

Lotus is the premium small kitchen appliance brand for home cooks with big culinary ambition. At the heart of each chef-inspired, meticulously crafted Lotus design is a passion for unlocking culinary confidence and delivering consistently delicious results. Experience function, flavor, and finesse – all in harmony, all in balance.

The Lotus Professional Coffeemaker

Precision & Perfection in Every Cup - For those who appreciate the art of coffee, every cup should be an experience. The Lotus Professional Coffeemaker is SCA Gold Cup Certified, ensuring the highest standard of brewing excellence. The precision-driven technology optimizes temperature and extraction time for a consistently smooth, balanced, and full-bodied flavor. Simply set the number of cups and the desired brew strength—the integrated scale and intuitive display guide you to the ideal cup of coffee every time. Wake up to perfection with programmable brewing and enjoy an effortless, refined coffee ritual.

Accu-Brew™ Technology, Meticulousness in Every Pour – An exacting pour is possible with five customizable brew strength settings. The Accu-Brew technology eliminates guesswork by weighing coffee grounds in real time, ensuring an impeccably consistent taste.

Designed for Pure Enjoyment – The coffeemaker has a 10-cup capacity, and the double walled stainless-steel carafe preserves heat while maintaining fresh-brewed flavor—no hot plate needed. A permanent stainless-steel filter is included for a sustainable, high-end alternative to disposable filters.

Association

The auto pause-and-serve feature allows pouring mid-brew without waiting for the brew cycle to finish.

Seamless Functionality, Effortless Luxury – The coffeemaker has two brew modes – Accu-brew and manual and a clean cycle for complete customization. It is programmable for wake-up coffee and has a removable water reservoir designed for easy refills. The front load basket has a smooth glide drawer for effortless access, and the “last brew memory” function recalls the previous settings for consistency. The cleaning cycle keeps this coffeemaker performing at its best.
