and cooperates with the European Broadcasting Union. Furthermore the IBU is responsible for promoting the sport of biathlon by supporting and developing it in both competitive sports and popular recreational sports, with special emphasis on the development of youth.

The IBU aims to combine development of the techniques and materials for practicing biathlon with respect for the health of the athletes, the integrity of nature, and human surroundings. The IBU attempts to achieve harmony through the IBU Constitution and Rules and their respective practice, as well as through licenses and inspections of biathlon event sites. The IBU proudly offers a dynamic and evermore attractive sport, which combines total physical exertion over an extended period of time when running or skiing with the extremely fine control and calm necessary when shooting.

1.2 HISTORY

Biathlon developed from the everyday needs of a life in nature and still is done in that way. Cave drawings found in Norway, dating back some 5000 years, give us the earliest record of skiing and carrying a weapon for hunting or fighting. Historical records from Asia also tell of 'winged horses' on the feet of hunters pursuing animals over snow. The first historically recorded biathlon competition took place near the Swedish-Norwegian border in 1767, between companies of border guards from the two countries. Generally, the development of biathlon continued through hunting and warfare until it became a demonstration sport in the first Olympic Winter Games in 1924 in Chamonix, FRA under the name of Military Patrol. Since then, biathlon has undergone many dramatic changes, including admission into the Olympic Games as biathlon in 1960 in Squaw Valley, USA and a change from large-caliber to small-bore rifles (.22 in) in 1978. International biathlon competitions for women have been organised since the beginning of the 1980s. Women's competitions finally became part of the Olympic Winter Games in 1992 in Albertville, FRA.

HIGHLIGHTS OF MODERN-DAY BIATHLON HISTORY

- 1948** Foundation of the Union Internationale de Pentathlon Moderne (UIPM)
- 1953** Biathlon becomes a sport under the auspices of the UIPM
- 1954** The IOC admits biathlon as a Winter Olympic sport
- 1958** First Biathlon World Championships in Saalfelden, AUT (men only)
- 1960** Men's 20 km individual competition held at Olympic Winter Games in Squaw Valley, USA
- 1966** Introduction of relay competition at World Championships
- 1967** First Junior Men's World Championships in Altenberg, GDR (individual, relay)
- 1968** Relay competition at Olympic Winter Games in Grenoble, FRA; the letter B is added to UIPMB
- 1974** Sprint included in World Championships
- 1977** Last large-bore World Championships
- 1978** Change to small-bore (.22-inch caliber) rifles and first mechanical targets in Hochfilzen, AUT
- 1980** Sprint competition at Olympic Winter Games in Lake Placid, USA
- 1984** First women's World Championships in Chamonix, FRA
- 1989** First joint World Championships (WCH) for men and women in Feistritz, AUT, and separate WCH for junior men and junior women in Voss, NOR
- 1992** First women's competitions at Olympic Winter Games in Albertville, FRA
- 1993** International Biathlon Union (IBU) founded in London, GBR
- 1996** First Summer Biathlon World Championships in Hochfilzen, AUT (cross-country running and shooting)

HIGHLIGHTS OF MODERN-DAY BIATHLON HISTORY

- 1997** Pursuit competition at the World Championships and World Cup events
- 1998** IBU separates from UIPMB in Salzburg, AUT; recognition of the IBU as an international federation by the IOC; mass start becomes an official competition
- 1999** Pursuit competition accepted onto the Olympic programme; team competition removed from World Championships; mass start competition in the program of the World Championships
- 2000** IBU Congress decides to hold Youth World Championships annually in conjunction with Junior World Championships
- 2002** Pursuit competition held at the OWG in Salt Lake City, USA
- 2005** First mixed relay held at World Championships in Khanty-Mansiysk, RUS
- 2006** Mass start competition admitted onto the programme of the 2006 Olympic Winter Games in Torino, ITA. First Roller-Ski Summer Biathlon World Championships in Ufa, RUS
- 2008** 50-year-anniversary of biathlon celebrated at World Championships in Östersund, SWE
- 2010** Two separate summer biathlon highlights: roller-ski biathlon at IBU Summer Biathlon WCH and cross biathlon at IBU Summer Biathlon European Championships
- 2011** Admission of mixed relay onto Olympic programme from 2014 Winter Olympics onward
- 2013** 20-year anniversary of the IBU
- 2014** The IBU Congress introduces IBU Junior Cup series starting from 2015-2016 season onward
- 2015** First single mixed relay event at World Cup in Nove Mesto, CZE
- 2016** Adoption of single mixed relay from 2019 WCHs onward.
- 2018** 25-year anniversary of the IBU
- 2019** IBU Congress approved new IBU Constitution, Target26, BIU, Integrity Code
- 2020** Due to COVID-19 related health concerns and based on the expert advice from the specially formed Medical Advisory Group, the IBU decided to stage the season without spectators for the first and only time in its history.
- 2022** As a consequence of the unprovoked Russian invasion of Ukraine, the IBU Executive Board on 29 March 2022 unanimously decided to suspend the National Federations of Russia (RBU) and Belarus (BiFB) with immediate effect.
- 2023** The IBU Presidents' Meeting was held on 1 July 2023 on the occasion of the federation's 30th anniversary. The IBU was welcomed as a new member of the International Paralympic Committee (IPC).
- 2024** The 16th Ordinary IBU Congress approved the new Target 2030 strategic plan, building on the remarkable success of Target 26.
- 2025** The inaugural Loop One Festival took place in Munich, Germany.

1.3 BIATHLON COMPETITIONS

Biathlon is a sport that combines the endurance of free-technique cross-country skiing with precision small-bore rifle marksmanship. The combination of two very contradictory disciplines – skiing and shooting – in the same competition poses a very demanding challenge for any athlete. Cross-country ski racing requires intense, full-on physical exertion over an extended period of time, whereas shooting demands extreme control, stability and focus. When athletes arrive at the shooting range, they have to shoot at very small targets, with a racing heartbeat and heaving chest because the clock is running even while they are shooting, and a missed target results in a penalty. The shooting distance is always 50 m. Athletes fire five rounds at five targets in each shooting bout, except in the relay competitions, where the competitor has three spare rounds for each bout. There are two shooting positions, prone and standing, which are done either alternately or consecutively, depending on the competition. The target diameters are very small and depend on the shooting position. The targets are 115 mm in diameter for the standing, and even smaller for the prone (45 mm). Penalties are imposed for missed targets. Throughout the competition, the biathletes must always obey the IBU Event and Competition Rules.

The **Individual** is the longest and the oldest competition in biathlon, with women skiing 15 km and men 20 km. The start interval is generally 30 second. There is no penalty loop: each missed target in the individual adds a minute to the final time. Athletes shoot first in prone position, then standing, then prone again and finally standing again. The **Short Individual** differs only by length and penalty time: in the men's competition the distance is shortened to 15 km and in the women's to 12.5 km. Penalty time is reduced to 45 seconds for both men and women.

The **Sprint** format is a time-trial competition with two shooting stages, 1 prone and 1 standing. Women ski 7.5 km and men 10 km. Competitors start at 30-second intervals; each missed target results in a penalty loop

BMW IBU WC 7 Nove Mesto na Morave - Sebastian Samuelsson (SWE)

of 150 m. The **Super Sprint** is halved in two brackets, the qualification and the final. The course length is 1.5 km. The qualification is run off as a time trial with single starts. The total qualification competition length is 4.5 km (three times 1.5 km, with two shooting stages, prone and standing). The best 30 athletes from the qualification then start simultaneously in the final and compete over 7.5 km (5 loops of 1.5 km and 4 shooting stages - prone-prone-standing-standing). In both the qualification and the final, no spared can be used and the penalty loop is shortened to 75 m.

The **Pursuit** allows the top 60 athletes from the sprint competition to compete over 10 km for women and 12.5 km for men. There are four stops at the shooting range: the first two in the prone position and the last two in standing. The start interval is determined by the results of the sprint competition so that the winner starts first, the second follows by the time back from the sprint results and so on until 60th. Just as in the sprint, each missed target corresponds to a penalty loop of 150 m.

In the **Mass Start** 30 athletes start simultaneously and compete over a course of 12.5 km for women, 15 km for men. There are four shooting stages: the first two in the prone position and the last two in standing. Each missed target corresponds to a penalty loop of 150 m. The winner of the mass start is whoever crosses the finish line first. In the **Mass Start 60** athletes start simultaneously, covering the distance of 15 km for men and 12 km for women. After the first loop, 30 first athletes (bibs 1-30) proceed to the range for their first shooting, while bibs 31-60 continue for a second loop without shooting. After the second loop, the second 30 athletes (bibs 31-60) proceed to the first shooting bout, while bibs 1-30 continue skiing without shooting. After two groups conducted their first prone shooting, the competition is organised as in a pursuit. The order of athletes (with bibs 1-30) ski up to the range first and bibs 31-60 continue skiing after the first loop) can be alternated.

In the women (4x6 km) and men (4x7.5 km) **Relay** competitions, the first members of all teams start simultaneously and after completing their part, tag the next member in the hand-over zone to start them on their way. Athletes have three spares to load manually in case of missed shots. If a target(s) remain standing after the three spares, the athlete goes to the 150 m penalty loop. The **Mixed Relay** is a mixed-sex competition, formed with teams of two women and two men from the same country. The competition specifics are, in principle the same as in the regular relays. All starters competes either over 6km course. The Technical Committee decides in advance who begins the race: the two male athletes or the two female athletes, indicated by (M-W) or (W-M). In the **Single Mixed Relay** teams have one woman and one man per country competing over a total distance of 6 km for the first starter and 7.5 km for the second with four shooting stages each. The lap is 1.5 km for both women and men, while the penalty loop is 75 m long. Just as in the regular relays, athletes have three spares to load manually in case of missed shots. The first athlete starts the competition and tags the other athlete after the first two shooting stages (prone and standing). The handover is done directly after the range/penalty loop exit. The IBU Technical Committee decides whether the men or the women begin the competition.

1.3.1 PARA BIATHLON COMPETITIONS

The events include **Sprint, Middle Distance, Pursuit, and Individual** competitions on a 2.0 or 2.5 km course skied three or five times, totaling 7.5 to 12.5 km. Athletes stop at a shooting range to hit five 10m targets. Missed targets result in a 1-minute penalty or a penalty loop. The Para Biathlon range has air rifle targets for athletes with physical impairments (LW) and electronic targets for those with vision impairments (VI), who use an infrared camera and acoustic signals to aim.

1.3.2 COMPETITION EQUIPMENT

In a competition, biathletes wear a one or two-piece ski suit. Skis, poles and boots are standard competition type and are very light in weight. The rifle is designed for biathlon, with an action that is a variation of bolt or lever action, .22 inch in calibre, with a minimum weight of 3.5 kg. The magazines for the rifle may only hold five rounds of ammunition and the maximum muzzle velocity for a bullet is 360 m/s. The rifle is carried on the back with a carrying harness, and the barrel has to point upwards. Advertising on clothing and equipment is strictly controlled to prevent excess commercialism within the sport. Because biathlon also includes shooting, safety is of the highest priority before, during and after a competition. Stringent regulations govern all the competitors' actions. As a consequence of these very strictly enforced safety rules, biathlon has an excellent safety record.

1.3.3 COMPETITION FACILITIES

Biathlon competitions are held at a facility that has a central stadium area surrounded by a ski course network. The stadium area consists of the shooting range (which usually has 30 targets), the start and finish zones (including a mass start area), the 150-meter penalty loop, the technical building, the ski testing slope, team ski waxing facilities, spectator areas and other necessary infrastructure. The shooting range is divided into lanes of 2.75 to 3 m in width, with the targets placed at a 50 m distance from the shooting ramp. The lanes and targets are numbered from right to left starting with number 1 on the extreme right. In the individual and sprint competitions, the range is divided into two parts, with prone shooting on the right and standing on the left.

The different types of competitions each have standardized course specifications, especially concerning height difference, maximum climb and total climb. The targets are made of a white metal face plate with five holes in a horizontal row. Behind the holes in the face plate are the black hit plates which fall backward or send an electronic signal when hit by a bullet. At the same time a white flap is raised up in front of the hole, thus causing the colour to change from black to white. When the target is scored, the black spots are counted to determine the number of penalties the competitor has. The targets may be mechanical or electronic in operation, but in both cases the fallen plates can be reset from the firing line either by a rope or electronic signal.

Building big moments in sport

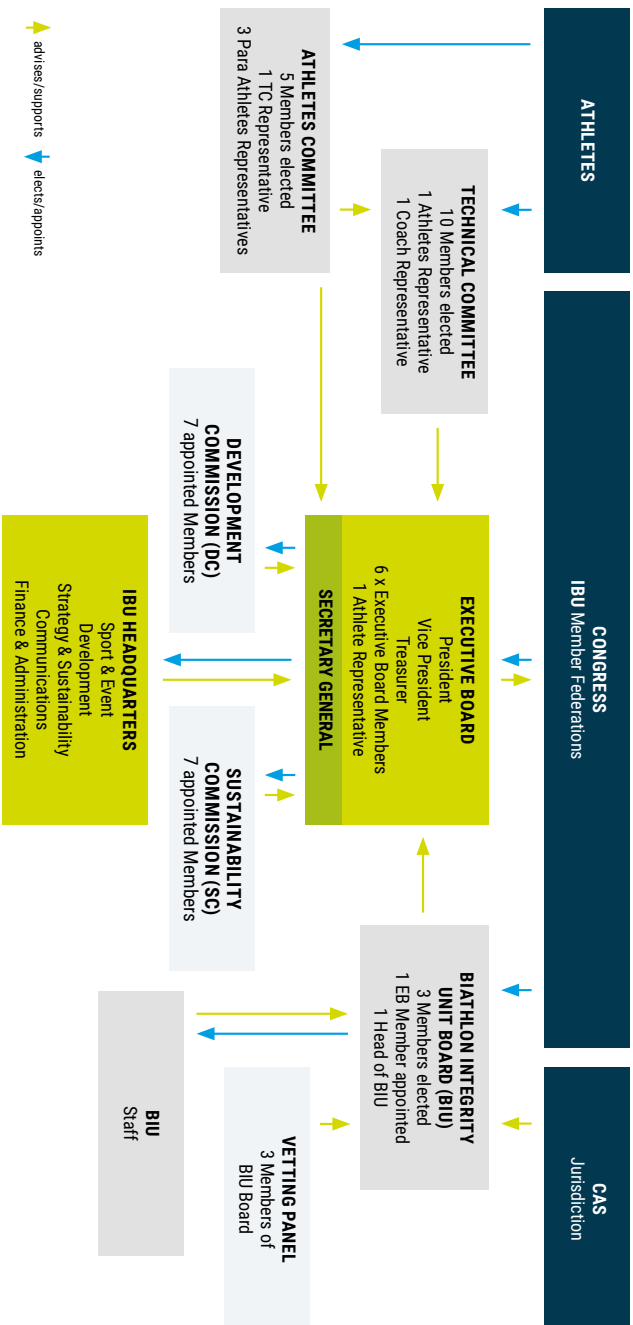

The passionate team at Infront understands the needs of our partners and offers them tailor-made solutions to create the greatest moments in sport.

With more than 30 years of experience, Infront is one of the few companies that offers everything an event or commercial partner needs. Be it the sale of media rights, TV production, digital content, events, sponsorship, hospitality and consultancy, Infront has developed innovative solutions to ensure the success of almost 200 rights holders around the world.

Since 1992, Infront has supported the International Biathlon Union (IBU) and the national federations in hosting IBU events at various competition levels. As marketing partner, Infront has helped develop biathlon from a niche sport into one of the most popular winter sports and will further enhance its premium value and commercial strength in the future.

All about sports

3.1 IBU CONGRESS

The Congress is the supreme and legislative organ of the IBU. It consists of the representatives of the full members, of the non-voting representatives of the provisional and associate members, of the non-voting Executive Board and of the non-voting chairpersons of the IBU Committees and the Auditors. As the supreme organ, the Congress holds jurisdiction in all IBU affairs that have not expressly been delegated to other organs or bodies.

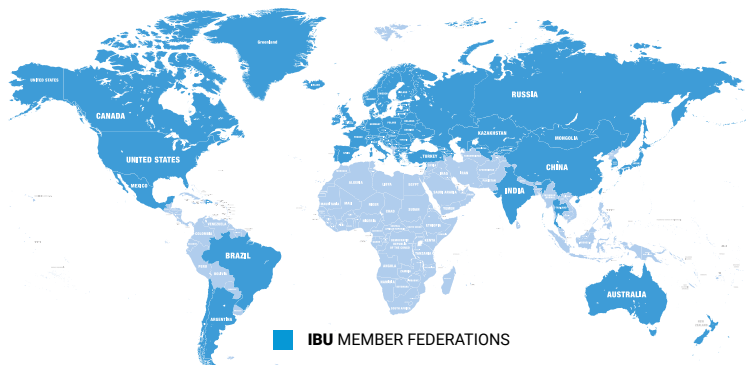

3.2 IBU MEMBER FEDERATIONS

The Members of the IBU are the National Federations for the sport of biathlon. These Federations may become members of the IBU by means of application; however, they must declare that they accept the purpose and the objectives of the IBU, obey its Constitution and Rules, and that they are officially recognised in their country by the national Olympic committee or by the national sports federation. Prior to becoming a regular member, National Federations must pass a period of provisional membership which lasts at least two years.

Each Member Federation has the right i.a. to participate in Congress, to file motions to the Executive Board and the Congress and to exercise the right to vote. IBU members have the right to be heard in all matters that concern the member federation, to nominate representatives from their federation to officiate in the IBU, to enter athletes for all competitions organised by the IBU, to help in organising international biathlon competitions by the IBU and to receive information about all IBU activities. The right to host an event or competition is awarded to NFs as hosts of the event. The NF must establish an organising committee (OC) to organise and conduct the event or competition by the IBU rules and the applicable event rules, and it will follow the directives provided in the OC Guidelines about all aspects of hosting an event. In order to be eligible to host an IBU event or competition, NFs must present a valid IBU site license for the facility for the appropriate event.

For a full list of all OCs please visit our website

3.3 CAS ANTI-DOPING DIVISION

Following the IBU's Extraordinary Congress in October 2019, the IBU has agreed to delegate its adjudication of any anti-doping rule violations and sanctions to the CAS ADD. With this agreement, the CAS ADD will now be responsible for first-instance adjudication of alleged anti-doping rule violations, including any sanctions, arising under the IBU's anti-doping rules.

The CAS ADD, a separate Division of the CAS, began operating in January 2019. It has been established to hear and decide anti-doping cases as a first-instance authority upon written delegation of powers from the IOC, International Federations, International Testing Agency and any other signatories to the World Anti-Doping Code (WADC). The CAS ADD conducts its procedures in accordance with the applicable anti-doping rules of the international sports entities concerned and is tasked to decide whether or not there has been a violation of the anti-doping rules, as well as to decide any sanction, if applicable, in accordance with the WADC.

EB Meeting 175 Lenzerheide 2025 (SUI)

3.4 CAS ORDINARY DIVISION

The CAS Ordinary Division will handle any allegations by the new Integrity Unit of non-doping violations.

3.5 IBU EXECUTIVE BOARD

The Executive Board is elected by the Congress and is responsible for the IBU between Congress sittings. The Executive Board acts on the basis of, and in accordance with the Constitution of the IBU, and also pursuant to the decisions made by the Congress.

3.5 IBU EXECUTIVE BOARD

The Executive Board is elected by the Congress and is responsible for the IBU between Congress sittings. The Executive Board acts on the basis of, and in accordance with the Constitution of the IBU, and also pursuant to the decisions made by the Congress.

3.6 BIATHLON INTEGRITY UNIT (BIU)

The Biathlon Integrity Unit (BIU) was established by the IBU Extraordinary Congress in Munich in October 2019. During the 2019/2020 season, the IBU began implementing this resolution to create an independent body that centrally manages all integrity-related matters in biathlon.

The BIU's mission is to protect the integrity of the sport through **prevention, investigation, and enforcement**. While it investigates and prosecutes violations of the Integrity Code, its foremost aim is to **prevent wrongdoing before it occurs** by promoting a culture of ethics, transparency, and fair play across the biathlon community.

Focus on Prevention

Prevention is at the heart of the BIU's approach. Effective prevention relies on timely information and intelligence, which is why the BIU counts on the active engagement of athletes, coaches, officials, and supporters. By sharing concerns and staying informed, the community plays a vital role in safeguarding biathlon from doping, competition, manipulation, and other forms of misconduct.

The BIU operates independently from the IBU Executive Board and staff, with its own Board comprising three independent experts in sports integrity and governance, alongside two non-voting members (a nominated Executive Board member and the BIU Head). The Board reports directly to the IBU Congress, ensuring full independence and accountability.

The IBU Constitution also introduced a strengthened Integrity Code, expanding on the former Ethics Code with enhanced rules on safeguarding, conflicts of interest, competition manipulation, and eligibility for IBU officials and event bidders. It integrates and reinforces the Anti-Doping Rules (based on the WADA Code), granting the BIU extended powers to investigate, prosecute, and sanction violations.

All individuals elected, appointed, or nominated to IBU roles are vetted by the BIU. Eligibility decisions are made by the independent members of the BIU Board to ensure compliance with integrity standards.

Alleged violations of the IBUs Rules are adjudicated by the Court of Arbitration for Sport (CAS), anti-doping cases by its Anti-Doping Division and other matters by the CAS Ordinary Division.

For more information please visit: **www.biathlonintegrity.com**

If you would like to report a suspected breach of any governance, ethics or integrity regulations or provisions of the IBU you can email **reporting@biathlonintegrity.com** or call **+43 662 85 50 50 16** to leave a confidential message.

Any material reported will be treated in strict confidence and processed by the Biathlon Integrity Unit only (and not by the IBU unless with your expressed consent) and will be used solely for the investigation and follow-up related to any integrity issues reported.

**Louise REILLY**

CHAIR

Louise Reilly (chair) is an Irish barrister specialising in sports law and international arbitration, with extensive experience in relation to sports integrity matters (including anti-doping and other disciplinary matters) and governance.

**Alex MARSHALL**

Alex Marshall CBE, QPM is a former Chief Constable and CEO from the UK, with a long and significant history in law enforcement, leadership and governance. Since 2017 he has worked in senior roles in global sports governing bodies, including seven years as General Manager, Integrity, for the International Cricket Council.

**Tanja HAUG**

Dr. Tanja Haug is a German lawyer with extensive experience in anti-doping, anti-corruption, disciplinary and governance matters. She serves as an independent expert for various national and international sport organisations.

**Franz STEINLE**NOMINATED MEMBER OF EB
NON-VOTING MEMBER

Dr. Franz Steinle is an IBU Executive Board Member, Honorary President of the German Ski Federation and former judge of Stuttgart's high state court, serving as a link between the IBU and Biathlon Integrity Unit Board.

**Greg McKENNA**HEAD OF THE UNIT
NON-VOTING MEMBER

Greg McKenna is a former Senior Law Enforcement Officer from the United Kingdom, with significant experience leading major investigations into serious and organised crime. He is now applying this expertise to build a highly effective Unit, capable of protecting athletes, support staff, and the sport of biathlon.

3.7 IBU COMMITTEES

IBU TECHNICAL COMMITTEE

Since the 2022 IBU Congress, the IBU Technical Committee consists of 12 members. After each full-member NF nominates its candidate, ten are elected for four years by the Congress. Athletes' Committee and World Cup coaches nominate one member each. The Technical Committee is led by a Chairman, elected among its members. It mainly acts in areas closely linked to the technical aspects of the sport of biathlon. Event & Competition rules, equipment, biathlon venue licensing, referees, liaising with coaches and athletes, and drafting the competition calendars are the main areas of responsibility.

3.8 IBU TECHNICAL DELEGATES & REFEREES

The IBU Technical Delegates' Group is under the jurisdiction of the IBU Technical Committee and is comprised of experienced international biathlon technical experts.

Assigned by the IBU Technical Committee those persons serve as Technical Delegates (TDs) or IBU Referees (IBU Rs) at IBU Events to ensure that the Event is conducted according to the IBU Event and Competition Rules and with other pertinent IBU regulations. The TD is the chairman of the Competition Juries (both men and women), and one of the IBU Rs is a member as well.

TDs and IBU Rs work closely with the respective IBU Race Director by assisting him in technical matters and by supporting/advising the respective Organising Committees to ensure that the competitions are held as well as possible.

A black and white photograph of a man with dark hair and a beard, wearing a dark t-shirt with the word "SALOMON" printed on it. He is leaning over a workbench, focused on adjusting a ski that is held in a metal vise. The background is a workshop or garage with various tools and equipment hanging on the walls.

S/LAB/
SELECT

BE TREATED LIKE A WORLD CUP ATHLETE.

Looking for the perfect skis to make the most out of your racing experience? With Salomon's S/LAB SELECT program you now have access to the exact same skis as our World Cup athletes. Our team of experts will select your perfect pair based on with the same criteria as they use for top athletes. Get yours at one of our partner retailers.

NFX SERIES

ADVANCED NANOMATRIX

Olli Hildensalo (FIN) / NordicFocus

The brand new NFX N-Kinetic blocks, powders and liquids set a new benchmark for racing top coatings of the post-fluor era. In addition to the N-Kinetic³ additives, the blocks also contain specific NANO-TK nanoparticles that elevate their performance and durability to a new level.

BASIS Numbers in the time column represent the time difference to the fastest skier on the field in seconds per kilometre basis. Example: 0.5 means that an athlete skis 0.5 seconds slower per kilometre than the fastest skier in the field. It relates to the skiing time without time spent at the shooting range, in the penalty loop, penalty minutes, etc.

BASIS Numbers in the time column represent the time difference to the fastest skier on the field in seconds per kilometre basis. Example: 0.5 means that an athlete skis 0.5 seconds slower per kilometre than the fastest skier in the field. It relates to the skiing time without time spent at the shooting range, in the penalty loop, penalty minutes, etc.

BASIS Numbers in the time column represent the time difference to the fastest skier on the field in seconds per kilometre basis. Example: 0.5 means that an athlete skis 0.5 seconds slower per kilometre than the fastest skier in the field. It relates to the skiing time without time spent at the shooting range, in the penalty loop, penalty minutes, etc.

Johannes Dale-Skjevdal (NOR)

BASIS Numbers in the time column represent the time difference to the fastest skier on the field in seconds per kilometre basis. Example: 0.5 means that an athlete skis 0.5 seconds slower per kilometre than the fastest skier in the field. It relates to the skiing time without time spent at the shooting range, in the penalty loop, penalty minutes, etc.

BASIS Numbers in the time column represent the time difference to the fastest skier on the field in seconds per kilometre basis. Example: 0.5 means that an athlete skis 0.5 seconds slower per kilometre than the fastest skier in the field. It relates to the skiing time without time spent at the shooting range, in the penalty loop, penalty minutes, etc.

BASIS Numbers in the time column represent the time difference to the fastest skier on the field in seconds per kilometre basis. Example: 0.5 means that an athlete skis 0.5 seconds slower per kilometre than the fastest skier in the field. It relates to the skiing time without time spent at the shooting range, in the penalty loop, penalty minutes, etc.

DAHLMEIER Laura	GER	Hochfilzen 2017	  

GENERAL MEN & WOMEN

- Until 1967 4 nations dominated the podiums (USSR*, SWE, NOR, FIN)
- In the first WOMEN WCH 1984 all gold medals and all IND medals were taken by the USSR. It was also the first time the USA took a medal (Bronze)
- 1974 was the first time USSR did not score IND podium
- Ever since Germany was established they had a podium in WCH
- Under the TOP 5 of the Men/Women most medal winners are 6 from Germany, 2 from Norway and 2 from France
- Ole Einar Björndalen, Martin Fourcade and Magdalena Neuner each hold a record in 2 individual disciplines (by 2017)
- Defending a mass start title was only done by Raphaël Poirée (FRA)
- In 8 women relays the french women had to be happy with silver
- Since 1997 Ole Einar Björndalen has stood every WCH on a podium - suprisingly he only holds one gold medal in IND (2009)
- When Austrians win they like to take 2 places on the podium it happened 2000 (IND), 2009 (MS) and 2016 (IND)
- Martin Fourcade is the first athlete who became World Champion in individual 3 times in a row (2013-2016)
- At the IBU World Championships 2019 in Oestersund, Hanna Oeberg of Sweden became the first woman ever to win back-to-back Olympic and World Championship Gold medals in the 15 km Individual.
- Marta Olsbu Røiseland of Norway won seven out of seven available medals at the IBU World Championships 2020 Antholz - Anterselva, Italy, the first ever achievement of this magnitude.
- JT Boe became the first man to win all seven available at the BMW IBU World Championships in Oberhof 2023. He matched Marte Olsbu Røiseland's achievement from the BMW IBU World Championships Antholz-Anterselva 2020.
- JT Boe became the first athlete - women or men - to win all seven available at the two consecutive BMW IBU World Championships - in Oberhof 2023 and Nove Mesto 2024. He won three individual gold medals on each occasion.

**MARWE****SNOWFEEL XC NANOCARBON AIRCELL CORE****Smooth As Snow**

The XC Snowfeel frame provides improved and outstanding vibration damping properties utilizing racing level cross-country ski technology

**Roller skis for Pro training and racing**

Marwe produces high quality composite and aluminium roller skis for cross-country ski training and roller ski racing.

Our composite roller skis are handmade in Finland using the same advanced construction as top cross-country race skis, thus providing a very natural ski feel combined with excellent vibration damping and noise reduction properties.

Marwe roller ski wheels are made using exclusive in-house developed materials, which provide outstanding wet grip and durability.

The TechnoAlpin logo features the brand name in a bold, sans-serif font. A stylized graphic of a skier in motion, represented by a white arrow-like shape, is positioned between the words 'Techno' and 'Alpin'.

TECHNOALPIN®

olymedia

TECHNOALPIN GUARANTEES WORLD CUP LEVEL SNOW QUALITY!

For more than 30 years, the unique and innovative technology of TechnoAlpin snow guns has been providing the best quality snow for ski racers as well as for all other winter sports lovers. Together with the SnowFactory, which guarantees snow production even at plus temperatures, TechnoAlpin guarantees perfect snow conditions anytime, anywhere. As IBU Supplying Gold Partner, TechnoAlpin ensures World Cup level snow quality all over the globe.

10.3 IBU SUPPLYING PARTNER

In the autumn of 2001, the IBU developed the idea of the IBU Equipment Pool. The purpose of this project was to help develop the sport of biathlon by providing products and services to both the IBU and its National Federations. This project allows the IBU Partners to support the sport while demonstrating both the capabilities and quality of their products and services both within the sport and to the general public.

In this system, the only companies who can become a part of the IBU Equipment Pool are those whose products and services are used daily in the sport. Thus the program uses the slogan: »Top Sport uses Top Products and Top Services«. The products are held to the highest standards and are tested under the harshest of conditions.

The secondary goal of this project allows the National Federations and the IBU to conserve their resources and invest them in the development of the sport at all levels, but especially in the Youth and Junior levels, through this support provided by the Partners. Thus, each Partner's investment is an investment in the future of Biathlon.
