Heartie's Adventure at Cork Airport

Aerfort Chorcaí

Hi! I'm Heartie! Today I'm going on an adventure through Cork Airport. I'll show you everything that happens!

CORK AIRPORT
AERFORT CHORCAÍ

CORK AIRPORT

When I get to the airport , I go to the departures door to enter the building, which is called a terminal.

The terminal can be a very busy place, but don't worry! There are lots of people here to help!

Everyone is different & that's okay! If you'd like a little extra support, you can pick up a **sunflower lanyard** at the **OCS desk** so our team knows how to help!

CORK AIRPORT

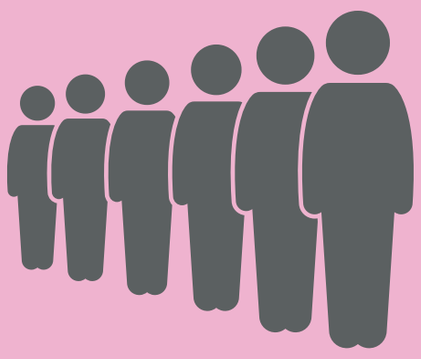

If you have a bag to check-in like me, we have to go to the check-in desk.

Sometimes there's a short queue here so we wait our turn and make sure we have our boarding pass ready!

Don't Forget!

Queue

Bag

Boarding Pass

CORK AIRPORT

Well Done!
Now its time to head up the escalator to security

It can get very crowded here but everything is okay and it won't be long.
Don't forget to have your boarding pass ready!

CORK AIRPORT

At security, I'll meet my friends from the Airport Search Unit, or ASU! They're here to help us get safely through security

Hi Heartie! We're here to help

AIRPORT SEARCH UNIT

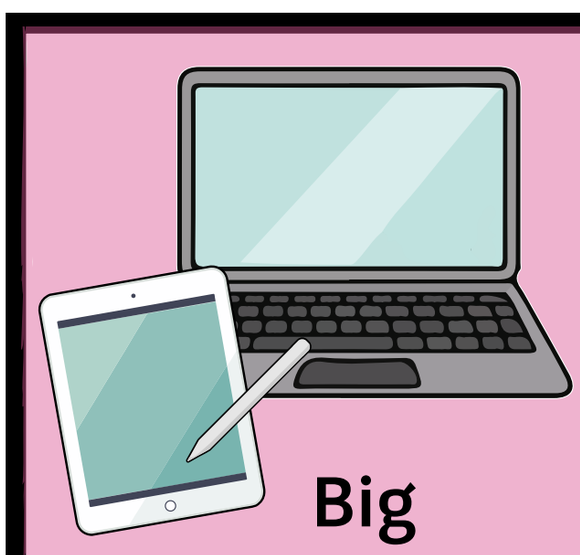

Before security we need to get 3 things ready

Boarding Pass

All Liquids in a bag

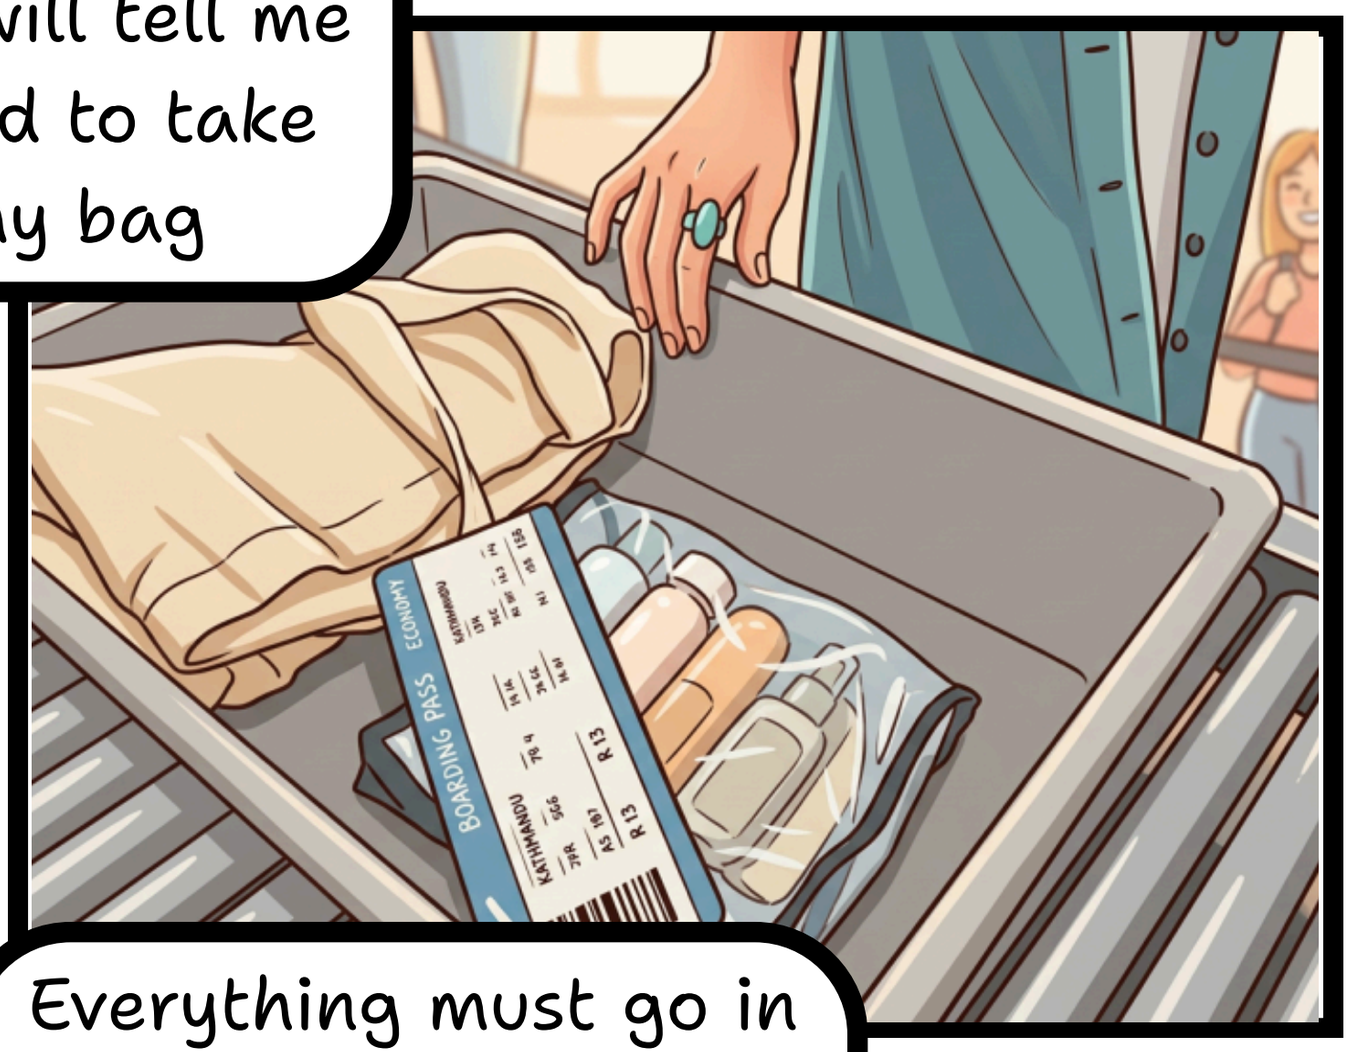

Big Electronics out of your bag

CORK AIRPORT

Now its time to put my things in a tray! My ASU friend will tell me what I need to take out of my bag

Everything must go in the tray including your bag, my coat, my liquids and any electronics you have!

Your tray will then go through the X-ray machine and you can collect it on the other side.
We do this to keep everyone safe!

CORK AIRPORT

Good job!
Before I can get my tray I need to go through the metal detector.
This part can be a little scary but we can do it together!

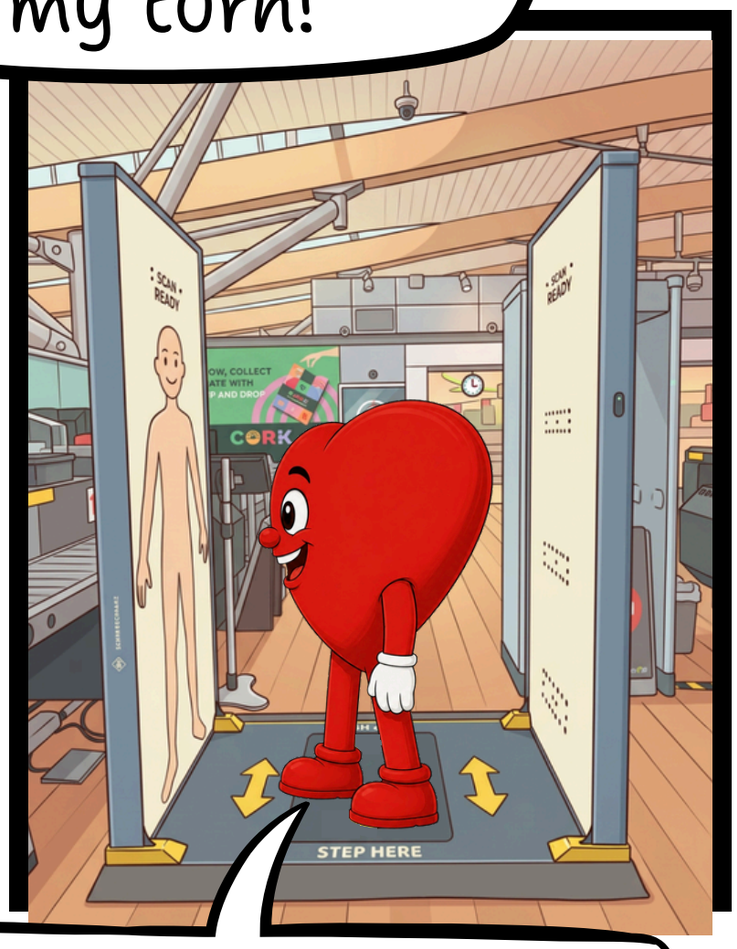

First I have to wait for my ASU friend to tell me it my turn!

I then stand with my feet on the picture of the feet

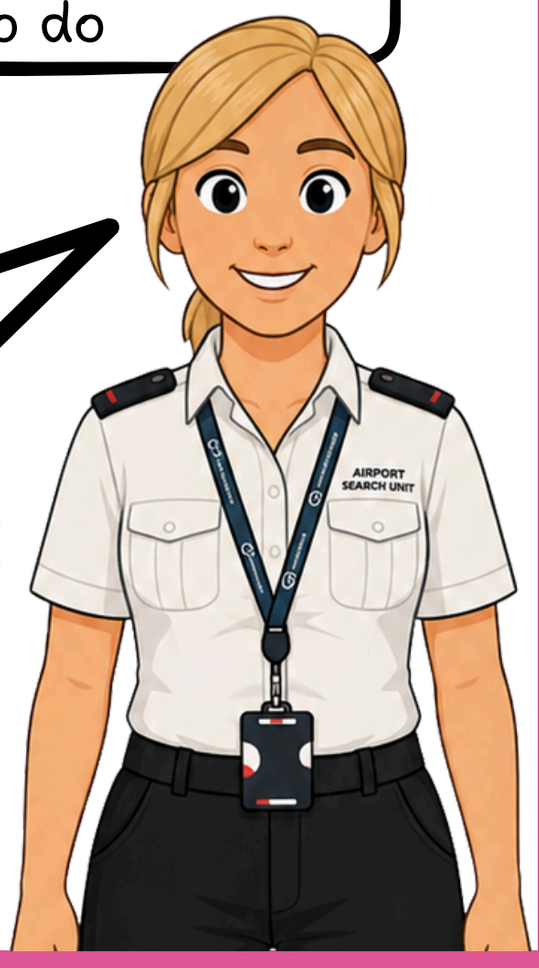

Copy the drawing in front of me and keep my arms away from my body

Then I have to stay super still until my ASU friend tells me what to do

Sometimes the scanner may beep but don't worry, you are not in trouble!
We may need to do a quick hand search just to make sure everything is okay!

CORK AIRPORT

I stand nice and still wih my arms out like this while my ASU friend gently checks me.

It's very important I listen to my ASU friend so I know what to do

You're doing great!
I'm going to check your hands, hips and shoes with my hands and a security wand

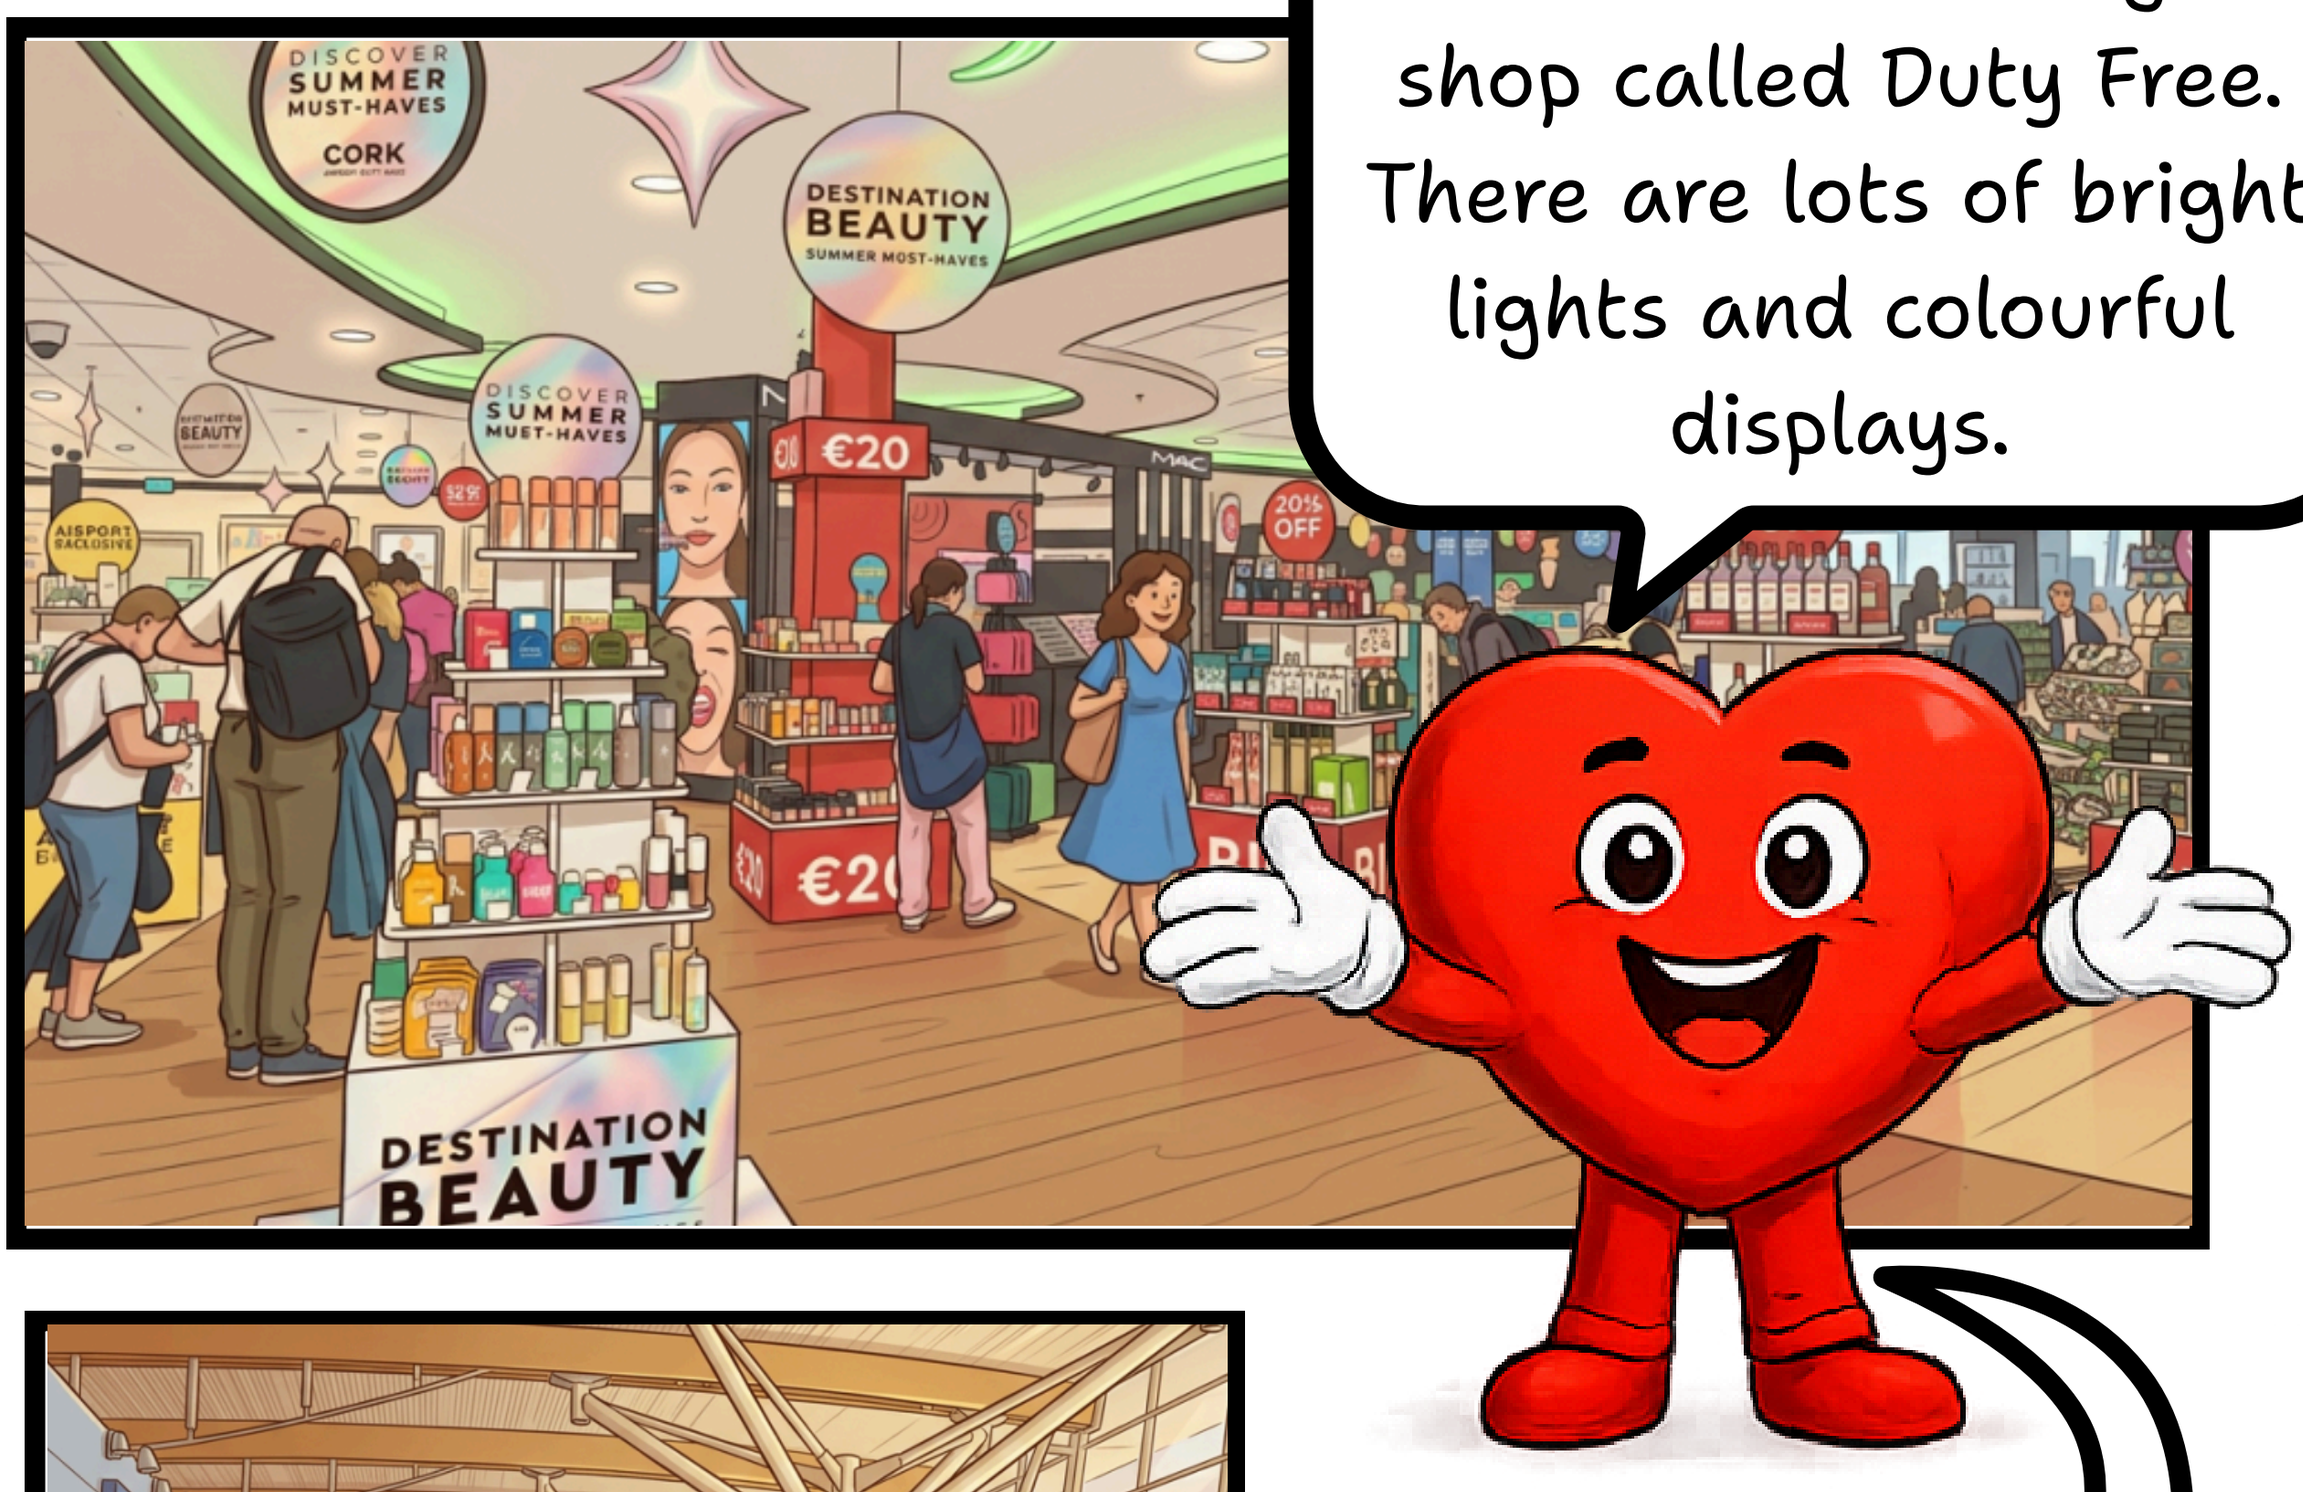

Remember, I'm not in trouble!
This is just another security check.

We did it!!
Now we collect our tray from the X-ray machine and we can head into the departures lounge!

CORK AIRPORT

Next I walk through a shop called Duty Free. There are lots of bright lights and colourful displays.

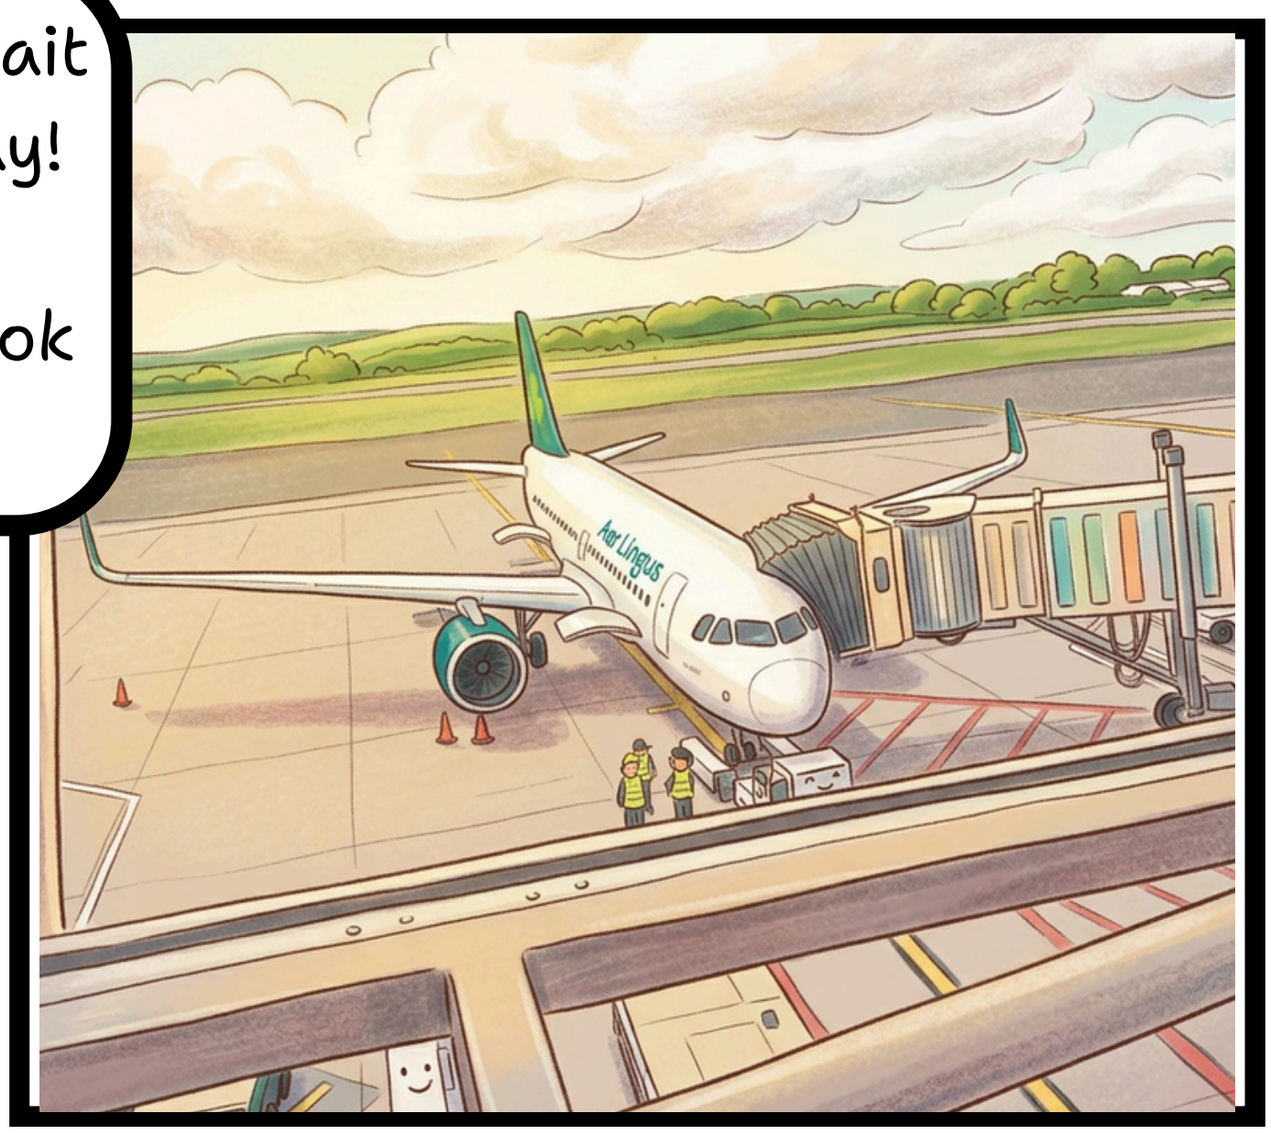

Now I am in the Departures Lounge! This is where I wait for my flight.
There might be lots of other people waiting for their flights too!

Sometimes I have to wait a while and that's okay! I can relax, have something to eat or look at all the planes!

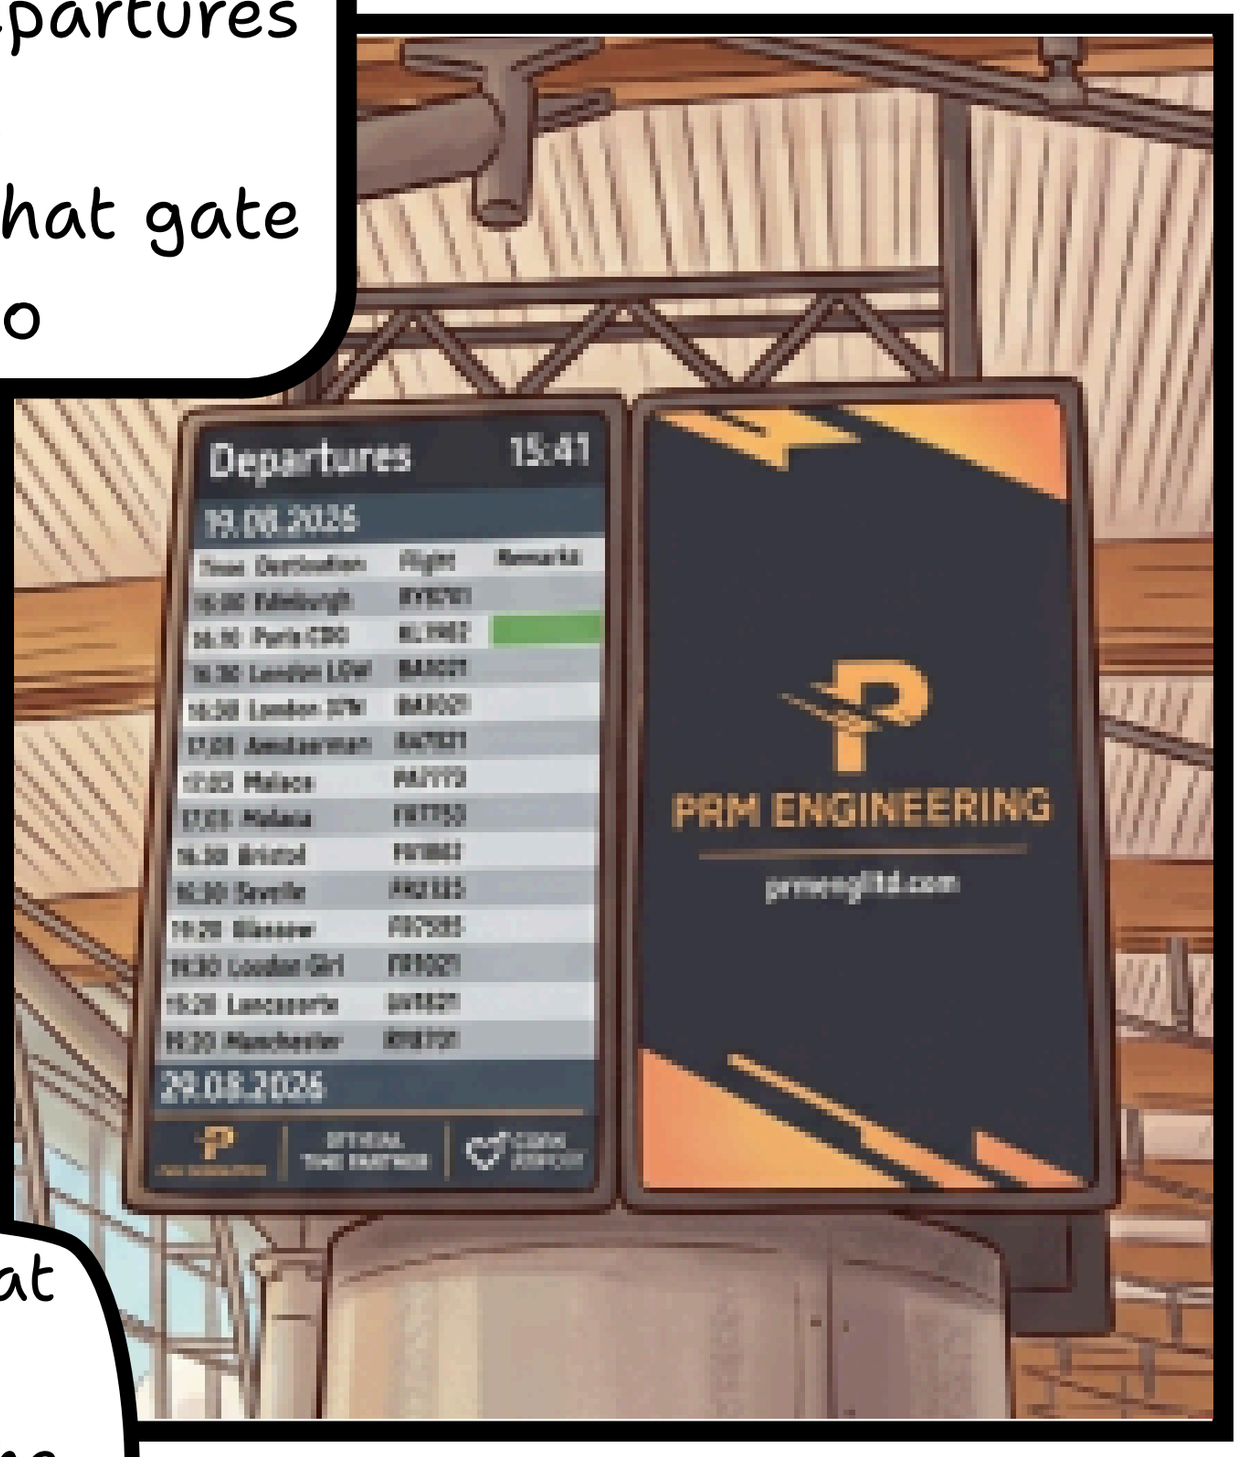

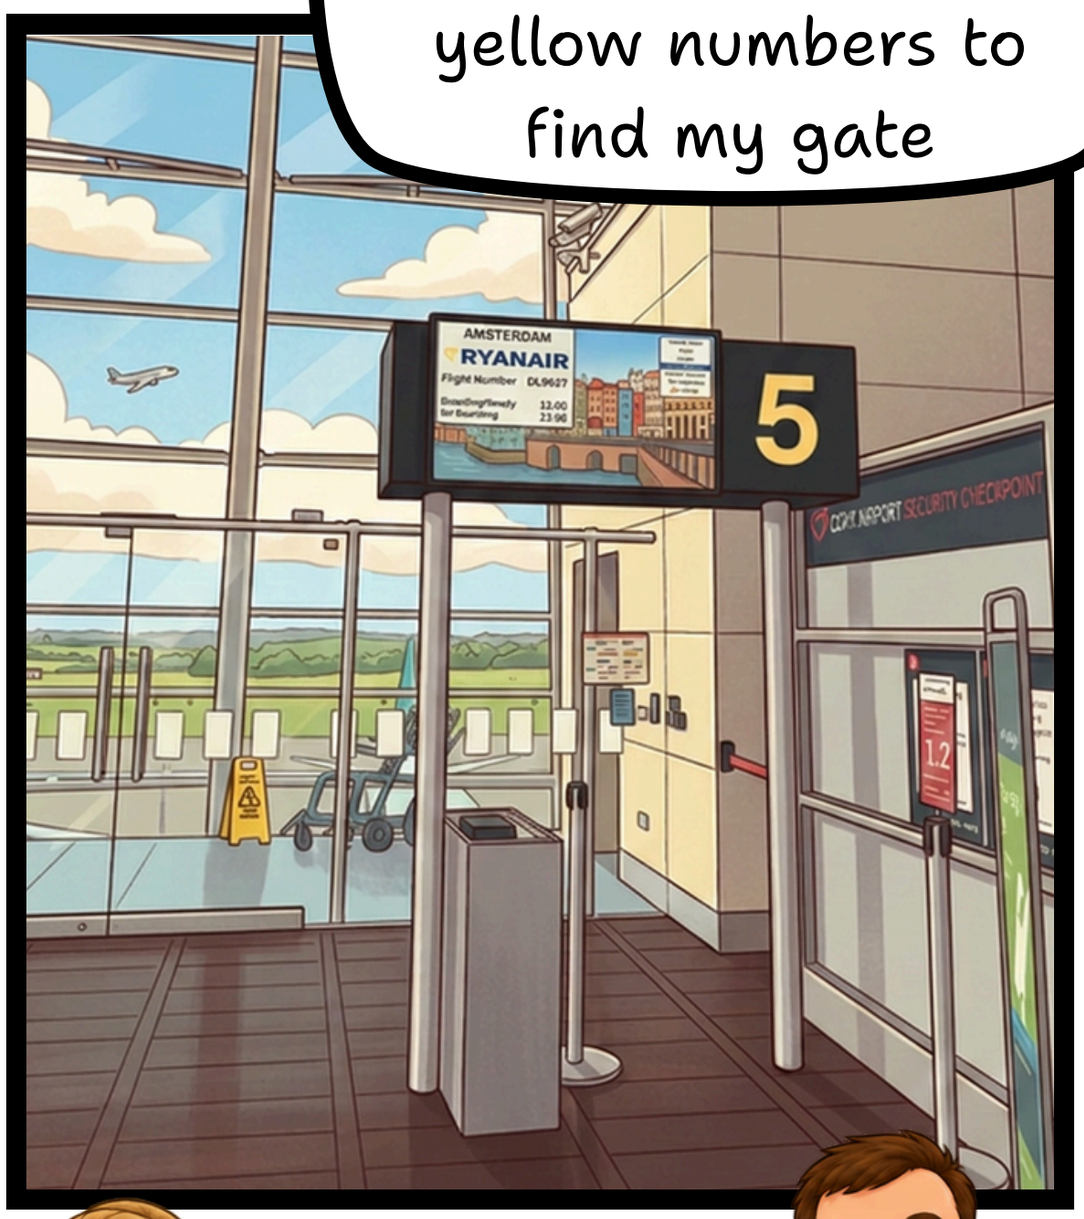

CORK AIRPORT

While I'm waiting, I look at the departures board.
This tell me what gate to go to

There are 8 gates at Cork Airport.
I have to look at the yellow numbers to find my gate

I have to wait a little longer at the gate. I will be called by someone in uniform when it's time to board

Get your passport and boaring pass ready!

CORK AIRPORT

Sometimes we board the plane from an airbridge....

...and sometimes we walk to the plane

We did it!
Thanks for all your help on my adventure through Cork Airport!
Now it's time to enjoy our holidays.
See you next time!
