CASHLESS STADIUM

Our Cashless Stadium

In common with many clubs across the country, Chelsea has decided to move towards a cashless stadium at Stamford Bridge. This will apply on match days and non-match days.

A cashless Stamford Bridge will match expectations for how modern stadiums should operate, bringing the benefits of speed of service and cutting queue times in all areas of the club operations on a matchday.

We appreciate the majority of our fans are already using cards to make their purchases at Stamford Bridge, so the impact of going totally cashless should not be very noticeable. You can use card, contactless card and mobile payments throughout the stadium to make purchases for refreshments, merchandise and even programmes on the day.

Cash Machines

Should you still require one, there is a cash machine located on-site next to the security office by Stamford Gate. There are also cash machines at Fulham Broadway and one across the road from Stamford Gate.
